---------------	---	---------

As announced in the last list, the discovery of the rejected application forms from the time of Jack Greatwood and Marjorie Wreford has enabled a re-examination of these applications. As a result a number of earlier applications have now been accepted. The details are noted below.

¹ Rejected because *C. Nancy Borack* had not then been registered. *Bc. Florence C. Sale* [Made 25 Jan. 1957; f.fl. 6 Feb. 1965; application from 1965]. *Cattleya Bess Ferman* [Made 21 Feb 1957; f.fl. 23 Dec 1965; application from 1966].

² Several applications were rejected because *Cattleya harrisoniana* was not recognised as a grex parent. *Blc. Pandora Bracey* [Application from 1966]

C. Elsie Kimberly [Made 1960; f.fl. Dec 1964; application from 1964]

C. Ilsley Ivory Bells [Made 25 July 1961; f.fl. 22 Aug 1966; application from 1966]

Cattleychea [Epicattleya] Little One Inch. [Made 21 July 1960; f.fl. 14 Aug 1964; application from 1965]

Cattleychea [Epicattleya] Shelter Rock [Made 15 Sept 1958; f.fl. Sept. 1964; application from 1965]

³ *Cattleya Cathy Cee.* This application was submitted in Sept. 1965 but not accepted because the pollen parent *C. Saint Petersburg* gx could not be traced. *Cattleya Saint Petersburg* is known from the following reference, *AOS Bull.* 18: 439, 441 (1949).

⁴ *Cattleya H. Wichmann* [Application pre 1966].

C. Osterberg [Application from 1966.] Rejected because seed parent was unregistered.

⁵ Refused because *Cattleya leopoldii* was not accepted as a grex parent.

Cattleya Leopard. [Application from 1966.]

C. Pettite Gem. [F.fl. 1964; application from 1965]

Lc. Norton Boyd [F.fl. Aug 1965, application from 1965]

⁶ *Cattleychea [Epicattleya] Mint Julep.* [F.fl. 10 Jun 1964; application from 1965].

⁷ *Cym. Forster Alcock* appears in *Gard. Chron.* 45: 333 (1909); *Kew Bull.* 1909(App. 3): 65, [listed without a name].

⁸ *Cym. I. W. Bianchi* [Made 27 Mar 1960; f.fl. Mar 1965; application from 1966]. Rejected because pollen parent was unregistered. *Cym. Pearl Haupt* [Application from 1966].

⁹ *Cypripedium planipetalum* has been accepted as a grex parent, which enables the name *Cyp. Bill* to be established for *Cyp. pubescens* x *tibeticum*. Werner Frosch has used a large flowered clone of *Cyp. parviflorum* var. *pubescens*, whereas the earlier registered grex *Cyp. Patrick Pinkepank* used *Cypripedium parviflorum* var. *pubescens* f. *planipetalum*, which is a genetically stable small-flowered form from Canada. See Luer, C.A. (1975) *Native Orchids of the USA and Canada*, p. 50-51, pl. 5(3, 5), [as *Cyp. calceolus* var. *planipetalum*]. This also enables the *Cyp. macranthos* x *pubescens* f. *planipetalum* cross made by Erich Maier in 1993 to be registered.

¹⁰ *Lc. Amelia Mullen* [Made 25 Feb 1957; f.fl. 15 Mar 1963; application from 1966]. Rejected because pollen parent was unregistered. *Lc. Prince Tenebro* [Made pre-1955; application from 1966].

¹¹ *Lc. Hermann Löns* [Made 1959; f.fl. 1965; application from 1966]. Seed parent, submitted as *Lc. Quinette*, was not traced.

¹² *Milt. Chillingford Manor* [Made 1959; f.fl. 22 Jun 1962; application from 1963]. Originally submitted with both parents under the synonyms shown in square brackets.

¹³ *Rhynchosopsis Pale Face*. [Made 7 Jun 1959; f.fl. 12 May 1965; application from 1965].

¹⁴ *Trcdm. Yeok Pin Chua* was submitted for registration in April 1965, but not accepted because the seed parent *Onc. Malvin* could not be traced. *Onc. Malvin* was known to be grown by Shimamoto Orchid Nursery, Hawaii in 1959.

¹⁵ *Vanda Esther Irving* [F.fl. Aug 1963; application from 1964]. Pollen parent not yet traced.

¹⁶ *V. Grove's Dream*. Flower resembles a *V. coerulea* blue/purple form cross, except that the bold reticulation is a deep luminescent hot pink, instead of deep purple. Plant acquired from Chao Praya Nurs., but of unknown origin. The same cross using the normal blue/purple form of *V. coerulea* has also been made in Thailand but is unregistered.

¶ Species appearing for the first time as parents in registration: *Cypripedium calcicolum* Schltr., see note below; *Lockhartia acuta* (Lindl.) Rchb.f.; *Lhta. oerstedii* Rchb.f.; *Masdevallia garciae* Luer; *Maxillaria luteoalba* Lindl.; *Prosthechea tripunctata* (Lindl.) W.E.Higgins, syn. *Epidendrum tripuncatatum* Lindl.; *Restrepia flosculata* Luer; *Vanda javierae* D.Tiu ex Fessel & Lückel, syn. *V. javieriae* orth. error.

CORRECTIONS

Lycasteria Tropical Honey appeared in *Orch. Rev. Suppl.* 112(1257): 40 (May 2004), as Tropical Money. Please correct the spelling.

Potinara Brighton's Bobbie appeared in *SLOH 1981-1985 Addendum* : 726 as Brighton's Robbie, please correct the spelling.

Potinara Li Cheng Star appeared in *Orch. Rev. Suppl.* 111(1253): 75 (Sept. 2003), as Lin Cheng Star. Please correct the spelling.

SANDER'S LIST OF ORCHID HYBRIDS 3-YEAR ADDENDUM 2002-2004

Work to prepare this volume for publication by mid 2005 will start shortly after January 2005. Anyone wishing to have registrations or corrections included in this volume must ensure that their applications reach the Registration office by 31st December 2004.

(Copyright reserved by the Royal Horticultural Society as the International Cultivar Registration Authority for Orchid Hybrids. General permission to publish reprints of this list is limited to the reproduction of the entire list as printed, including all corrigenda, footnotes and notices, if any, with citation of source and date. It excludes *published* collation or integration of one issue's part or part thereof with another except by express permission from the Authority. The Authority accepts no responsibility for the accuracy of any reprints.)

The Registration application form may be downloaded for use, and the Register may be searched on-line at www.rhs.org.uk/research/registration_orchids.asp

REGISTRAR'S NOTES

Angraecoid notes Br-Gp 9.

The following changes have been made to the register to up-date nomenclature.

Aerangis calligera is now a syn. of *Aerangis articulata*

Aerangis laurantii has been transferred to *Summerhayesia* [Sum.] P.J.Cribb. This requires a new nothogenus for the grex Ivory Star.

Summerangis [Smg.] J.M.H.Shaw nothogen. nov. = *Aerangis* Rchb.f. x *Sumerhayesia* P.J.Cribb.

Aerangis friesiorum is now a syn. of *Aerangis thomsonii*

Barombia gracillima has been transferred to *Aerangis*, which also reduces the nothogenus *Barangis* to synonymy under *Aerangis*.

Consequently, the grex Christiane Leroux (1982) becomes an *Aerangis*.

***Cypripedium calcicolum* and *Cyp. smithii*.**

The name *Cyp. smithii* Schltr. in *Acta Horti Gothoburg* 1:129 (1924) is presented as having priority over *Cyp. calcicolum* Schltr. l.c. p.126, see Cribb, *The genus Cypripedium* 1997: 209. However, The *World Monocots Checklist* gives *Cyp. calcicolum* as the priority name. This is because the name *Cyp. Smithii* was already in use for a hybrid *Paphiopedilum*, (Low in *Gard. Chron.* 1893(2): 756; *Orch. Rev.* 1894: 31). Consequently *Cyp. calcicolum* Schltr. is the name to be used in registration. Thanks to P. Cribb for helping with this item.

Masdevallia yungasensis* subsp. *calocodon

The following greges are known to have been made using subsp. *calocodon*:

Antizana (1995); Bob Kohn (1995); Charisma (1990); Don's Dream (1991); Evil Heart (1994); Golden Tiger (1991); Golden Trident (1992); John Leathers (1992); Lucky Stripe (1997); Minaret (1990); Night Stripes (1994); Panama Stripes (2000); Pichincha (1993); Tuakan Candy (1994). See note *Orch. Rev. Suppl.* 112(1258): 62 (July 2004).

***Guarianthe* predated by *Epicladium*.**

Epicladium (Lindl.) Small is the name with date priority for the generic concept recently described as *Guarianthe* Dressler & W.E.Higgins. Therefore hybrid genera involving *Guarianthe* will not be used in registration. Appropriate nothogenera will be provided in due course.

Changes involving *Epidendrum*

An overhaul of nomenclature in the database involving *Epidendrum* and its relatives is long overdue. However, due to the large number of species names involved this will take some time.

The following species name changes have been implemented.

Encyclia lancifolia (Lindl.) Dressler & Pollard (based on *Epidendrum lancifolium* Pavon ex Lindl.) is a synonym of *Prosthechea cochleata* (L.) W.E.Higgins that has been consistently misapplied to plants of *Encyclia trulla* (Rchb.f.) Christenson, see *Lindleyana* 11(4): 222 (1996). Therefore the register entries for *Epi. lancifolium* have been replaced by the name *Encyclia trulla*.

The following new hybrid genera are required to proceed with the work, in line with the generic limits proposed in the forthcoming *Genera Orchidacearum* 4 within *Epidendrum s.l.*

Encyvola [Eyv.] J.M.H.Shaw = *Brassavola* R.Br. x *Encyclia* Hook.

Procyctleya [Pcc.] J.M.H.Shaw = *Cattleya* Lindl. x *Encyclia* Hook. x *Prosthechea* Knowles & Westc.

Prosarthron [Prh.] J.M.H.Shaw = *Caularthron* Raf. x *Prosthechea* Knowles & Westc.

Proslia [Psl.] J.M.H.Shaw = *Laelia* Lindl. x *Prosthechea* Knowles & Westc.

Prosyelia [Prc.] J.M.H.Shaw = *Encyclia* Hook. x *Prosthechea* Knowles & Westc.

Psythechea [Pyh.] J.M.H.Shaw = *Prosthechea* Knowles & Westc. x *Psychilis* Raf.

Schomechea [Smh.] J.M.H.Shaw = *Prosthechea* Knowles & Westc. x *Schomburgkia* Lindl.

Hybrid/a/um - its use in orchid names as an epithet and as a determinant.

The term hybrid and its latinised equivalent hybrida/um has been employed in orchid grex and cultivar names both as a determinant, (where it serves to indicate taxonomic status, performing the same role as words such as var. or subspecies) and also as an epithet in its own right. Under the ICNCP Art. 19.20 a cultivar or grex name established after 1st January 1996 may not contain the word hybrid or its equivalent in any language. The list below illustrates the confusion that may arise from its use and itemises all known occurrences of the word hybrid/a/um as part of a grex epithet in the register.

In the following two examples hybridum functions as a determinant rather than part of the epithet. In modern names it would be replaced by a multiplication sign or x:

Odm. hybridum 'Ashworthianum', O.R. 1898: 126 = *Odm. aspersum* 'Violaceum' = *Rhynchostele rossii* 'Violaceum', *Gard. Chron.* 17: 468 (1895); *Kew Bull.* 1896(App. 2): 50; *Kew Bull.* 1899(App. 2): 49.

Cypripedium Hybridum Pollettianum (Calophyllum Superbum x Oenanthum Superbum). This name appears as a caption to a painting now at Kew. The name should be read: *Paphiopedilum* [hybrid] Pollettianum (*Paph.* Calophyllum 'Superbum' x *Paph.* Oenanthum 'Superbum') where Hybridum serves in place of a multiplication sign to indicate that Pollettianum gx is of hybrid origin.

The following list contains all the grex names currently in the Register which include the term hybrid/ hybrida/um as part or whole of the epithet:

Aerides Hybridum = *Aer. multiflora* x *Aer. Fieldingii*, Veitch, 1871. Ref. Gard. Chron. 1871: 44; Orch. Rev. 1893: 35; [FCC/RHS 11 Jun 1862]; R&H 1909: 43; syn. *Aerides* Dominyanum.

Brassolaeliocattleya Tring Park Hybrid = *B. [Rl.] digbyana* x *Lc. Eximia*, Lord Rothschild, 1904. Ref. Orch. Rev. 1906: 180; R&H 1909: 256 gives *B. digbyana* x *Lc. Callistoglossa*, 1906, which suggests that the name has been applied to two different grexes.

Cattleya Hybrida = *C. guttata* x *C. loddigesii*, Veitch, 1859. Ref. *Cattleya X hybrida* Veitch, in Gard. Chron. 1863: 602 (1863); syn. *C. picta*; *hybrida picta*; *picturata*. Rolfe & Hurst 1909: 59, 'The first hybrid *Cattleya* raised by hand, and one which has subsequently been much confused with allied hybrids.'

Epicattleya Lamberhurst Hybrid = *Epi. [Euchile] citrinum* x *C. intermedia*, Dr Harris, 1887.

Laeliocattleya Hybrida = *C. warneri* x *L. pumila*, Wavrin, 1902.

Lycaste Hybrida = *Lyc. deppei* x *Lyc. skinneri*, Marshall, 1878. Syn. *Lyc. Cappei*. *Lyc. Hybrida* is the horticultural equivalent of the natural hybrid *Lyc. smeeana* Rchb.f.

Masdevallia Bocking Hybrid = *Masd. cucullata* x *Masd. veitchiana*, Courtauld, 1899.

Oncidium Hybridum = *Onc. lamelligerum* x *Onc. tigrinum*, Charlesworth Ltd., 1909. Ref. G.C. 46: 439 (1909); J. of H. 59: 614 (1909); Kew Bull. 1910(App. 3): 75;

Onc. Hybridum = *Onc. fuscatum* 'Weltoni' (as *Miltonia warscewiczii* var. *weltoni*) x *Oncidium sphacelatum*. Ref. *XMiltonidium hybridum* Hiroe. Orchid Flowers, 2. 40 (1971), without latin descr. or type. Known from cultivation. A synonym of *Onc. (Miltonidium) Toltec*, W.W.G.Moir, 1969.

Paphiopedilum Fine Hybrid = parentage not known, O/U, 1946. Although used as a parent of another grex, this name is not established, and hence invalid, as the parentage is not known to have been published.

Phaius Hybridus = *Phaius grandifolius* [= *Ph. Tankervilleae*] x *Phaius wallichii*, D.Drewett, 1892. Syn. *Phaius Gravesii*. Ref. *Phaius X hybridus* O'Brien in Gard. Chron. 1892(1): 619; O.R. 1893: 241, f.13 ['Gravesii']; 356; Will. Orch. Grow. Man. ed. 7 (1894) 654; R&H 1909: 224. See Orch. Rev. 68: 368 (1960), both parents are synonyms of *Ph. tankervilleae*.

Phalaenopsis rofino.

This name appears occasionally on applications as a grex parent, presented as though a species. It is a vernacular name in use on Flores Island, Indonesia for the species *Phal. floresensis* Fowlie, which is endemic to the island. Applications using this name will be registered with *Phal. floresensis* 'Rofino' as the grex parent. In recent horticultural use, Rofino has been employed as a Group name, and a number of elements named within it. Some of these are illustrated in *The New Phalaenopsis of Taiwan in 1993* (special edition) p. 15, including 'Evergreen no 1', 'Evergreen no 2', and at least one other unnamed clone. For further information and references see Christenson, *The genus Phalaenopsis* 2001: 122-124; Chiba Masaaki, *Phalaenopsis species* 2002: 42-43.

Zygorhyncha and Chonrdopetalum.

The nothogenus *Zygorhyncha* [*Zcha.*] was published by Mansfield in *Gartenfl.* 85: 254 (1936) as *Chondrorhyncha* x *Zygopetalum*. Mansfield sites *Chondropetalum* hort. as a synonym of *Zygorhyncha*. While *Chonrdopetalum* [*Cho.*] Rolfe in *Orch. Rev.* 16: 56 (Feb. 1908) appears to have date priority, it cannot be used in registration, as it is a later homonym of *Chonrdopetalum* Rottb., *Descr. Plant. Rar. Program.* 12 (1772), a southern African genus of *Restionaceae*, see R. A. Dyer, *The Genera of Southern African Flowering Plants* 2: 901 (1976). The sole known hybrid *Zcha. Fletcheri*, is illustrated in *Orch.Rev.* 1908: 56, f. 8; *Gard. Chron.* ser. 3, 45: 9, f. 12 (1909).

Web version searches of the Orchid Register using names with diacritical marks.

One frequently asked question is 'How can I search for a grex name that contains an accent or other diacritical mark?' To produce the required character on your screen in the web grex search box do the following: select the character from the table below, then with the number lock for the number key pad on, hold down the Alt. key while tapping in the three digit code. If you want examples, you might like to try *Blc. Caribeña del Paraíso*, *Paph. Raïta*,

Phal. Baptême.
