Grey to green

- This is where the greatest nature gains are
- Every nursery, school and college has some grey space
- You can take time to study nature on our site before changing any green spaces, enabling you to measure your nature gains

By changing parts of our 'grey' landscape of human-made areas into natural habitat, however tiny, we are creating homes and resources for wildlife to move into and thrive.

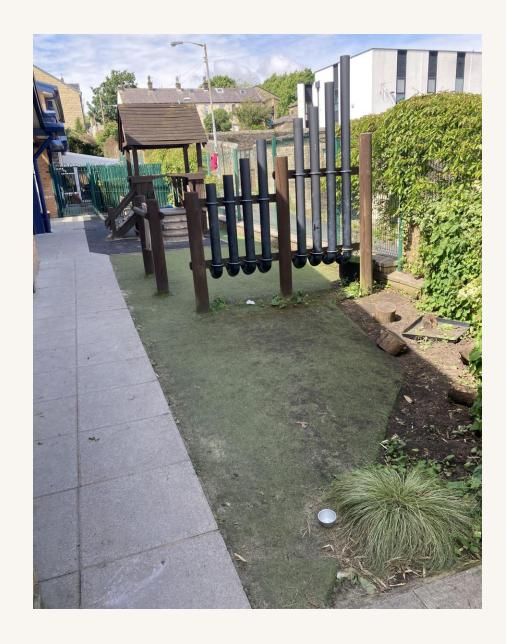

Natural habitats boost wellbeing, calmness and coolness on a site, and can improve water drainage and climate resilience.

Grey space

Not eligible – spaces that already are green

Eligible expenditure

- Capital spend only
- Expenditure should add biodiversity and enable engagement with the National Education Nature Park programme
- Grey to green habitat enhancements, including making improvements to year 1 grant project
- Creating or adding biodiversity to grasslands
- Creating or improving ponds

Spending limits

I 4 CS

- Up to £10,000 on biodiversity interventions
 - Plants
 - Ponds
 - Planting material
 - Water holders and irrigation

- **Up to £2,000** on fieldwork equipment
- Up to £2,000 in total on sheds or other equipment storage, wet weather gear, tools, gloves or other gardening gear
- Up to 50 percent of your grant amount on specialist support such as contractors or biodiversity experts.

Example eligible budget:

- £2,500 on biodiversity items
- £460 on a toolshed
- £1,630 on tablets and camera traps
- £3000 on concrete removal

Total: £6,090

Not eligible

- Enhancement of green space unless it is a pond or grassland
- Building outdoor classrooms, play areas or structures that aren't part of a project to increase biodiversity
- Training or CPD
- Overtime payments for school staff
- Visits to local nature sites
- Seating unless it can be a habitat (eg it has an integrated planter) or is needed for accessibility
- Anything outside of the school site
