

# Share your seedlings!

Are you overwhelmed with seedlings after your Spring sowings? Did you take part in the **RHS Big Seed Sow**? Why not share your plants with your community or neighbourhood!

We've collaborated with **Project Grow** to bring you these handy plant label templates, so that you can pass on your excess seedlings and give their new owners all the tips and information needed to nurture them.

Join us, share your seedlings, and we can encourage more people to grow together!

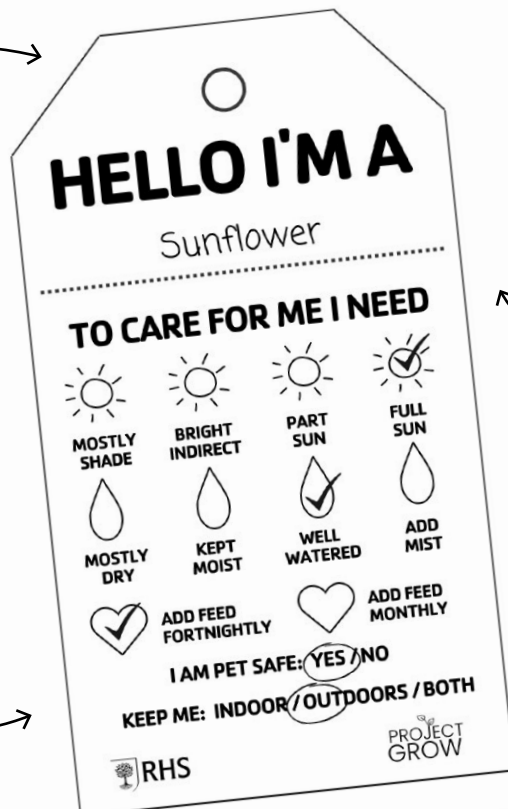

1. Why not print me onto coloured paper or card to draw attention to me for my new plant owner!

2. Write your plant name here, or use the pre-filled tags for our selection of #RHSBigSeedSow seeds

5. Hole punch me here and attach a string to your pot or plant

4. Circle the relevant care instructions that apply to your plant

3. Colour in or tick the relevant care instructions that apply to your plant
