The International
Daffodil Register
& Classified List
(2008)

Fifteenth Supplement

FIFTEENTH SUPPLEMENT
to the
INTERNATIONAL DAFFODIL REGISTER AND CLASSIFIED LIST (2008)
2021–2022

The daffodil names listed here are supplementary to the *International Daffodil Register* (2008) and were registered between **1st July 2021 and 10th August 2022**. Registrations are followed by a list of some other recent additions and amendments to the Register & Supplements.

REGISTRATION

Hybridisers, raisers and other introducers of daffodils are urged to ensure that the names of new plants are registered and are reminded that registration should preferably take place **before** plants are released or catalogued. Registration is conducted by The Royal Horticultural Society, International Cultivar Registration Authority for the genus *Narcissus*. Application forms are available from:

- The International Daffodil Registrar: Ms Melanie Underwood
RHS Wisley, Woking, Surrey GU23 6QB, UK
Email daffodil@rhs.org.uk
- The National Daffodil Registrar (the Netherlands): Ms Saskia Bodegom
KAVB, Postbus 175, 2180 AD Hillegom, the Netherlands
Fax (31) 2525 369 51
Email bodegom@kavb.nl
- The National Daffodil Registrar (USA): Mrs Mary Lou Gripshover
Email mgripshover@cinci.rr.com
- The National Daffodil Registrar (New Zealand): Mr Mike Smith
Email mikesmithmotueka@gmail.com
- The National Daffodil Registrar (Australia): Mr Graeme Davis
Email graemecdavis@hotmail.com

Once registered, names and classifications may be changed only with the agreement of the International Cultivar Registration Authority, upon application to the International Registrar.

NOTES ON CLASSIFICATION AND DESCRIPTION

Note 1 – on classification

The combination of division and colour code assigned here (or as amended in any future Supplement) is the registered classification, to be observed, for example, when schedules require cultivars to be shown “as registered”. The registered classification is not altered by any note of variable measurement or colour.

Note 2 – on colour coding

Guidelines on colour coding, including those on distinguishing between Yellow and Orange and between Orange and Red, appear in the Register and on registration forms. It is at the registrant's discretion to distinguish White from Yellow or Green, Yellow from Green, or Pink from the paler tones of Orange or Red.

In addition:

– Green at corona base

The green at the base of a corona, whether in the tube or in the corona itself, may be included in the colour code if it is prominent and plain to see. Registrants are advised to include it only if it is consistent from year to year.

– Non-concentric colours

When coding colours in perianth or corona that appear in radial rather than concentric bands, or in a flare from the base, or in flecks or splashes: start with a letter for the predominant colour; proceed with an oblique line; follow with the letter(s) (in any order) for the non-predominant colour(s).

For example, a yellow flower with a white streak along the midrib of the perianth segments would be Y/W-Y; a white flower with radial bands of orange and yellow on the corona segments would be W-W/OY.

Note 3 – on colour terms

Colour Chart numbers in registered descriptions, *e.g.* ‘Angel’s Baby’ brilliant greenish yellow 6A, are from the *RHS Colour Chart* (1966, 1986, 1995, 2001, 2007, 2015). Colour names followed by Chart numbers without brackets are equivalents adopted by the RHS for all its international registers. They are taken from the Universal Colour Language in the Inter-Society Color Council-National Bureau of Standards colour-name system. Colour names followed by Chart numbers with brackets or by no numbers at all are those supplied by the registrant.

Note 4 – on description

Registered descriptions are drawn up from application forms and, whenever possible, from photographs and specimens. The Registrar would welcome readers’ comments on the accuracy of all descriptions. Illustrations of descriptive terms appear on page 30.

Note 5 – on height

Stem heights in registered descriptions may be taken to be Standard (325–675mm) unless otherwise stated, when they will be described as Dwarf (less than 325mm) or Tall (more than 675mm).

Note 6 – on Nomenclatural Standards

The Standard noted at the end of some descriptions is the designated herbarium specimen or illustration forming a permanent record of the distinguishing characteristics of the cultivar and fixing the cultivar name. These are maintained at the RHS Herbarium, Wisley.

Note 7 – on unregistered names

Names listed as ‘unregistered’ are those post-1955 that have not been accepted by the RHS or have not yet been submitted for registration. They are included as part of the Check List and they gain no registered status by being listed. They are included in order to prevent confusion between daffodils of the same name and to help prevent further duplication.

REGISTRATIONS 2021–2022

The following 179 cultivar names were registered between 1st July 2021 to 10th August 2022 by The Royal Horticultural Society, International Cultivar Registration Authority for the genus *Narcissus*.

Entries follow the style of those in the *International Daffodil Register and Classified List* (2008) and may be interpreted accordingly (see p10 in the Register).

The seed parent is given before the pollen parent.

‘Akhila’ 2 Y-YO

(Brian S.Duncan) Susan Duncan, 2022
‘Pacific Rim’ × ‘Outline’; sdlg no. 4340
Fl. forming a double triangle, 77mm wide; perianth segments 30mm long, very broadly ovate, blunt, yellow, with slight white mucro, spreading, plane or with margins incurved at apex, smooth and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 17mm long, cup-shaped, smooth, yellow, with subtle orange at rim, mouth expanded, broadly ribbed and lobed, with rim minutely crenate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170502)

‘Amber Energy’ 2 Y-YOO

(Brian S.Duncan) Susan Duncan, 2022
‘Hocus Pocus’ × ‘Carolina Dale’; sdlg no. 4708
Fl. forming a double triangle, 93mm wide; perianth segments 37mm long, ovate, truncate, yellow, with white mucro, spreading, plane, with margins incurving towards apex, creased and of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate; corona 13mm long, broad funnel-shaped, angled, orange, with yellow at base, mouth ribbed, straight, lightly frilled and shallowly lobed, with rim crenate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170504)

‘American Baby’ 2 Y-P

(Brian S.Duncan) Susan Duncan, 2022
Sdlg (‘American Heritage’ × ‘Filoli’) × Sdlg (‘American Heritage’ × ‘Filoli’); sdlg no. 4806
Fl. 97mm wide; perianth segments 40mm long, very broadly ovate, blunt, yellow, reflexed, plane or with margins a little incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, somewhat shouldered at base; corona 38mm long, narrow funnel-shaped, angled, opening yellow, becoming yellowish pink, mouth straight and broadly rim, with rim notched. Late.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0170383)

‘Angel’s Baby’ 5 Y-Y

(H.Koopowitz, 2007) H.Koopowitz, 2022
‘Angel’s Whisper’ self-pollinated; sdlg no. 2007-031
Bred from tetraploid ‘Angel’s Whisper’
Fls up to 3 per stem, 24mm wide, brilliant greenish yellow 6A; perianth segments 15mm long, oblong, blunt, with pale mucro, reflexed, plane or with

margins incurved, with midrib showing, of heavy substance, overlapping one quarter; corona 11mm long, cup-shaped, smooth, mouth slightly ribbed and even, with rim entire. Dwarf. Early. Sunproof.
Nomenclatural Standard: colour print supplied by registrant (WSY0170254)

‘Anshuman’ 1 Y/O-O

(Brian S.Duncan) Susan Duncan, 2022
‘Pacific Rim’ × ‘Red Reed’; sdlg no. 4565
Fl. forming a double triangle, 80mm wide; perianth segments 32mm long, broadly ovate, blunt, scarcely mucronate, yellow, heavily flushed orange, spreading, plane, creased and of membranaceous substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 35mm long, funnel-shaped, smooth, orange, mouth broadly flared, ribbed and wavy, with rim crenate. Mid-season.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0170509)

‘Arathi’ 2 Y-P

(Brian S.Duncan) Susan Duncan, 2022
‘Rocoza’ × ‘Jauno’; sdlg no. 4712
Fl. forming a double triangle, 100mm wide; perianth segments 37mm long, broadly ovate, blunt, golden yellow, with scarce pale mucro, spreading, plane, with margins a little incurved, creased and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 30mm long, cylindrical, angled, opening dark golden yellow, becoming peachy pink, mouth straight, ribbed and flared, with rim notched. Mid-season.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0170510)

‘Arrowcreek Joy’ 1 Y-YOO

(Brian S.Duncan) Susan Duncan, 2022
‘Proud Fellow’ × ‘Kingstanding’; sdlg no. 4588
Fl. 115mm wide; perianth segments 45mm long, very broadly ovate, blunt, yellow, with pale mucro, spreading, plane, creased and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 47mm long, narrow funnel-shaped, angled, orange, merging with yellow at base, mouth straight, broadly ribbed and notched, with rim narrowly flanged. Mid-season.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0170511)

'Ault Park' 3 W-Y

(Mary Lou Gripshover) Mary Lou Gripshover, 2022
 Parentage unknown; sdlg no. 97-24-X
 Fl. forming a double triangle, 70mm wide; perianth segments 30mm long, roundish, very broad, truncate or blunt, mucronate, spreading, plane or with margins incurved, with midrib showing, of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base, scarcely mucronate; corona 5mm long, disc-shaped, angled, mouth ribbed, straight and lightly frilled, with rim crenate. Very late.
 Nomenclatural Standard: colour print supplied by registrant (WSY0170500)
 Etymology: a park in Cincinnati, Ohio, USA

'Ayloff's Walk' 2 W-Y

(Reg Nicholl, 2017) Trevor Marlow, 2022
 'Greenodd' × 'Astrid's Memory'; sdlg no. 1/19
 Fl. forming a double triangle, 95mm wide; perianth segments 41mm long, ovate, white, spreading, plane, smooth and of heavy substance; corona 20mm long, cup-shaped, smooth, vivid yellow 14A, mouth straight and even, with rim crenate. Mid-season. Sweetly scented

'Baby Jack' 5 Y-Y

(Brian S.Duncan) Susan Duncan, 2022
 'Little Tyke' × *N. triandrus* subsp. *pallidus*;
 sdlg no. 4585
 Fl. facing downwards; perianth segments ovate, blunt, spreading, plane or with margins a little incurved, smooth and of membranaceous substance, overlapping one-third; corona narrow funnel-shaped, mouth straight and ribbed, with rim minutely crenate. Early to mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0170386)

'Ballroom Belle' 10 W-W

(Walter J.M.Blom) C.van der Veek, 2022
 Parentage unknown
 Fl. star-shaped, 50mm wide, facing slightly upwards; perianth segments 17mm long, lanceolate, acute at apex, white, touched green at apex, spreading, plane or a little twisted, smooth and of heavy substance, separated; corona 23mm long, funnel-shaped, angled, white, mouth expanded, ribbed and even, with rim entire. Dwarf. Very early.
 Nomenclatural Standard: colour print supplied by registrant (WSY0170355)

'Ballroom King' 4 Y-Y

(R.A.Scamp, 1990) R.A.Scamp, 2022
 Sdlg 1Y-Y × 'Marjorie Treveal'; sdlg no. 932
 Fl. rounded, 95mm wide; perianth and other petaloid segments in three or more whorls, yellow, with slight pale mucro; the two outer whorls 35mm long, very broadly ovate, rounded at apex, spreading, plane or with margins incurved, smooth and of heavy substance, overlapping half or more; the inner whorls successively narrower, shorter and more strongly inflexed towards centre; the inner petaloid segments concave or folded inwards along midrib; corona segments 20mm long,

interspersed among inner petaloid whorls and clustered at centre, frilled. Tall. Early to mid-season. Sunproof.
 Nomenclatural Standard: colour print supplied by registrant (WSY0170337)

'Ballroom Queen' 4 W-O

(R.A.Scamp, 1990) R.A.Scamp, 2022
 Sdlg 4W-P × 'Gay Kybo'; sdlg no. 941
 Fl. rounded, 95mm wide; perianth and other petaloid segments in three or more whorls, mucronate; the two outer whorls 35mm long, very broadly ovate, rounded at apex, spreading, plane or with margins incurving, smooth and of heavy substance, overlapping half or more; the inner whorls successively narrower, shorter and more strongly inflexed towards centre; the inner petaloid segments concave or crumpled; corona segments 20mm long, interspersed among inner petaloid whorls, frilled, with rim minutely crenate.
 Tall. Mid-season to late. Sunproof.
 Nomenclatural Standard: colour print supplied by registrant (WSY0170335)

'Beautiful Choice' 2 W-YY

(Brian S.Duncan, 2006) Brian S.Duncan, 2022
 'Amazing Grace' × 'Cape Point'; sdlg no. 3334
 Fl. forming a double triangle, 110mm wide; perianth segments roundish, very broad, blunt, white, spreading, shallowly concave, with midrib showing, of membranaceous substance, overlapping half; the inner segments narrower, ovate; corona funnel-shaped, angled, yellow, with a neat band of pink at rim, mouth expanded and even, with rim crenate.
 Nomenclatural Standard: colour print supplied by Choice Bulbs & Plants (WSY0170260)

'Ben Graham Junior' 7 Y-Y

(Brian S.Duncan) Susan Duncan, 2022
 'Regeneration' open pollinated; sdlg no. 4823
 Fls 3 per stem, 50mm wide, golden yellow; perianth segments 22mm long, very broadly ovate, truncate, with pale mucro, spreading, plane or with margins incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, blunt, scarcely mucronate, shouldered at base; corona 10mm long, deep bowl-shaped, smooth, mouth expanded and wavy, with rim minutely crenate. Mid-season.
 Nomenclatural Standard: colour print supplied by hybridiser (WSY0170390)
 Etymology: in honour of daffodil lover and ADS member who passed away suddenly in February 2022

'Beta Crucis' 2 W-W

(David Adams) David Adams, 2022
 Parentage unknown
 Fl. forming a double triangle, 110mm wide; perianth segments 49mm long, ovate, acute, mucronate, spreading, plane, with margins incurving, smooth and of heavy substance, overlapping one-third; the inner segments narrower; corona 30mm long, funnel-shaped, ribbed, mouth straight, ribbed and frilled, with rim crenate. Mid-season. Sunproof

'Big Basin Bells' 7 YYW-W

(Brian S.Duncan) Susan Duncan, 2022

N. jonquilla open pollinated selection; sdlg no. 4351
Fls 3 per stem; 62mm wide; perianth segments 25mm long, ovate, blunt, luminous yellow, touched white at base, with prominent pale mucro, spreading, plane or with margins narrowly incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, with midrib showing; corona 18mm long, cup-shaped, smooth, opening light golden yellow, becoming white, mouth expanded and wavy, with rim minutely crenate. Mid-season. Strongly scented. Nomenclatural Standard: colour print supplied by hybridiser (WSY0170392)

Etymology: high elevation desert nestled between the Sierra Nevada Mountains and the western edge of the Rock Mountains in the United States

'Blonde Brownie' 2 W-W/Y

(Brian S.Duncan) Susan Duncan, 2022

'Jammin' × 'Jodi'; sdlg no. 4728

Fl. 105mm wide; perianth segments 41mm long, roundish, very broad, rounded at apex, mucronate, white, spreading, plane, creased and of membranaceous substance, overlapping half; the inner segments narrower, scarcely mucronate, shouldered at base; corona 19mm long, bowl-shaped, smooth, opening yellow, becoming white, heavily flushed with yellow, mouth expanded, ribbed, lightly frilled and lobed, with lobes overlapping. Mid-season.

Nomenclatural Standard: colour print supplied by hybridiser (WSY0170512)

'Booligal' 3 Y-YYO

(Tony Davis) Graeme Davis, 2021

'Legislator' × 'Red Era'; sdlg no. 57/17

Fl. 90mm wide, facing upwards; perianth segments 33mm long, roundish, very broad, truncate, slightly mucronate, a little reflexed, plane or with margins incurved, smooth and of membranaceous substance, overlapping half or more; the inner segments narrower, more nearly plane, scarcely mucronate, somewhat shouldered at base; corona 10mm long, bowl-shaped, ribbed, mouth expanded, wavy and shallowly lobed, with rim crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0170130)

'Brave Blossoms' 2 Y-Y

(M.J.Brown, 2011) M.J.Brown, 2021

'Impeccable' × 'Gold Convention'; sdlg no. 05-25A

Fl. forming a double triangle, 110mm wide; perianth segments 49mm long, ovate, blunt, brilliant yellow 13B, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower, somewhat shouldered at base; corona 44mm long, funnel-shaped, smooth, vivid yellow 14A, mouth straight, wavy and somewhat lobed, with rim minutely crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0170149)

Etymology: Japanese Rugby team

'Breezemount' 2 W-P

(Hubert Hamill, 2017) Brian S.Duncan, 2021

'Amazing Grace' × 'Extempore'; sdlg no. 4851a

Fl. forming a double triangle, 110mm wide; perianth segments 43mm long, roundish, blunt at apex, mucronate, white, spreading, plane, with margins narrowly incurved, creased and of membranaceous substance, overlapping half or more; corona 30mm long, funnel-shaped, angled, reddish pink, mouth straight and lightly frilled, with rim notched. Mid-season.

Nomenclatural Standard: colour print supplied by hybridiser (WSY0170145)

Etymology: place name in County Tyrone

'Buchfeldgasse Acht' 3 W-YYO

(Brian S.Duncan) Susan Duncan

B.Duncan sdlg 3208 × 'Coliseum'; sdlg no. 4653

Fl. 120mm wide; perianth segments 50mm long, roundish, very broad, blunt, scarcely mucronate, white, touched yellow at base, spreading or a little reflexed, plane or with margins slightly incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base, more nearly spreading, with margins more strongly incurved; corona 13mm long, bowl-shaped, ribbed, yellow, with broad band of brilliant orange at rim, mouth expanded, lightly frilled and lobed, with lobes overlapping, with rim crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0170407)

Etymology: place Registrant lived while studying in Vienna, Austria

'Buisine' 1 Y-O

(Brian S.Duncan) Esker Farm Daffodils, 2022

'Disquiet' × ('Hero' × ['Barnum' × 'King's Grove']);

sdlg no. 4049

Fl. forming a double triangle, 115mm wide; perianth segments 47mm long, ovate, blunt, slightly mucronate, spreading, plane, creased and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 53mm long, funnel-shaped, angled, mouth straight, lobed and a little wavy, with rim minutely crenate.

Nomenclatural Standard: colour print supplied by registrant (WSY0170249)

Etymology: long French horn

'Canny Choice' 2 Y-YYO

(Brian S.Duncan, 2006) F.Charlton, 2022

'Treasure Hunt' × 'Gold Ingot'; sdlg no. 3309

Fl. forming a double triangle, 110mm wide; perianth segments roundish, very broad, blunt, deep golden yellow, with slight pale mucro, spreading, plane or with margins incurved, creased and of membranaceous substance, overlapping half; the inner segments narrower, shouldered at base; corona cylindrical, angled, deep golden yellow, merging with orange at rim, mouth wavy, broadly ribbed and shallowly lobed, with rim minutely crenate. Mid-season. Sunproof.

Nomenclatural Standard: colour print supplied by hybridiser (WSY0170262)

‘Cardamom Cream’ 2 W-P

(Brian S.Duncan) Susan Duncan, 2022

‘Alto’ × ‘Extempore’; sdlg no. 4639

Fl. forming a double triangle, 100mm wide; perianth segments 35mm long, broadly ovate, blunt, slightly mucronate, white, spreading, plane, with margins narrowly incurling, smooth and of membranaceous substance, overlapping half; the inner segments narrower, scarcely mucronate; corona 30mm long, funnel-shaped, angled, pink, a little darker in tone towards rim, mouth straight and wavy, with rim shallowly notched, somewhat narrowly flanged. Mid-season.

Nomenclatural Standard: colour print supplied by hybridiser (WSY0170399)

‘Carrie Belle’ 2 Y-O

(Lewis Turner, 2005) Lewis Turner, 2022

‘Rio Rouge’ × ‘Stylish’; sdlg no. L97-24

Fl. 80mm wide; perianth segments 34mm long, broadly ovate, blunt, brilliant greenish yellow 4A (in cooler seasons or geographical regions the perianth is or may be flushed orange), with slight pale mucro, spreading, plane, creased and of heavy substance, overlapping half; the inner segments narrower, truncate, scarcely mucronate, with margins incurved; corona 13mm long, cup-shaped, ribbed, strong orange (25A), mouth wavy and a little expanded, with rim notched. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0170372)

‘Chocolate Chip Cookie’ 2 Y-P

(Brian S.Duncan) Susan Duncan, 2022

Sdlg 3190 × ‘Better Still’ unregistered; sdlg no. 4654

Fl. 78mm wide; perianth segments 30mm long, very broadly ovate, blunt, spreading, plane, with margins incurling, creased and of membranaceous substance, overlapping half; the inner segments narrower; corona 13mm long, very narrow funnel-shaped or cylindrical, angled, mouth even, a little expanded, shallowly lobed, with rim entire. Mid-season.

Nomenclatural Standard: colour print supplied by hybridiser (WSY0170404)

Etymology: famous cookies baked by Ben and Elana Graham and given away during the year-end holidays at the Nevada State Legislature and Capitol buildings in Carson City

‘Connor Shayne’ 1 W-Y

(David Adams, 2007) David Adams, 2022

‘Snowy Morn’ × ‘Chaos’ unregistered; sdlg no. 99/05

Fl. rounded, 98mm wide; perianth segments 39mm long, very broadly ovate, blunt, mucronate, spreading, plane, smooth and of heavy substance, overlapping half or more; the inner segments shouldered at base; corona 40mm long, funnel-shaped, smooth, mouth flared, ribbed and frilled, with rim crenate. Early to mid-season. Sunproof

‘Cornish Dawn’ 7 Y-O

(Rosewarne EHS) Gebr. Hulsebosch, 2022

Parentage unknown

Fls (1–)2 per stem, forming a double triangle; perianths broadly ovate to roundish, blunt, mucronate, yellow, spreading, plane or with margins incurved, smooth and of heavy substance, overlapping half or more; the inner segments narrower; corona cup-shaped, smooth, opening strong orange, becoming yellow-orange, mouth wavy and a little expanded, with rim crenate. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0170363)

‘Cream Scone’ 2 W-Y

(David Adams, 2019) David Adams, 2022

Parentage unknown; sdlg no. FIP19/4

Fl. rounded, 89mm wide; perianth segments 39mm long, very broadly ovate, rounded, mucronate, white, spreading, convex, with margins incurving, smooth and of heavy substance, overlapping half or more; corona 17mm long, bowl-shaped, ribbed, creamy yellow, mouth straight and frilled, with rim crenate. Early to mid-season. Sunproof

‘Cunaris’ 2 W-W

(Malcolm Wheeler, 2011) Malcolm Wheeler, 2022

N. atlanticus × *N. watieri* hybrid; sdlg no. M126

Fl. forming a double triangle, 30mm wide; perianth segments 13mm long, roundish, blunt, prominently mucronate, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower, ovate, scarcely mucronate; corona 6mm long, cup-shaped, ribbed, mouth even and a little flared, with rim entire. Dwarf. Early. Sweetly scented. Nomenclatural Standard: colour print supplied by registrant (WSY0170235)

Etymology: Cunaris Sound, Fiordland, New Zealand

‘Cynthia Lee’ 1 W-Y

(Brian S.Duncan) Susan Duncan, 2022

‘Wyong’ × ‘Fiona MacKillop’; sdlg no. 4841

Fl. forming a double triangle, 112mm wide; perianth segments 42mm long, very broadly ovate, blunt, slightly mucronate, white, touched yellow at base, spreading, plane, smooth and of membranaceous substance, overlapping half; the inner segments narrower, shouldered at base, with margins somewhat wavy; corona 50mm long, narrow funnel-shaped, smooth, yellow, mouth straight and even, with rim rolled and crenate. Mid-season.

Nomenclatural Standard: colour print supplied by hybridiser (WSY0170396)

Etymology: for one of the Registrant’s sisters

‘Czaplinek Circle’ 2 Y-O

(Brian S.Duncan) Susan Duncan, 2022

‘Bouzouki’ × ‘Wild Rover’; sdlg no. 4620

Fl. forming a double triangle, 85mm wide; perianth segments 35mm long, broadly ovate, blunt, mucronate, spreading, plane or with margins a little

incurved, smooth and of heavy substance, overlapping half; the inner segments narrower; corona 25mm long, funnel-shaped, smooth, mouth straight and even, with rim minutely crenate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170406)
Etymology: town in Poland, formerly known as Templeburg as part of Prussia, where some of the ancestors of the Registrant's husband lived

'Deanna' 2 W-P

(Brian S.Duncan) Susan Duncan, 2022
'Burt House' × 'Sheskin'; sdlg no. 4635
Fl. forming a double triangle, 100mm wide; perianth segments 46mm long, very broadly ovate, blunt, slightly mucronate, white, spreading, plane, smooth and of membranaceous substance, overlapping half or more; the inner segments narrower, with margins incurved, shouldered at base; corona 19mm long, funnel-shaped, angled, pink, a little paler in tone towards base, mouth straight, wavy and irregularly lobed, with rim crenate. Mid-season.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0170411)

'Delphi Rose' 6 P-P

(Nial Watson, 2014) Ringhaddy Daffodils, 2022
'Foundling' × Sdlg D2227 (2Y-P); sdlg no. W1065
Fl. forming a double triangle, 72mm wide, facing slightly downwards; perianth segments 29mm long, very broadly ovate, rounded at apex, slightly mucronate, strong yellowish pink 31C, reflexed, plane or with margins a little incurved, smooth and of heavy substance, overlapping half; the inner segments narrower; corona 20mm long, cylindrical, broadly and evenly ribbed, pink (27A), mouth somewhat flared, wavy or lightly frilled, with rim crenate. Early. Sunproof. Sweetly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0170377)
Etymology: for hybridiser's great niece

'Diva Princess' 11a W-YPW

(Brian S.Duncan) Susan Duncan, 2022
'Jodi' × 'Diversity'; sdlg no. 4729
Fl. forming a double triangle, 90mm wide; perianth segments 24mm long, ovate, blunt, white, spreading, plane, smooth and of membranaceous substance, overlapping half; the inner segments narrower, shouldered at base; corona 14mm long, split almost to base into six segments, each overlying a perianth segment forming an outer and an inner whorl of three, a little narrower than the perianth segments, frilled, bi-lobed, with lobes overlapping, pink, with yellow at base and touched white at rim. Early to mid-season.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0170514)

'Divulge' 2 Y-YO

(Tony Davis, 2014) Graeme Davis, 2021
Sdlg 26/08 × Sdlg 8/08; sdlg no. 24/14
Fl. forming a double triangle, 110mm wide, facing upwards; perianth segments 42mm long, broadly ovate, blunt, spreading, plane or with margins a little incurved, smooth and of heavy substance, overlapping half; the inner segments narrower; corona 34mm long, funnel-shaped, broadly ribbed, mouth straight, wavy and lobed, with rim crenate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170118)

'Doctor Dwarak' 3 WWY-YO

(Brian S.Duncan) Susan Duncan, 2022
'Jammin' × 'Doctor Hugh'; sdlg no. 4812
Fl. forming a double triangle, 106mm wide; perianth segments 46mm long, roundish, very broad, blunt or truncate, prominently mucronate, white, flushed yellow at base, a little reflexed, plane, sometimes with margins incurving towards apex, creased and of membranaceous substance, overlapping half or more; the inner segments narrower, scarcely mucronate; corona 13mm long, bowl-shaped, smooth, yellow, with a narrow band of orange at rim, mouth expanded, slightly wavy, irregularly lobed, with lobes overlapping, with rim minutely crenate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170518)

'Doodle' 2 Y-O

(Denise E.McQuarrie, 2009) Denise E.McQuarrie, 2022
Sdlg MCQ-J42 ('Some Day' × 'Cowboy' unregistered) × 'Ollie'; sdlg no. OC401
Fl. 75mm wide; perianth segments 27mm long, very broad, mucronate, spreading, plane, smooth and of heavy substance, overlapping half or more; corona 13mm long, cup-shaped, smooth, mouth frilled, lobed and slightly flared, with rim crenate and notched. Mid-season.
Etymology: for hybridiser's much loved Labrador, Daisy

'Dragon Spirit' 1 Y-Y

(Brian S.Duncan) Susan Duncan, 2022
'Disquiet' × 'Kingstanding'; sdlg no. 4626
Fl. forming a double triangle, 105mm wide; perianth segments 43mm long, broadly ovate, blunt, slightly mucronate, spreading, plane, sometimes with margins incurved, smooth and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base, scarcely mucronate; corona 45mm long, funnel-shaped, angled, mouth straight, even or a little wavy, with rim flanged and notched. Mid-season.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0170520)

'Dutch Diva' 1 W-O

(Testcentrum voor Siergewassen BV) W.van Lierop & Sons, 2021

Parentage unknown; sdlg no. 98-12-br4b

Fl. forming a double triangle, 100mm wide; perianth segments 40mm long, ovate, blunt, mucronate, greenish white 155C, spreading, plane, with margins incurling, smooth, with midrib showing, of membranaceous substance, overlapping half; the inner segments narrower; corona 45–50mm long, funnel-shaped, broadly ribbed, light yellow-orange (19B), mouth straight, lightly frilled and shallowly lobed, with rim flanged, crenate and notched.

Mid-season. Strongly scented.

Nomenclatural Standard: colour print supplied by KAVB (WSY0170093)

'E.E.Cummings' 9 WWG-GGY

(Michael Berrigan, 2009) Michael Berrigan, 2022
Hamilton poeticus sdlg × sibling of 'Miss Bonita'; sdlg no. 2002-187-1

Fl. rounded, 87mm wide; perianth segments 34mm long, roundish, very broad, truncate, white, with green at base and touched green along midrib, mucronate, slightly reflexed, smooth and of heavy substance, overlapping half; the inner segments narrower, more nearly spreading; corona 3mm long, disc-shaped, ribbed, green, with a band of yellow at rim, mouth expanded, ribbed and even, with rim entire. Late. Sunproof. Strongly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0170537)

Etymology: Registrant's favourite poet in his youth

'Elizabeth Jenet' 3 WWY-YYR

(Michael Berrigan, 2014) Michael Berrigan, 2022
'Barrett Browning' × 'Dresden'; sdlg no. 08-5-55-6

Fl. rounded, 105mm wide; perianth segments 38mm long, roundish, very broad, blunt or truncate, mucronate, spreading, plane, smooth and of heavy substance, overlapping half or more; the inner segments scarcely mucronate, shouldered at base; corona 7mm long, cup-shaped, smooth, mouth expanded, ribbed, wavy and shallowly lobed, with rim crenate. Early. Sunproof.

Nomenclatural Standard: colour print supplied by registrant (WSY0170538)

Etymology: for Registrant's daughter

'Emily Katharina' 2 W-YPR

(Brian S.Duncan) Susan Duncan, 2022

'Pink Haze' × ('American Heritage' × 'Filoli'); sdlg no. 4719

Fl. 95mm wide; perianth segments 40mm long, broadly ovate, blunt or truncate, slightly mucronate, white, sometimes touched pink, reflexed, concave or plane, with margins strongly incurved, with midrib showing, of heavy substance, overlapping one-third; the inner segments narrower, more nearly plane; corona 16mm long, bowl-shaped, smooth, pink, with deep yellow at base and a broad band of pinkish red at

rim, mouth expanded, wavy and lobed, with rim crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0170412)

Etymology: for foreign exchange student from Vienna, Austria, who stayed with the Registrant in 2020

'Emma Whitworth' 4 W-O

(R.A.Scamp, 2007) R.A.Scamp, 2022

Unknown × 'Bere Ferrers'; sdlg no. 33-25

Fl. rounded, 85mm wide; perianth and other petaloid segments in several whorls, roundish, very broad, smooth and of membranaceous substance; the outer two whorls 32mm long, mucronate, spreading, plane; the inner whorls more nearly ovate, successively shorter and more strongly inflexed towards centre, with margins incurved; the inner segments with margins strongly incurved or folded inwards along midrib; corona segments 14mm long, interspersed among the inner perianth segments and clustered at centre, frilled. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0170360)

'Ethan' 2 W-W

(P.D.K.Ramsay, 2014) Fisher Nurseries 2006 Ltd, 2022
Sdlg P.R.02:1 × 'Lady Diana' unregistered; sdlg no. 14:1

Fl. forming a double triangle, 110mm wide; perianth segments 45mm long, broadly ovate, rounded at apex, spreading, plane, smooth and of membranaceous substance, overlapping half or more; the inner segments narrower, somewhat shouldered at base, scarcely mucronate; corona 43mm long, funnel-shaped, smooth, mouth flared and wavy, with rim minutely crenate. Tall. Mid-season.

Etymology: for hybridiser's grandson

'Ever Charlotte' 3 W-YYO

(Brian S.Duncan) Susan Duncan, 2022

'Emerald City' × 'Jammin'; sdlg no. 4709

Fl. 120mm wide; perianth segments 53mm long, very broadly ovate, blunt, mucronate, white, spreading, concave, smooth and of membranaceous substance, overlapping half or more; the inner segments narrower; corona 13mm long, bowl-shaped, smooth, yellow, with a very narrow band of orange at rim, mouth expanded and wavy, with rim shallowly notched. Late.

Nomenclatural Standard: colour print supplied by registrant (WSY0170416)

'Ever Johanna' 3 W-GYY

(Brian S.Duncan) Susan Duncan, 2022

'Emerald City' × 'Jammin'; sdlg no. 4710

Fl. rounded, 110mm wide; perianth segments 47mm long, roundish, very broad, truncate, white, spreading, plane, creased and of membranaceous substance, overlapping half or more; the inner segments narrower, more nearly ovate; corona 15mm long, bowl-shaped, smooth, yellow, with green at base, mouth expanded and wavy, with rim crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0170417)

'Fidan' 6 Y-O

(J.de Winter) Fa. M.H.van der Zon & Son, 2021
Parentage unknown
Fl. forming a double triangle, 90mm wide; perianth segments 45mm long, ovate or oblong, rounded at apex, light yellow 7D, with pale mucro, reflexed, plane, with margins incurving, smooth and of membranaceous substance, overlapping half; the inner segments narrower, acute at apex; corona 35mm long, cylindrical, angled, yellow-orange (23B), mouth a little expanded, ribbed, even and shallowly lobed, with rim crenate. Mid-season. Sunproof. Sweetly scented. Nomenclatural Standard: colour print supplied by KAVB (WSY0170103)

'Five Crowns' 1 W-Y

(David Adams) David Adams, 2022
Parentage unknown
Fl. forming a double triangle, 105mm wide; perianth segments 38mm long, ovate, acute, mucronate, white, spreading, plane or with margins incurved, smooth and of heavy substance, overlapping one-third; the inner segments narrower, shouldered at base; corona 41mm long, funnel-shaped, smooth, light yellow, mouth straight and even, with rim entire. Mid-season

'Fortuna Blaze' 2 Y-O

(Brian S.Duncan) Susan Duncan, 2022
'Online' × 'Wild Rover'; sdlg no. 4564
Fl. forming a double triangle; perianth segments ovate, blunt, yellow, with pale mucro, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona narrow funnel-shaped, smooth, deep orange, mouth straight, even and shallowly lobed, with rim minutely crenate. Early to mid-season.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0170418)
Etymology: northern California daffodil show location of Fortuna

'Fortuna Fire' 2 Y-O

(Brian S.Duncan) Susan Duncan, 2022
'Rheban Red' × 'Corby Candle'; sdlg no. 4566
Fl. 95mm wide; perianth segments 38mm long, ovate, blunt, scarcely mucronate, yellow, spreading, plane, with margins incurving and hooded at apex, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 26mm long, funnel-shaped, smooth, opening yellow, becoming deep orange, mouth flared, wavy or lightly frilled, with rim notched. Early.
Nomenclatural Standard: colour print supplied by registrant (WSY0170419)
Etymology: Fortuna Show, California, where flower won a Blue Ribbon

'Foster Child' 6 YYW-P

(Michael Berrigan, 2015) Micheal Berrigan, 2022
'Step Child' × 'Katrina Rea'; sdlg no. 08RC6-1
Fl. rounded, 68–80mm wide, facing downwards; perianth segments 27mm long, very broadly ovate, rounded at apex, mucronate, reflexed, plane, smooth and of heavy substance, overlapping one-third to half; the inner segments narrower, shouldered at base; corona 22mm long, narrow funnel-shaped, angled, mouth straight, ribbed and wavy, with rim minutely crenate. Early. Dwarf. Sunproof.
Nomenclatural Standard: colour print supplied by registrant (WSY0170539)

'Frances D. Berrigan' 9 W-GYR

(Michael Berrigan, 2017) Michael Berrigan, 2022
Karnstedt sdlg × 'Miss Bonita'; sdlg no. 11-292-4
Fl. rounded, 90mm wide; perianth segments 35mm long, roundish, very broad, truncate, slightly mucronate, spreading, plane, smooth and of heavy substance, overlapping half or more; the inner segments narrower, scarcely mucronate; corona 5mm long, disc-shaped, smooth, mouth even and shallowly lobed, with rim crenate. Late. Sunproof. Sweetly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0170540)
Etymology: for Registrant's mother, an amateur poet

'Frontier Blush' 2 Y-OYO

(Graeme and Faith Miller, 2012) Graeme and Faith Miller, 2022
'Pirongia Sunset' × 'Tripapon'; sdlg no. GM12-41
Fl. forming a double triangle, 107mm wide; perianth segments 47mm long, ovate, blunt, yellow, spreading, plane or with margins incurved, smooth and of heavy substance, overlapping half; the inner segments narrower; corona 32mm long, funnel-shaped, ribbed, orange yellow (23A), with a broad band of strong orange (28B) at rim and touched strong orange (28B) at base, mouth flared and frilled, with rim dentate. Early.
Nomenclatural Standard: colour print supplied by registrant (WSY0170468)

'Frontier Brilliance' 2 W-O

(Graeme and Faith Miller, 2012) Graeme and Faith Miller, 2022
'Graffiti' × 'Glaston'; sdlg no. GM12-19
Fl. rounded, 102mm wide; perianth segments 41mm long, very broadly ovate, blunt, mucronate, greenish white 157B, spreading, shallowly concave, smooth and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 17mm long, bowl-shaped, ribbed, strong orange (24A), mouth expanded, wavy to lightly frilled, deeply lobed, with lobes overlapping, with rim minutely crenate. Early.
Nomenclatural Standard: colour print supplied by registrant (WSY0170469)

‘Frontier Charm’ 3 W-YYO

(Graeme and Faith Miller, 2012) Graeme and Faith Miller, 2022

‘Glamour Girl’ × ‘Cameo Marie’; sdlg no. GM12-34 Fl. rounded, 90mm wide; perianth segments 36mm long, roundish, very broad, blunt, slightly mucronate, greenish white 157B, spreading, shallowly concave, smooth and of heavy substance, overlapping half or more; the inner segments narrower, somewhat shouldered at base; corona 10mm long, disc-shaped, ribbed, brilliant greenish yellow 4A, with a broad band of vivid orange (28B) at rim, mouth frilled and lobed, with lobes overlapping, with rim crenate. Early. Nomenclatural Standard: colour print supplied by registrant (WSY0170470)

‘Frontier Pink’ 2 Y-P

(Graeme and Faith Miller, 2012) Graeme and Faith Miller, 2022

‘Tearaway’ × ‘American Dream’; sdlg no. GM12-88 Fl. forming a double triangle, 95mm wide; perianth segments 40mm long, ovate, blunt, light greenish yellow 7D, spreading, plane, with margins narrowly incurling, smooth and of heavy substance, overlapping half; the inner segments narrower; corona 32mm long, funnel-shaped, ribbed, light pink (49D), mouth flared, ribbed and frilled, with rim crenate. Early. Nomenclatural Standard: colour print supplied by registrant (WSY0170471)

‘Frosty Snow’ 2 W-WWY

(Jānis Rukšāns pre-2007) Gebr. Hulsebosch, 2022

Fl. forming a double triangle; perianth segments broadly ovate, blunt, mucronate, white, touched yellow at base, spreading, plane or somewhat wavy, creased and of heavy substance; the inner segments narrower, shouldered at base, scarcely mucronate; corona cup-shaped, angled, white, with yellow at rim and touched yellow at base, mouth expanded, wavy to lightly frilled, with rim crenate. Mid-season. Nomenclatural Standard: colour print supplied by introducer (WSY0170365)

‘Gamin’ 3 W-WYO

(Tony Davis, 2007) Graeme Davis, 2021

‘Truculent’ × ‘Shadrach’; sdlg no. 38/07 Fl. 110mm wide, facing upwards; perianth segments 45mm long, roundish, very broad, blunt or truncate, slightly mucronate, reflexed, plane, with margins incurling, smooth and of membranaceous substance, overlapping half or more; the inner segments narrower, more nearly plane, scarcely mucronate; corona 13mm long, shallow bowl-shaped, ribbed, mouth expanded and lightly frilled, with rim crenate. Early. Nomenclatural Standard: colour print supplied by registrant (WSY0170125)

‘Gelinde’ 2 YYW-GYP

(Brian S.Duncan) Susan Duncan, 2022

‘Jauno’ × B.Duncan sdlg 3409; sdlg no. 4715 Fl. forming a double triangle, 104mm wide; perianth segments 40mm long, very broadly ovate, blunt,

yellow, with white at base and prominent white mucro, spreading, plane, smooth and of membranaceous substance, overlapping half; the inner segments ovate, shouldered at base; corona 30mm long, cylindrical, angled, yellow, with green at base and pink at rim, mouth straight, ribbed and even, with rim crenate and narrowly flanged. Late. Nomenclatural Standard: colour print supplied by hybridiser (WSY0170422)

‘Glowing Choice’ 2 Y-R

(Brian S.Duncan, 2010) F.Charlton, 2022

‘Likely Lad’ unreg × ‘Outline’; sdlg no. 3903 Fl. forming a double triangle, 110mm wide; perianth segments 41mm long, very broadly ovate, blunt, honey lemon, with scarce pale mucro, spreading, plane, with margins somewhat incurling, creased and of membranaceous substance, overlapping half; the inner segments narrower, shouldered at base; corona 15mm long, bowl-shaped, smooth, orange red, mouth expanded, wavy and irregularly lobed, with lobes overlapping, with rim minutely crenate. Mid-season. Nomenclatural Standard: colour print supplied by hybridiser (WSY0170272)

‘Golden Carpet’ 7 Y-Y

(Leenen Innovation by, 2011) Leenen Innovation by, 2022 Parentage unknown; sdlg no. NAR241/05

Fls 2–3 per stem, star-shaped, 40mm wide, facing upwards; perianth segments ovate, acute, spreading, plane, with margins incurling, smooth and of heavy substance, overlapping one-third; the inner segments narrower; corona 5mm long, cup-shaped, broadly ribbed, mouth expanded and wavy, with rim entire. Sweetly scented. Nomenclatural Standard: colour print supplied by registrant (WSY0170493)

‘Greencroft’ 9 W-GYR

(R.A.Scamp, 1996) R.A.Scamp, 2021

‘Felindre’ × ‘Vers Libre’; sdlg no. 974 Fl. rounded, 70mm wide; perianth segments 30mm long, roundish, very broad, truncate, scarcely mucronate, spreading or somewhat reflexed, plane or with margins recurved, smooth and of membranaceous substance, overlapping half or more; the inner segments narrower, more nearly spreading; corona 5mm long, disc-shaped, ribbed, mouth expanded, wavy to lightly frilled, irregularly and shallowly lobed, with rim dentate. Late. Sweetly scented. Nomenclatural Standard: colour print supplied by registrant (WSY0170106)

‘Greenhill Legend’ 1 W-Y

(Denise E.McQuarrie, 2010) Denise E.McQuarrie, 2022

‘Kurrewa’ × ‘Snowy Morn’; sdlg no. MCQ-J6 Fl. rounded, 112mm wide; perianth segments 46mm long, broadly ovate, rounded at apex, spreading, plane, smooth and of heavy substance, overlapping half or more; the inner segments narrower; corona 48mm long, cylindrical, smooth, mouth frilled and slightly flared, with rim shallowly notched. Mid-season

'Gull Island' 2 W-W

(Daniel Bellinger, 2016) Daniel Bellinger, 2022
'Estuary' × 'Upper Broughton'; sdlg no. 09.04.29
Fl. forming a double triangle, 69mm wide; perianth segments 25mm long, broadly ovate, blunt, mucronate, greenish white 155A, spreading, concave, with margins incurved from midrib, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base, scarcely mucronate; corona 16mm long, cup-shaped, broadly ribbed, opening with faint pink blush, becoming greenish white 155A, mouth straight and wavy, with rim entire. Mid-season. Slightly sweetly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0170332)

'Happy Hubby' 2 W-P

(Brian S.Duncan) Susan Duncan, 2022
'Amazing Grace' × 'Extempore'; sdlg no. 4852
Fl. forming a double triangle; perianth segments roundish, very broad, blunt, mucronate, white, spreading, shallowly concave, smooth and of membranaceous substance, overlapping half or more; the inner segments narrower, scarcely mucronate, shouldered at base; corona narrow funnel-shaped, broadly ribbed, orange-pink, mouth straight, wavy and lightly frilled, with rim notched. Mid-season.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0170478)
Etymology: one of three 'Amazing Grace' hybrids named to illustrate the saying "Happy Wife = Happy Life = Happy Hubby", following a long discussion between the Registrant and her husband about a large purchase of daffodils she wished to make, at the end of which the Registrant's husband uttered "Happy Wife, Happy Life"

'Happy Life' 2 W-P

(Brian S.Duncan) Susan Duncan, 2022
'Amazing Grace' × 'Extempore'; sdlg no. 4851
Fl. forming a double triangle, 105mm wide; perianth segments 32mm long, roundish, very broad, blunt, mucronate, white, spreading, plane, with margins narrowly incurving, creased and of membranaceous substance, overlapping half; the inner segments narrower, shouldered at base, scarcely mucronate; corona 23mm long, cup-shaped, ribbed, reddish pink, mouth wavy and a little expanded, with rim crenate. Mid-season.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0170508)
Etymology: see 'Happy Hubby'

'Happy Wife' 2 W-YY

(Brian S.Duncan) Susan Duncan, 2022
'Amazing Grace' × 'Sheskin'; sdlg no. 4849
Fl. forming a double triangle, 110mm wide; perianth segments 45mm long, ovate, blunt, mucronate, white, spreading, shallowly concave, with margins incurving towards apex, creased and of membranaceous substance, overlapping half; the inner segments narrower, scarcely mucronate, somewhat shouldered

at base; corona 21mm long, cup-shaped, angled, yellow, flushed pink, merging with a band of pink at the rim, mouth straight, even and lightly frilled, with rim crenate. Tall. Mid-season.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0170521)
Etymology: see 'Happy Hubby'

'Hattie's Delight' 8 W-Y

Sara L.van Beck, 2022
Parentage unknown
Fls 12 per stem, forming a double triangle, 35mm wide; perianth segments ovate, blunt, mucronate, opening greenish yellow, becoming milky white (in cooler seasons or geographical regions remaining flushed yellow), spreading, plane, with margins incurving, with midrib showing and of membranaceous substance, overlapping half; the inner segments narrower, scarcely mucronate, corona 4mm long, bowl-shaped, smooth, mouth straight, lightly ribbed and even, rim entire. Very early. Lightly and sweetly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0170494)
Etymology: for Mrs Hattie Amanda Bishop Sledge (1859–1944) in whose garden in Monticello, Florida, it was found

'Havana Snowflake' 8 W-W

(pre-1940) Sara L.van Beck, 2022
Parentage unknown
Fls 12–14 per stem, forming a double triangle, 25–30mm wide; perianth segments 13mm long, ovate, blunt, mucronate, spreading, concave, with margins incurving, with midrib showing, of heavy substance, overlapping half; the inner segments narrower; corona 3mm long, cup-shaped, smooth, mouth straight and even, with rim entire. Very early. Sweetly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0170496)
Etymology: found in old gardens in north Florida, particularly in the small town of Havana

'Hope Springs' 3 Y-GYY

(Brian S.Duncan) Esker Farm Daffodils, 2022
'Moon Shadow' × 'Lemma'; sdlg no. 3743
Fl. forming a double triangle, 120mm wide; perianth segments 50mm long, roundish, very broad, blunt, scarcely mucronate, yellow, spreading, concave, creased and of heavy substance, overlapping half; the inner segments narrower, shouldered at base, with margins narrowly incurving; corona 16mm long, shallow bowl-shaped, smooth, slightly stronger yellow than perianth segments, with green at base, mouth expanded, wavy and lobed, with rim crenate. Mid-season to late.
Nomenclatural Standard: colour print supplied by registrant (WSY0170243)

'Hot Choice' 3 Y-R

(Brian S.Duncan, 2006) Brian S.Duncan, 2022
'African Sunset' × 'Stanway'; sdlg no. 3343
Fl. forming a double triangle; perianth segments broadly ovate, blunt, scarcely mucronate, mid-yellow, spreading, plane, smooth and of membranaceous substance, overlapping half; the inner segments narrower, somewhat shouldered at base; corona cup-shaped, angled, deep orange red, mouth slightly expanded, ribbed and a little wavy, with rim notched. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0170255)

'Iapetus' 10 W-W

(Mrs Anne Wright, 2016) Mrs Anne Wright, 2022
N. cantabricus subsp. *cantabricus* var. *petunioides* open pollinated; sdlg no. 3262-2-18
Fl. star-shaped, 50mm wide, greenish white 155C, facing slightly upwards; perianth segments 18mm long, lanceolate, acute, touched green at apex, spreading, concave, smooth, separated at base; corona 16mm long, disc-shaped, ribbed, mouth straight, wavy and lightly frilled, with rim even. Dwarf. Very early. Sunproof. Richly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0170303)
Etymology: moon of Saturn

'Infinite Joy' 11a W-YYO

(?Vandervliet) J.de Waard Bloembollenkwekerij, 2021
Parentage unknown; sdlg no. 409 Lace
Fl. forming a double triangle, 95mm wide; perianth segments 40mm long, ovate, blunt, opening yellow, becoming greenish white 155A, mucronate, spreading, concave, a little hooded at apex, smooth and of membranaceous substance, overlapping half; the inner segments somewhat shouldered at base; corona 20mm long, split to less than half its length into six segments, each narrower and more or less overlying a perianth segment, vivid yellow 12A, with a band of orange (N25A) at rim, ribbed and frilled, with rim crenate. Mid-season. Strongly and sweetly scented. Nomenclatural Standard: colour print supplied by KAVB (WSY0170141)

'Intercede' 11a W-WWY

(Tony Davis, 2010) Graeme Davis, 2022
'Tycoon' × ('Zombie' × 'Pops Legacy'); sdlg no. 40/10
Fl. forming a double triangle, 100mm wide; perianth segments 33mm long, roundish, very broad, slightly truncate, mucronate, white, spreading, plane or with margins somewhat incurved, smooth and of heavy substance, overlapping half; the inner segments ovate, with margins narrowly incurving; corona 13mm long, split half way into six segments, each overlying a perianth segment, white, suffused yellow at rim, frilled and lobed. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170244)

'Ivory Coast' 2 Y-Y

(Denise E.McQuarrie, 2008) Denise E.McQuarrie, 2022
'Carib Gipsy' × 'Sabre'; sdlg no. MCQ-OC006
Fl. rounded, 110mm wide, pale ivory yellow; perianth segments 45mm long, very broadly ovate, rounded at apex, spreading, plane, smooth and of heavy substance, overlapping half or more; corona 38mm long, cylindrical, smooth, mouth wavy and slightly flared, with rim entire. Mid-season

'Jack's Pail' 1 Y-Y

(David Adams, 2021) David Adams, 2022
Parentage unknown; sdlg no. FIP21/8
Fl. forming a double triangle, 122mm wide, light yellow; perianth segments 50mm long, very broadly ovate, blunt, spreading, plane or with margins incurving, smooth and of heavy substance, overlapping half; corona 51mm long, cylindrical, smooth, mouth straight and frilled, with rim crenate. Mid-season. Sunproof

'J.A. Roberts' 2 Y-Y

(R.A.Scamp, 1990) R.A.Scamp, 2021
'Argosy' × Sdlg ('Saint Keverne' × 'Malvern City'); sdlg no. 382
Fl. forming a double triangle, 106mm wide; perianth segments 44mm long, ovate, blunt, yellow, with pale mucro, spreading, plane, with margins somewhat incurving, smooth and of heavy substance, overlapping half or more; the inner segments a little narrower, shouldered at base; corona 41mm long, funnel-shaped, smooth, yellow, mouth straight, ribbed and wavy, with rim flanged and crenate. Early. Sunproof.
Nomenclatural Standard: colour print supplied by registrant (WSY0170111)

'Juliet's Choice' 3 W-YYR

(Brian S.Duncan) Brian S.Duncan, 2022
Sdlg 2318 ('Clouds Rest' × 'June Lake') × 'Volcanic Rim'
Fl. forming a double triangle, 105mm wide; perianth segments 45mm long, roundish, very broad, blunt, pure white, scarcely mucronate, spreading, plane, creased and of membranaceous substance, overlapping half; the inner segments narrower, somewhat shouldered at base; corona 15mm long, bowl-shaped, smooth, yellow, with greenish yellow eye and broad band of pinkish red at rim, mouth ribbed, straight, wavy to very lightly frilled, with rim crenate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170259)

'Just About' 2 Y-O

(David Adams, 1996) David Adams, 2022
Sdlg 82/14C ('Checkmate' × 'David Bell') × 'Corbiere'; sdlg no. 90/07A
Fl. rounded, 103mm wide; perianth segments 42mm long, very broadly ovate, rounded, yellow, spreading, plane or with margins incurving; smooth and of heavy substance, overlapping half or more; the inner segments shouldered at base; corona 40mm long, funnel-shaped, smooth, light orange, mouth flared, ribbed and frilled, with rim rolled and dentate. Early

‘Kahuna’ 2 Y-Y

(Michael Berrigan, 2013) Michael Berrigan, 2022
‘Anna Banana’ × ‘Arleston’; sdlg no. 01-6-1-1
Fl. rounded, 118mm wide; perianth segments 48mm long, very broadly ovate, blunt, yellow, with scarce pale mucro, reflexed, concave, smooth and of heavy substance, overlapping half; the inner segments narrower, more nearly spreading; corona 39mm long, narrow funnel-shaped, smooth, yellow, mouth flared and shallowly lobed, with rim crenate and somewhat rolled. Early. Sunproof. Very faintly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0170541)

‘Kaipo’ 5 Y-Y

(Malcolm Wheeler, 2012) Malcolm Wheeler, 2022
N. triandrus var. *triandrus* × *N. fernandesii*;
sdlg no. M140
Fls 3 per stem, 35mm wide, facing downwards, lemon yellow; perianth segments 18mm long, ovate, blunt, mucronate, reflexed, convex, smooth and of heavy substance, overlapping half; the inner segments narrower; corona 10mm long, cup-shaped, straight, even and lightly ribbed, with rim slightly crenate. Dwarf. Early. Strongly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0170237)
Etymology: Northern Fiordland Valley, New Zealand

‘Katelin’ 2 W-GYP

(Brian S.Duncan) Susan Duncan, 2022
‘Burt House’ × ‘Korora Bay’; sdlg no. 4840
Fl. forming a double triangle, 85mm wide; perianth segments 40mm long, very broadly ovate, truncate, mucronate, spreading, plane, smooth and of membranaceous substance, overlapping half; the inner segments narrower; corona 25mm long, broad bowl-shaped, smooth, mouth expanded, even and lobed, with rim crenate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170424)

‘Katelin Scott’ 2 W-W

(Brian S.Duncan) Susan Duncan, 2022
‘Chinchilla’ × ‘Bridal Chorus’; sdlg no. 4358
Fl. forming a double triangle, 123mm wide, pure white; perianth segments 51mm long, broadly ovate, blunt, scarcely mucronate, spreading, plane, smooth and of membranaceous substance, overlapping half; the inner segments narrower, somewhat shouldered at base; corona 38mm long, funnel-shaped, smooth, mouth expanded, wavy and finely ribbed, with rim crenate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170430)

‘Kathleen Suzanne’ 1 W-Y

(Brian S.Duncan) Susan Duncan, 2022
‘Wyong’ × (‘Fiona MacKillop’ × ‘Queen’s Guard’);
sdlg no. 4568
Fl. 115mm wide; perianth segments 48mm long, broadly ovate, truncate, mucronate, reflexed, plane,

creased and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 50mm long, funnel-shaped, smooth, mouth flared, even and irregularly lobed, with rim entire. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170426)
Etymology: for a niece of the Registrant

‘Kidney Kids’ 4 W-P

(M.J.Brown, 2011) M.J.Brown, 2021
Sdlg (‘Taoroa’ × ‘Refrain’) × ‘Quasar’; sdlg no. 05-36
Fl. rounded, 100mm wide; perianth and other petaloid segments in several whorls, yellowish white 155D; the outer whorls 35mm long, very broad, roundish, blunt, scarcely mucronate, spreading, plane or a little concave, smooth and of heavy substance, overlapping half or more; inner whorls narrower, successively shorter and more strongly inflexed towards centre, plane or folded inwards along midrib; corona segments half the length of and interspersed among the inner petaloid segments and clustered at centre, moderate pink (49A), frilled. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170147)
Etymology: for recipient and donor of a kidney transplant

‘Kinslee’s Kiss’ 3 W-YYO

(Brian S.Duncan, 2015) Timothy E.Calkins, 2021
‘Jammin’ × ‘Doctor Hugh’; sdlg no. 4671
Fl. forming a double triangle, 115mm wide; perianth segments 45mm long, broadly ovate, blunt, scarcely mucronate, white, spreading, plane, with margins somewhat narrowly incurling at apex, smooth and of membranaceous substance, overlapping half or more; corona 10mm long, bowl-shaped, lightly ribbed, yellow, with a band of reddish orange at rim, mouth wavy. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170339)
Etymology: for registrant’s granddaughter

‘Ladea’ 1 Y-Y

(K. van der Veek) Fa. M.H.van der Zon & Son, 2021
Parentage unknown
Fl. forming a double triangle, 110mm wide, facing upwards; perianth segments 45mm long, ovate, blunt, mucronate, greenish yellow 4C, spreading, plane, with margins incurling, smooth, with midrib showing, of membranaceous substance, overlapping half; the inner segments narrower; corona 45mm long, funnel-shaped, smooth, brilliant greenish yellow 6A, mouth expanded, wavy to lightly frilled, with rim flanged and crenate. Mid-season. Strongly scented. Varies between Divs 1 and 2 (corona 40–45mm long).
Nomenclatural Standard: colour print supplied by KAVB (WSY0170105)

'Lady of the Rings' 2 W-WWP

(C.van der Veek) P.Pennings Bloembollenbedrijf, 2021
Parentage unknown; sdlg no. F139

Fl. forming a double triangle, 100mm wide; perianth segments 45mm long, ovate, rounded at apex, mucronate, white 155C, spreading, plane, with margins incurling, smooth, with midrib showing, of membranaceous substance, overlapping half or more; corona 25mm long, funnel-shaped, angled, greenish white 155C, with a narrow band of brownish-pink (168C) at rim, mouth expanded and lobed, with rim flanged and crenate. Mid-season. Sunproof. Strongly scented.
Nomenclatural Standard: colour print supplied by KAVB (WSY0170144)

'Lake Ngaroto' 3 Y-O

(R.J.Hill, 2016) Fisher Nurseries 2006 Ltd, 2022
'Jamore' × 'Hot 'n' Spicy'; sdlg no. 16/1

Fl. rounded, 105mm wide; perianth segments 46mm long, ovate, rounded at apex, spreading, plane, smooth and of heavy substance, overlapping half or more; corona 12mm long, bowl-shaped, smooth, mouth expanded and even. Tall. Early.
Etymology: lake in North Island, New Zealand

'Lane David' 2 Y-Y

(David Adams, 1997) David Adams, 2022
'Temple Gold' × 'Valley Gold'; sdlg no. 90/09J

Fl. forming a double triangle, 113mm wide; perianth segments 46mm long, ovate, acute, spreading, plane, with margins wavy, smooth and of heavy substance, overlapping half; the inner segments shouldered at base; corona 41mm long, funnel-shaped, smooth, mouth expanded and frilled, with rim flanged and crenate. Mid-season. Sunproof

'Laudable' 2 Y-Y

(Tony Davis, 2011) Graeme Davis, 2021
Sdlg 3/06 ('Banker' × 'Bowral Gold' sibling) × Sdlg 5/06 ('Comal' × 'Impeccable'); sdlg no. 29/20
Fl. forming a double triangle, 100mm wide; perianth segments 37mm long, broadly ovate, blunt, yellow, with slight pale mucro, spreading, plane, creased and of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate, shouldered at base; corona 32mm long, cylindrical, smooth, yellow, mouth even and slightly flared, with rim crenate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170119)

'Lemon Gem' 2 Y-W

(Graeme and Faith Miller, 2012) Graeme and Faith Miller, 2022
'Helford Dawn' × 'Twelve Gauge'; sdlg no. GM12-35
Fl. forming a double triangle, 92mm wide; perianth segments 36mm long, ovate, blunt, brilliant greenish yellow 4A, with pale mucro, spreading, plane, with margins incurling, smooth and of heavy substance, overlapping half or more; the inner segments

narrower, scarcely mucronate, somewhat shouldered at base; corona 32mm long, funnel-shaped, ribbed, opening brilliant greenish yellow 4A, becoming yellowish white 157B, mouth flared and frilled, with rim crenate. Early.

Nomenclatural Standard: colour print supplied by registrant (WSY0170473)

'Lemon Swirl' 4 Y-Y

(Brian S.Duncan) Susan Duncan, 2022
'Doubleday' × 'Altun Ha'; sdlg no. 3335
Fl. rounded, 83mm wide; perianth and other petaloid segments in several whorls, broadly ovate, blunt or truncate, light yellow, with pale mucro, smooth and of heavy substance, overlapping more than half; the outer whorls spreading, plane or a little concave; the inner whorls inflexed, narrower and shorter, concave or with margins strongly folded inwards from midrib; corona segments interspersed among the inner petaloid segments, yellow, stronger in tone than perianth segments, concave or crumpled. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170437)

'Lesley Anne' 3 W-W

(R.A.Scamp, 1991) R.A.Scamp, 2022
'Cool Crystal' × 'Achnasheen'; sdlg no. 779
Fl. forming a double triangle, 104mm wide; perianth segments 42mm long, very broadly ovate, rounded at apex, mucronate, spreading, plane, with margins incurved or somewhat folded inwards along midrib towards apex, smooth and of membranaceous substance, overlapping half or more; the inner segments narrower; corona 14mm long, smooth, mouth expanded, ribbed, wavy and shallowly lobed, with rim notched. Mid-season. Sunproof.
Nomenclatural Standard: colour print supplied by registrant (WSY0170336)

'Lieke' 7 W-Y

(Brent & Becky Heath) Gebr. Hulsebosch, 2022
Parentage unknown
Fls 2–3 per stem, forming a double triangle; perianth segments broadly ovate, blunt, prominently mucronate, spreading, plane or with margins wavy, smooth and of membranaceous substance, overlapping half; the inner segments narrower, scarcely mucronate, with margins somewhat incurling; corona bowl-shaped, smooth, mouth wavy, with rim minutely crenate. Late.
Nomenclatural Standard: colour print supplied by introducer (WSY0170368)

'Life is Good' 11a W-Y

(C.van der Veek) J.G.Weijers & Son, 2022

Parentage unknown

Fls 1–3 per stem, 62mm wide; perianth segments 25mm long, roundish, very broad, truncate or blunt, slightly mucronate, spreading or a little reflexed, plane or with margins somewhat incurved, creased and of membranaceous substance, overlapping half or more; the inner segments narrower, more nearly ovate; corona 10mm long, split for more than half its length into six segments, each opposite and closely overlying a perianth segment, bi-lobed, with lobes overlapping, ribbed and wavy, with rim crenate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170347)

'Limehills Gold' 1 Y-Y

(Lennox W.J.Cowie, 2010) Lennox W.J.Cowie, 2021

'Gympie' × 'Ombersley'; sdlg no. JWJC13-10

Fl. forming a double triangle, 94mm wide; perianth segments 38mm long, broadly ovate, blunt, yellow, mucronate, spreading, shallowly concave, with midrib showing, of membranaceous substance, overlapping half; the inner segments narrower, scarcely mucronate, somewhat shouldered at base; corona 40mm long, funnel-shaped, yellow, darker in tone than perianth segments, smooth, mouth slightly expanded, ribbed and a little wavy, with rim dentate. Mid-season to late. Sunproof.

Nomenclatural Standard: colour print supplied by registrant (WSY0170148)

'Little Al' 2 Y-Y

(M.W.Carney, 2004) M.W.Carney, 2022

'Little Tyke' × 'Tyrella'; sdlg no. 04-52-02

Fl. forming a double triangle, 68mm wide; perianth segments 30mm, ovate, blunt, yellow, with scarce pale mucro, spreading, plane, with margins a little incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 20mm long, funnel-shaped, smooth, yellow, mouth straight and wavy, with rim flanged and dentate. Dwarf. Mid-season. Sunproof.

Nomenclatural Standard: colour print supplied by registrant (WSY0170550)

Etymology: hybridiser's cat

'Little Flora' 9 W-GYR

(Kathryn S.Andersen) Kathryn S.Andersen, 2022

Parentage unknown

Fl. roundish, 40mm wide, facing upwards; perianth segments 18mm long, broadly ovate, blunt, mucronate, slightly reflexed, plane, with margins somewhat incurling at apex, smooth and of heavy substance, overlapping half or more; the inner segments narrower; corona 3mm long, shallow bowl-shaped, ribbed, mouth straight and even, with rim dentate. Late. Sunproof. Sweetly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0170373)

'Little Goldheart' 2 W-YYW

(Mrs Anne Wright, 2018) Mrs Anne Wright, 2022

'Pequenita' × *N. rupicola* subsp. *watieri*;

sdlg no. 4168-1-18

Fl. forming a double triangle, 33mm wide, facing slightly upwards; perianth segments 13mm long, roundish, very broad, blunt, greenish white 157D, slightly mucronate, spreading, plane, smooth and of membranaceous substance, overlapping half; the inner segments narrower, truncate, scarcely mucronate; corona 5mm long, cup-shaped, brilliant greenish yellow 5A, with a band of greenish white 157D at rim, mouth straight and even, with rim entire. Dwarf. Early. Sunproof. Richly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0170312)

'Little Pout' 6 Y-P

(Brian S.Duncan) Esker Farm Daffodils, 2022

'Better Still' unregistered × 'Spring Sunset';

sdlg no. 3893

Fl. 88mm wide, facing downwards; perianth segments 38mm long, ovate, blunt, slightly mucronate, reflexed, convex, creased and of membranaceous substance, overlapping half; corona 40mm long, narrow funnel-shaped, mouth somewhat broadly ribbed, straight and slightly wavy, with rim crenate and shallowly lobed. Mid-season to late.

Nomenclatural Standard: colour print supplied by registrant (WSY0170241)

'Little Red Boy' 9 W-R

(Kathryn S.Andersen) Kathryn S.Andersen, 2022

Parentage unknown

Fl. star-shaped, 40mm wide, facing upwards; perianth segments 15mm long, oblong, acute, prominently mucronate, very slightly reflexed, plane or with margins wavy or incurved, smooth and of heavy substance, overlapping at base only; corona 2mm long, shallow bowl-shaped, lightly ribbed, mouth flared and even, with rim entire. Late. Sunproof. Strongly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0170375)

'Little Turtle' 3 Y-YYR

(Michael Berrigan, 2015) Michael Berrigan, 2022

'Triple Crown' × Burr sdlg 8-11-3 (3 YW-YYR);

sdlg no. 2008-162-1 RE56

Fl. rounded, 68mm wide; perianth segments 25mm long, roundish, very broad, truncate, yellow, with slight pale mucro, spreading, plane, smooth and of heavy substance, overlapping half or more; corona 7mm long, cup-shaped, ribbed, yellow, blending with orange at rim, mouth wavy and lobed, with rim crenate. Mid-season. Sunproof.

Nomenclatural Standard: colour print supplied by registrant (WSY0170542)

Etymology: leader of Algonquin tribe

'Lorelei's Song' 4 W-W

Susan L.Gammons, 2022

Sport of 'Thalia'

Fls 2 per stem, 75mm wide; perianth 34mm long, ovate, blunt, slightly mucronate, ivory white, spreading to slightly reflexed, plane, with midrib showing, of membranaceous substance, overlapping half; the inner segments a little narrower; corona 20mm long, cup-shaped, wavy, filled with extra irregular corona segments, white, flushed pale yellow, rim entire. Mid-season to late.

Nomenclatural Standard: colour print supplied by registrant (WSY0170256)

Etymology: family name

'Lori Jean' 2 W-P

(Brian S.Duncan) Susan Duncan, 2022

'Jodi' × ('Trigonometry' × 'Vahu'); sdlg no. 4673

Fl. forming a double triangle, 100mm wide; perianth segments 45mm long, broadly ovate, blunt, scarcely mucronate, white, spreading, plane or with margins slightly incurved, smooth and of heavy substance, overlapping half; the inner segments narrower; corona 23mm long, narrow funnel-shaped, smooth, deep pink, mouth straight, ribbed and wavy, with rim notched. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0170431)

Etymology: for one of the Registrant's sisters

'Lost Creek Lady' 11b W-P/W

(Michael Berrigan, 2013) Michael Berrigan, 2022

('Space Shuttle' × 'Precocious') × 'Jodi';

sdlg no. 2008 RE11-1

Fl. forming a double triangle, 115mm wide; perianth segments 46mm long, ovate, blunt, a little reflexed, concave, smooth and of heavy substance, overlapping one-third; the inner segments narrower, more nearly spreading; corona 28mm long, split more than half way into six segments, each inflexed and alternate to the perianth segments, spatulate, wavy, with rim crenate. Mid-season. Sunproof. Mildly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0170543)

Etymology: Lost Creek is the area where the flowers were selected

'Majestic Choice' 2 Y-Y

(Brian S.Duncan) Brian S.Duncan, 2022

? 'Prairie Fire' × ? 'Auspicious'; sdlg no. 3168

Fl. 115mm wide; perianth segments broadly ovate, blunt, mucronate, spreading, plane, smooth and of membranaceous substance, overlapping half or more; the inner segments narrower, scarcely mucronate, somewhat shouldered at base; corona funnel-shaped, smooth, mouth straight, even and lightly ribbed, with rim crenate and broadly rolled. Mid-season.

Nomenclatural Standard: colour print supplied by Choice Bulbs & Plants (WSY01702289)

'Mama's Qwanna' 1 WWY-O

(Brian S.Duncan) Susan Duncan, 2022

'Wopollo' × 'Prime Target'; sdlg no. 4592

Fl. rounded, 85mm wide; perianth segments 34mm long, roundish, very broad, blunt, mucronate, spreading, plane, smooth and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base, scarcely mucronate; corona 34mm long, cylindrical, smooth, mouth straight and even, with rim notched and narrowly flanged. Mid-season.

Nomenclatural Standard: colour print supplied by hybridiser (WSY0170448)

Etymology: for the one main word that Registrant's mother is able to say following a stroke in 2016. Using different intonations or singing to different tunes, the word means anything and everything and has become a dear part of the lives of the Registrant and her family

'Marissa' 4 W-P

(Brian S.Duncan) Susan Duncan, 2022

'Jodi' × ('Trigonometry' × 'Vahu'); sdlg no. 4583

Fl. rounded, 79mm wide; perianth and other petaloid segments in three or more whorls, mucronate; the outer whorls 29mm long, roundish, very broad, blunt or truncate, spreading, plane, with midrib showing, of heavy substance, overlapping half or more; the inner whorls successively shorter and more inflexed towards centre, concave or folded inwards along midrib; corona segments 20mm long, interspersed among the inner perianth segments, wavy, successively shorter and more frilled towards centre. Mid-season.

Nomenclatural Standard: colour print supplied by hybridiser (WSY0170480)

'Might Be' 3 W-GWO

(Tim Klein) David Adams, 2022

Parentage unknown; sdlg no. TK99/207K

Fl. forming a double triangle, 90mm wide; perianth segments 40mm long, ovate, acute, white, spreading, concave, smooth and of heavy substance, overlapping one-third; the inner segments narrower; corona 13mm long, bowl-shaped, ribbed, white, light orange at rim and touched green at base, mouth straight, ribbed and frilled, with rim crenate. Mid-season.

Sunproof. Varies between Divisions 3 and 2

'Miss Chriss' 8 W-YWP

(Delia Bankhead) Gregory S.Freeman, 2021

'Pink China' × *N. dubius*; sdlg no. 02-7-25

Fl. 38mm wide; perianth segments 15mm long, ovate, blunt, mucronate, spreading, plane or with margins incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate; corona 8mm long, cup-shaped, smooth, mouth straight and even, with rim entire. Dwarf. Mid-season. Sweetly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0170104)

Etymology: in honour of Mrs Chriss Rainey

‘Mister Consistent’ 2 Y-YYO

(Graeme and Faith Miller) Graeme and Faith Miller, 2022

‘Corbiere’ × ‘Rangataua’; sdlg no. GM12-20

Fl. forming a double triangle, 108mm wide; perianth segments 49mm long, broadly ovate, blunt, brilliant greenish yellow 4A, with slight pale mucro, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower; corona 40mm long, funnel-shaped, smooth, brilliant greenish yellow 4A, merging with light yellow orange (23C) at rim, mouth flared and frilled, with rim rolled and crenate. Early. Nomenclatural Standard: colour print supplied by registrant (WSY0170476)

‘Monterey Bay’ 2 W-P

(Brian S.Duncan) Susan Duncan, 2022

‘Harbour View’ × ‘Alto’; sdlg no. 4615

Fl. forming a double triangle, 85mm wide; perianth segments 35mm long, roundish, very broad, blunt, slightly mucronate, a little reflexed, plane or with margins a little incurved, creased and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 20mm long, cup-shaped, ribbed, mouth wavy and a little expanded, with rim even. Mid-season. Nomenclatural Standard: colour print supplied by hybridiser (WSY0170479)

‘Mr Les’ 2 Y-YYO

(Tony Davis, 2010) Graeme Davis, 2021

Sdlg (‘Loch Lundie’ × ‘Tearaway’) × Sdlg (‘Dynamic’ × ‘Redlands Too’); sdlg no. 50/10

Fl. forming a double triangle, 110mm long, facing upwards; perianth segments 45mm long, roundish, very broad, blunt, yellow, with slight pale mucro, spreading, plane or with margins a little incurved, smooth and of membranaceous substance, overlapping half; the inner segments narrower, more nearly ovate, scarcely mucronate; corona 30mm long, cylindrical, smooth, mouth even, slightly flared and shallowly lobed, with rim crenate. Mid-season. Sunproof. Nomenclatural Standard: colour print supplied by registrant (WSY0170122)

Etymology: a friend of the hybridiser

‘Mullaghmore’ 2 Y-Y

(Brian S.Duncan) Esker Farm Daffodils, 2022

‘Gold Ingot’ × ‘Impeccable’; sdlg no. 3408

Fl. forming a double triangle, 120mm wide; perianth segments 40mm long, broadly ovate, blunt, yellow, with slight pale mucro, spreading, plane, smooth and of heavy substance, overlapping half or more; the inner segments narrower, somewhat shouldered at base; corona 38mm long, funnel-shaped, angled, yellow, mouth straight, wavy and shallowly lobed, with lobes overlapping, with rim minutely crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0170245)

‘My Ellie’ 2 W-P

(Brian S.Duncan) Susan Duncan, 2022

‘Burt House’ × ‘Korora Bay’; sdlg no. 4659

Fl. 100mm wide; perianth segments 45mm long, very broadly ovate, blunt, spreading, plane, with margins narrowly incurving, creased and of membranaceous substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 20mm long, funnel-shaped, angled, mouth straight, wavy and lightly frilled, with rim notched. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0170440)

‘My Michele’ 1 WWY-Y

(Brian S.Duncan) Susan Duncan, 2022

‘Wyong’ × ‘Fiona MacKillop’; sdlg no. 4842

Fl. forming a double triangle, 90mm wide; perianth segments 32mm long, broadly ovate, blunt, prominently mucronate, white, with a broad band of yellow at base, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base, scarcely mucronate; corona 35mm long, funnel-shaped, smooth, yellow, mouth flared, ribbed and wavy, with rim notched. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0170444)

‘My Stephen’ 1 Y-Y

(R.A.Scamp, 2008) R.A.Scamp, 2022

‘Probus’ open pollinated; sdlg no. 1212

Fl. rounded, 104mm wide; perianth segments 42mm long, very broadly ovate, rounded at apex, yellow, with pale mucro, spreading, plane, smooth and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base, scarcely mucronate; corona 43mm long, funnel-shaped, angled, yellow, mouth flared, wavy and shallowly lobed, with rim entire. Mid-season. Sunproof. Nomenclatural Standard: colour print supplied by registrant (WSY0170333)

‘National Trust’ 11a Y-O

(R.A.Scamp, 2010) R.A.Scamp, 2022

‘Menehay’ × *N. jonquilla*; sdlg no. 1234

Fl. forming a double triangle, 90mm wide; perianth segments 34mm long, roundish, very broad, blunt, yellow, with pale mucro, spreading, plane, with margins slightly incurving, creased and of membranaceous substance, overlapping half or more; the inner segments ovate, shouldered at base, scarcely mucronate; corona segments 18mm long, orange, split to more than half its length into six segments, each closely overlying a perianth segment forming an outer and an inner whorl of three, as broad as the inner perianth segments, bi-lobed, with lobes overlapping, frilled. Mid-season. Sunproof. Sweetly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0170343)

Etymology: requested by the National Trust’s Head of Gardens

'Nico' 7 W-GWW

J.A.Delaney, 2022

'Quickstep' open pollinated

Fls 2–5 (generally 3) per stem, forming a double triangle, 55mm wide, facing upwards; perianth segments 22.5mm long, ovate, mucronate, white, spreading or a little reflexed, plane, with margins incurved or wavy, smooth and of heavy substance, overlapping a quarter; the inner segments narrower, more nearly spreading, shouldered at base; corona 12mm long, cup-shaped, angled, yellowish white 155D, with green at base, mouth expanded, wavy, somewhat shallowly and irregularly lobed, with rim entire. Mid-season to late. Sunproof. Sweetly scented. Nomenclatural Standard: colour print supplied by registrant (WSY0170523)

Etymology: registrant's tuxedo tabby cat

'Noize' 6 W-YYP

(J. de Winter) Fa. M.H.van der Zon & Son, 2021

Parentage unknown

Fl. forming a double triangle, 90mm wide, facing downwards; perianth segments 40mm long, broadly ovate, rounded at apex, mucronate, greenish white 155A, reflexed, concave, with margins somewhat incurving, with midrib showing, of membranaceous substance, overlapping half; the inner segments narrower, acute at apex, less prominently mucronate; corona 35mm long, cylindrical, smooth, light yellow 9D, with a broad band of orange-pink (26D) at rim and vivid yellow 12A at base, mouth expanded, even, lightly frilled and lobed, with rim narrowly flanged and crenate. Dwarf. Mid-season. Sunproof. Sweetly scented.

Nomenclatural Standard: colour print supplied by KAVB (WSY0170107)

'Nora's Gift' 2 Y-R

(Wilfred Hall) Malcolm Wheeler, 2022

'Craig Stiel' × 'Wee One' unregistered; sdlg no. 07/30

Fl. forming a double triangle, 66mm wide; perianth segments 27mm long, broadly ovate, rounded at apex, mucronate, yellow, slightly flushed red, spreading, plane, smooth and of heavy substance, overlapping half or more; the inner segments narrower; corona 11mm long, cup-shaped, smooth, red, mouth ribbed, even and slightly flared, with rim crenate. Dwarf. Mid-season. Sunproof.

Nomenclatural Standard: colour print supplied by registrant (WSY0170239)

Etymology: for the hybridiser's mother

'November Star' 8 W-Y

Sara L.van Beck, 2022

Parentage unknown

Fls 12+ per stem, forming a double triangle, 42mm wide; perianth segments ovate, blunt, mucronate, spreading, plane, with margins incurving, with midrib showing and of membranaceous substance, overlapping one-third; the inner segments narrower; corona 3mm long, bowl-shaped, smooth, mouth

straight, ribbed and even, with rim entire. Autumn. Sweetly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0170498)

'Obstinate' 2 Y-YYO

(Tony Davis, 2011) Graeme Davis, 2021

Sdlg ('Loch Lundi' × 'Tearaway') × Sdlg ('Dynamic' × 'Redlands Too'); sdlg no. 6/11

Fl. forming a double triangle, 105mm wide, facing upwards; perianth segments 42mm long, very broadly ovate, blunt, yellow, with slight pale mucro, spreading, plane, creased and of membranaceous substance, overlapping half; the inner segments narrower, more nearly ovate; corona 28mm long, cylindrical, smooth, yellow, with a broad band of orange at rim, mouth even, flared and lobed, with rim notched. Mid-season. Sunproof.

Nomenclatural Standard: colour print supplied by registrant (WSY0170123)

'Ohana' 2 YYW-YOO

(Denise E.McQuarrie, 2010) Denise E.McQuarrie, 2022

'Carib Gipsy' × 'Sabre'; sdlg no. MCQ-M26

Fl. rounded, 115mm wide; perianth segments 48mm long, very broad, rounded at apex, lemon yellow, with white at base, spreading, plane, smooth and of heavy substance, overlapping half or more; corona 40mm long, funnel-shaped, smooth, opening yellow, becoming light apricot orange with yellow at base, mouth flared and wavy, with rim notched. Mid-season to late.

Etymology: Hawaiian word for 'family'

'Olwen's Guest' 7 Y-Y

(R.A.Scamp, 1990) R.A.Scamp, 2022

'Montego' × *N. jonquilla* var. *henriquesii*; sdlg no. 988

Fls 1–3 per stem, 57mm wide; perianth segments 24mm long, very broadly ovate or roundish, blunt, yellow, with pale mucro, spreading, plane or with margins incurved, smooth and of heavy substance, overlapping half or more; the inner segments narrower, less prominently mucronate, somewhat shouldered at base; corona 7mm long, bowl-shaped, smooth, yellow, mouth expanded, wavy and shallowly lobed, with rim crenate. Early to mid-season. Sunproof.

Nomenclatural Standard: colour print supplied by registrant (WSY0170334)

'Open Cabin' 1 Y-P

(David Adams, 1997) David Adams, 2022

'Kabanova' unregistered open pollinated;

sdlg no. 92/123]

Fl. forming a double triangle, 90mm wide; perianth segments 35mm long, ovate, acute, mucronate, pale creamy yellow, spreading, concave, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 40mm long, funnel-shaped, smooth, pale pink, mouth flared, ribbed and frilled, with rim rolled and crenate. Mid-season. Slightly scented

‘Outright Orange’ 11a Y-O

(C.van der Veek) C.van der Veek, 2022

Parentage unknown

Perianth segments ovate, acute, slightly mucronate, spreading, plane or with margins incurved towards apex, with midrib showing and of heavy substance, overlapping half or more; the inner segments narrower; corona split almost to base into six segments, each overlying a perianth segment forming an outer and an inner whorl of three, two-thirds the length of and almost as wide as the perianth segments, ribbed, lightly frilled and bi-lobed, with lobes overlapping, entire. Early. Sunproof.
Nomenclatural Standard: colour print supplied by registrant (WSY0170370)

‘Overlooked’ 3 W-O

(Tony Davis, 2010) Graeme Davis, 2021
Sdlg 3/02 × ‘Miss Maureen’ unregistered;
sdlg no. 48/10

Fl. rounded, 95mm wide; perianth segments 35mm long, roundish, very broad, blunt, mucronate, spreading, plane, creased and of membranaceous substance, overlapping half for more; the inner segments narrower, shouldered at base, truncate, scarcely mucronate; corona 11mm long, disc-shaped, smooth, mouth expanded, wavy and shallowly lobed, with rim crenate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170100)

‘Passion Dance’ 1 WWY-Y

(Testcentrum voor Siergewassen BV) W.van Lierop & Sons, 2021

Parentage unknown; sdlg no. 01-18-br1
Fl. forming a double triangle, 90mm wide; perianth segments 32–35mm long, ovate, acute, mucronate, greenish white 155A, with brilliant greenish yellow 5B at base, spreading, plane, with margins incurving, with midrib showing, of membranaceous substance, overlapping one-third; the inner segments narrower, somewhat inflexed; corona 35–38mm long, cylindrical, smooth, vivid yellow 12A, mouth slightly expanded, ribbed, even and shallowly lobed, with rim flanged and crenate. Mid-season. Strongly scented. Sunproof.
Nomenclatural Standard: colour print supplied by KAVB (WSY0170095)

‘Peach Diamond’ 2 W-P

(Testcentrum voor Siergewassen BV) W.van Lierop & Sons, 2021

Parentage unknown; sdlg no. 98-12-br2
Fl. forming a double triangle, 90mm wide; perianth segments 35mm long, roundish, very broad, blunt, slightly mucronate, greenish white 155C, spreading or slightly reflexed, convex, with margins incurving towards corona, smooth, with midrib showing, of membranaceous substance, overlapping half or more; the inner segments narrower, scarcely mucronate; corona 30mm long, funnel-shaped,

smooth, orange-pink (27A), mouth expanded, ribbed, wavy, and shallowly lobed, with rim flanged and crenate. Mid-season. Strongly scented.
Nomenclatural Standard: colour print supplied by KAVB (WSY0170097)

‘Peach Schnapps’ 4 Y-P

(Brian S.Duncan) Esker Farm Daffodils, 2022

‘Baldock’ × ‘Waldorf Astoria’; sdlg no. 2437
Fl. 110mm wide; perianth and other petaloid segments in three or more whorls; the outer whorl very broadly ovate, blunt, scarcely mucronate, spreading, plane, smooth and of heavy substance, overlapping half or more; the inner whorls narrower, shallowly concave; the inner segments inflexed, folded inward along midrib; corona segments in two or more whorls, interspersed among the inner perianth segments, the inner whorl more strongly inflexed towards and clustered at centre, wavy or folded. Sunproof.
Nomenclatural Standard: colour print supplied by registrant (WSY0170251)

‘Pennytoft Yellow’ 1 Y-Y

(R.A.Scamp, 1997) R.A.Scamp, 2021

‘Hero’ × ‘Ouma’; sdlg no. 749
Fl. forming a double triangle, 100mm wide; perianth segments 42mm long, broadly ovate, rounded at apex, yellow, with pale mucro, spreading, plane, with margins incurving, creased, with midrib showing, of heavy substance, overlapping half or more; corona 44mm long, funnel-shaped, smooth, yellow, mouth straight, wavy and lobed, with rim crenate and somewhat flanged. Early. Sunproof.
Nomenclatural Standard: colour print supplied by registrant (WSY0170113)
Etymology: at the request of J. Cox, Spalding

‘Pequot’ 2 W-O

(Michael Berrigan, 2016) Michael Berrigan, 2022

‘Orange Julius’ × ‘Conestoga’; sdlg no. 08-141-2
Fl. rounded, 102mm wide, facing upwards; perianth segments 38mm long, roundish, very broad, truncate, mucronate, a little reflexed, plane or with margins slightly incurved, smooth and of heavy substance, overlapping half or more; the inner segments narrower, scarcely mucronate, more nearly spreading; corona 24mm long, bowl-shaped, smooth, mouth expanded, wavy or very lightly frilled, lobed, with lobes overlapping, with rim even. Mid-season. Sunproof. Mildly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0170544)
Etymology: a Native American people of Connecticut

‘Piper Elinor’ 2 W-WWP

(R.A.Scamp, 1993) R.A.Scamp, 2021
‘High Society’ × ‘Dailmanach’; sdlg no. 631
Fl. forming a double triangle, 114mm wide; perianth segments 49mm long, broadly ovate, blunt, mucronate, white, spreading, plane or with margins incurved from midrib, smooth and of membranaceous substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 28mm long, cup-shaped, broadly ribbed, opening pink, becoming white with a broad band of pink at rim, mouth expanded, wavy and shallowly lobed, with rim dentate and narrowly flanged. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170114)

‘Plant America’ 11a W-Y

(C.van der Veek) Gebr. Hulsebosch, 2022
Parentage unknown
Perianth segments roundish, very broad, blunt, scarcely mucronate, spreading, plane, with margins incurving, creased and of heavy substance, overlapping half; the inner segments narrower, more nearly ovate, shouldered at base, slightly inflexed; corona split to base into six segments, each closely overlying a perianth segment forming an outer and an inner whorl of three, two-thirds the length of and almost as wide as the perianth segments, lightly frilled and bi-lobed, with lobes overlapping, with margin minutely crenate. Mid-season.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0170371)

‘Pleasanton Pink’ 2 W-P

(Brian S.Duncan) Susan Duncan, 2022
‘Amazing Grace’ × ‘Trumpet Royale’; sdlg no. 4406
Fl. forming a double triangle; perianth segments very broadly ovate, blunt, mucronate, white, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona funnel-shaped, angled, golden pink, mouth straight, ribbed and even, with rim flanged and notched. Early to mid-season.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0170449)
Etymology: location in California of the flower and garden show where cultivar first exhibited in the USA

‘Prinses Amalia’ 6 W-Y

(K.van der Veek) Jac.Uittenbogaard en Zonen BV, 2021
Parentage unknown
Fl. forming a double triangle, 85mm wide; perianth segments 41mm long, ovate, blunt, mucronate, opening yellow, becoming greyish white (157B), reflexed, plane, with margins narrowly incurving, with midrib showing, of membranaceous substance, overlapping half; the inner segments narrower, more nearly plane; corona 31mm long, funnel-shaped, ribbed, opening strong yellow, becoming brilliant greenish yellow 4A, paler (4C) at rim, mouth straight and wavy to lightly frilled, with rim narrowly flanged

and crenate. Early. Strongly scented. Sunproof.
Nomenclatural Standard: colour print supplied by KAVB (WSY0170094)

‘Proud Princess’ 1 Y-O

(Brian S.Duncan) Susan Duncan, 2022
‘Proud Fellow’ × ‘Kingstanding’; sdlg no. 4628
Fl. forming a double triangle; perianth segments broadly ovate, blunt, yellow, with pale mucro, reflexed, plane, with margins sometimes incurving, with midrib showing, of heavy substance, overlapping half; the inner segments narrower, more nearly spreading, shouldered at base; corona funnel-shaped, smooth, deep orange, mouth straight, a little wavy towards apex, with rim notched and minutely crenate. Early.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0170482)

‘Puahue’ 3 W-Y

(P.D.K.Ramsay, 2005) Fisher Nurseries 2006 Ltd, 2022
‘Pure Magic’ unregistered × ‘Placid Sea’;
sdlg no. 05:62
Fl. rounded, 90mm wide; perianth segments 37mm long, spreading, plane, smooth and of heavy substance, overlapping half or more; corona 8mm long, disc-shaped, smooth, mouth frilled. Tall. Late

‘Pure Sun’ 7 WWY-Y

(Testcentrum voor Siergewassen BV) W.van Lierop & Sons, 2021
Parentage unknown; sdlg no. 01-12-22
Fls 3–4 per stem, forming a double triangle, 65–70mm wide; perianth segments 25–30mm long, ovate, acute, sometimes mucronate, greenish white 155A, with vivid yellow 12A at base, spreading, plane, with margins slightly incurving, smooth and of membranaceous substance, overlapping one-third; the inner segments narrower and somewhat inflexed; corona 20mm long, cup-shaped, angled, vivid yellow 12A, mouth expanded, even and lobed, with rim narrowly flanged and crenate. Dwarf. Mid-season. Sweetly scented. Sunproof.
Nomenclatural Standard: colour print supplied by KAVB (WSY0170099)

‘Reno Arrow’ 1 Y-O

(Brian S.Duncan) Susan Duncan, 2022
‘Proud Fellow’ × ‘Kingstanding’; sdlg no. 4586
Fl. forming a double triangle, 108mm wide; perianth segments 43mm long, broadly ovate, blunt, yellow, with pale mucro, spreading, plane or with margins a little incurved towards apex, with midrib showing, of membranaceous substance, overlapping half; the inner segments narrower, shouldered at base, scarcely mucronate; corona 45mm long, funnel-shaped, smooth, pale orange, mouth expanded, wavy and notched, with rim narrowly flanged and crenate. Mid-season.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0170483)

'Reno Royale' 2 W-P

(Brian S.Duncan) Susan Duncan, 2022
'Burt House' × 'Trumpet Royale'; sdlg no. 4341
Fl. rounded, 115mm wide; perianth segments 46mm long, roundish, very broad, truncate, scarcely mucronate, white, spreading, plane, with margins incurling, creased and of membranaceous substance, overlapping half; the inner segments narrower, ovate, shouldered at base; corona 32mm long, funnel-shaped, smooth, pink, touched with a golden iridescence, mouth straight, wavy and shallowly lobed, with rim minutely crenate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170453)

'Ruby Morris' 1 W-GWW

(Mrs Anne Wright, 2010) Mrs Anne Wright, 2022
'Snipe' × 'Candlepower'; sdlg no. 2781-1-17
Fl. star-shaped, 43mm wide, facing slightly downwards; perianth segments 19mm long, ovate, blunt, mucronate, greenish white 155C, spreading, plane, smooth and of heavy substance, overlapping at base only; corona 20mm long, cylindrical, smooth, greenish white 155A, touched brilliant greenish yellow 1B at base, mouth even, flared and lightly frilled, with rim irregularly notched. Dwarf. Early. Sunproof.
Nomenclatural Standard: colour print supplied by registrant (WSY0170322)
Etymology: for registrant's neighbour

'Safi' 1 W-O

(Brian S.Duncan) Susan Duncan, 2022
'Woround' × 'Prime Target'; sdlg no. 4567
Fl. 90mm wide, facing downwards; perianth segments broadly ovate, blunt, mucronate, opening yellow, becoming white, a little reflexed, plane, creased and of membranaceous substance, overlapping half; the inner segments narrower, more nearly spreading, scarcely mucronate, shouldered at base; corona narrow funnel-shaped, angled, opening yellow, becoming orange, mouth ribbed, flared and even, with rim crenate. Mid-season.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0170490)

'Sailor's Choice' 1 Y-R

(Brian S.Duncan, 2006) F.Charlton, 2022
'Red Reed' × 'Lutana'; sdlg no. 3279
Fl. forming a double triangle, 100mm wide; perianth segments very broadly ovate, blunt, slightly mucronate, deep yellow, spreading, plane or with margins a little incurved, with midrib showing, of heavy substance, overlapping half or more; the inner segments narrower, scarcely mucronate, shouldered at base; corona funnel-shaped, smooth, orange red, mouth broadly ribbed, flared and wavy, with rim crenate. Mid-season. Sunproof.
Nomenclatural Standard: colour print supplied by hybridiser (WSY01702890)

'Saint George's Cathedral' 2 W-GPP

(John R.Reed) J.A.Delaney, 2022
'Lydick' × 'Dear Me'
Fl. forming a double triangle, 95mm wide; perianth segments 40mm long, broadly ovate, blunt or truncate, slightly mucronate, white, spreading, plane, with margins incurling, with midrib showing and of heavy substance, overlapping half; the inner segments narrower, shouldered at base, somewhat inflexed; corona 27mm long, funnel-shaped, angled, strong pink (54C) with green at base, mouth expanded to a little flared, ribbed and wavy, with rim notched. Early. Sunproof. Sweetly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0170525)
Etymology: to honour the 2018 Royal couple's wedding

'Saltram' 5 Y-Y

(R.A.Scamp, 2010) R.A.Scamp, 2022
'Hillstar' × *N. triandrus*; sdlg no. 99-2-53
Fls 2-3 per stem, 62mm wide, facing downwards; perianth segments 25mm long, ovate, blunt, reflexed, plane or twisted, with margins incurling or wavy, smooth and of heavy substance, overlapping half; the inner segments narrower; corona 16mm long, cup-shaped, smooth, mouth even and a little expanded, with rim minutely crenate. Dwarf. Mid-season to late. Sunproof.
Nomenclatural Standard: colour print supplied by registrant (WSY0170341)
Etymology: at the request of the National Trust for their Garden at Saltram

'SH Bee Gee' 2 Y-Y

(Tony Davis, 2010) Graeme Davis, 2021
Parentage unknown
Fl. forming a double triangle, 120mm wide; perianth segments 45mm long, broadly ovate, blunt, yellow, with slight pale mucro, spreading, plane, with margins narrowly incurling, smooth and of heavy substance, overlapping half; the inner segments narrower, somewhat shouldered at base; corona 34mm long, funnel-shaped, smooth, yellow, mouth straight and a little wavy, with rim dentate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170116)
Etymology: identified as a bulb for donation to the Southern Highlands Botanical Gardens, with the label BG

'Sierra Wind' 2 W-P

(Brian S.Duncan) Susan Duncan, 2022
'Jodi' sdlg × 'Volcanic Rim'; sdlg no. 4731
Fl. 115mm wide, facing downwards; perianth segments 46mm long, broadly ovate, truncate, prominently mucronate, white, spreading, plane, with margins incurling towards apex, creased and of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate; corona 21mm long, funnel-shaped, smooth, pink, darker in tone at rim, mouth straight, even, shallowly lobed, with lobes overlapping, with rim crenate. Late.
Nomenclatural Standard: colour print supplied by registrant (WSY0170465)

'Single Lane' 1 W-W

(David Adams, 2014) David Adams, 2022
'Biway' open pollinated; sdlg no. 04/08C
Fl. forming a double triangle, 116mm wide; perianth segments 47mm long, ovate, acute, spreading, plane or with margins incurved, smooth and of heavy substance, overlapping one-third; the inner segments narrower, shouldered at base; corona 49mm long, cylindrical, smooth, mouth expanded and frilled, with rim flanged and crenate. Mid-season. Sunproof

'Sirisha' 2 WWP-GPW

(Brian S.Duncan) Susan Duncan, 2022
'Burt House' × 'Trumpet Choice'; sdlg no. 4641
Fl. forming a double triangle, 110mm wide; perianth segments 43mm long, broadly ovate, truncate, slightly mucronate, spreading, plane, creased and of membranaceous substance, overlapping half; the inner segments narrower; corona 36mm long, funnel-shaped, smooth, mouth expanded, even and lightly frilled, with rim notched, flanged or somewhat rolled. Mid-season.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0170484)

'Sir Scott' 2 Y-R

(Brian S.Duncan) Susan Duncan, 2022
'Nott's Hill' unregistered × 'Entente'; sdlg no. 4307
Fl. forming a double triangle, 90mm wide; perianth segments 38mm long, broadly ovate, blunt, deep golden yellow, with slight pale mucro, spreading, plane, with margins narrowly incurling at apex, smooth and of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate; corona 35mm long, narrow funnel-shaped, angled, deep orange-red, mouth straight and even, with rim notched. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170459)

'Slice of Life' 11a Y-O

(C.van der Veek) J.G.Weijers & Son, 2022
Parentage unknown
Fls 1-3 per stem, 65mm wide; perianth segments 27mm long, roundish, very broad, truncate or blunt, yellow with prominent pale mucro, spreading, plane, creased and of membranaceous substance, overlapping half or more; the inner segments narrower, more nearly ovate, with margins somewhat incurling, scarcely mucronate; corona 11mm long, split for more than half its length into six segments, each opposite and closely overlying a perianth segment, orange, bi-lobed, with lobes overlapping, frilled, with rim crenate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170351)

'Snicket' 1 Y-Y

(David Karnstedt, 2008) Michael Berrigan, 2022
'Light House Reef' × 'Trumpet Warrior'; sdlg no. 98-172-2B
Fl. rounded, 115mm wide; perianth segments 34mm long, roundish, spreading, plane, smooth and of heavy substance, overlapping half or more; the inner segments shouldered at base; corona 35mm long, cylindrical, smooth, mouth expanded and even with rim entire. Mid-season.
Etymology: shortened pen name of children's author Lemony Snicket

'Soothing Sonata' 2 W-P

(Brian S.Duncan) Susan Duncan, 2022
'Amadeus' × ('Soprano' × 'Magician'); sdlg no. 4676
Fl. forming a double triangle, 100mm wide; perianth segments 39mm long, broadly ovate, truncate, pure white, spreading, plane or with margins incurved, creased and of heavy substance; corona 22mm long, very broad funnel-shaped, smooth, reddish pink, mouth expanded, ribbed, even and shallowly lobed, with rim crenate and broadly flanged. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170467)

'Sugar Cookie' 2 Y-R

(Brian S.Duncan) Susan Duncan, 2022
'Motts Hill' × 'Entente'; sdlg no. 4839
Fl. forming a double triangle, 104mm wide; perianth segments 40mm long, broadly ovate, blunt, deep golden yellow, with scarce pale mucro, spreading, plane, creased and of membranaceous substance, overlapping half; the inner segments narrower, shouldered at base; corona 28mm long, funnel-shaped, smooth, orange red, mouth expanded, lobed and lightly frilled with rim minutely crenate. Mid-season.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0170489)

'Sugar Tree Road' 2 Y-P

(Gerard Knehans Jr, 2006) Gerard Knehans Jr, 2022
'Relentless' × 'American Heritage'; sdlg no. KN221
Fl. forming a double triangle, 90mm wide; perianth segments 36mm long, broadly ovate, blunt, scarcely mucronate, pale yellow 11C, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 32mm long, funnel-shaped, angled, light yellowish pink (27A), mouth straight and even, with rim flanged and notched. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170555)
Etymology: Missouri road name

'Sunny Choice' 2 Y-O

(Brian S.Duncan, 2007) F.Charlton, 2022
Sdlg 3238 ('Solar System' × ['Amboseli' × 'Burning Bush']) × ?Sdlg D.T.94.09; sdlg no. 3505
Fl. forming a double triangle, 110mm wide; perianth segments roundish, very broad, blunt, yellow, with slight pale mucro, spreading, plane, with margins incurling, somewhat hooded at apex, smooth and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base; corona narrow funnel-shaped, smooth, reddish orange, mouth flared, ribbed and crenate. Mid-season. Sunproof.
Nomenclatural Standard: colour print supplied by Choice Bulbs & Plants (WSY0170294)

'Sweet Desire' 4 W-Y

(C.van der Veeke) J.G.Weijers & Son, 2022
Parentage unknown
Fl. 108mm wide; perianth and other petaloid segments in three or more whorls, roundish, smooth and of heavy substance; the outer whorls 46mm long, very broad, blunt, slightly mucronate, reflexed, margins incurved or wavy, with midrib showing, overlapping to half; the inner segments narrower, less prominently mucronate; the inner whorls narrower, more nearly ovate, with margins incurling, successively shorter and more strongly inflexed towards centre; corona segments 26mm long, interspersed among the inner petaloid segments and clustered at centre, bi-lobed, wavy to frilled. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170352)

'Swidwin Square' 2 Y-O

(Brian S.Duncan) Susan Duncan, 2022
'Online' × 'Wild Rover'; sdlg no. 4303
Fl. forming a double triangle, 102mm wide; perianth segments 42mm long, ovate, blunt, yellow, spreading, plane, with midrib showing, of heavy substance, overlapping half; corona 37mm long, funnel-shaped, smooth, mid-orange, mouth straight and broadly ribbed, with rim notched. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170457)
Etymology: the capital of Swidwin County, Poland, formerly known as Schivelbein as part of Prussia,

where some of the ancestors of the Registrant's husband were born and married

'Templeton Flash' 1 W-Y

(David Adams, 2016) David Adams, 2022
'Flash Affair' × K. Johnston sdlg 1 W-R;
sdlg no. 06/10J
Fl. forming a double triangle, 101mm wide; perianth segments 42mm long, ovate, acute, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments shouldered at base; corona 44mm long, funnel-shaped, smooth, mouth expanded, ribbed and frilled, with rim flanged and crenate. Mid-season.
Etymology: 'Flash Affair' seedling raised in Templeton, New Zealand

'Tender Beauty' 4 W-P

(K.van der Veeke) Gebr. T. en E. Ammerlaan B.V., 2021
Parentage unknown
Fl. rounded, 90mm wide, facing upwards; perianth and other petaloid segments in three whorls; the two outer whorls 40mm long, broadly ovate, spreading, plane, with margins very narrowly incurling, smooth and of membranaceous substance, overlapping half or more; the inner whorls successively shorter and more inflexed towards centre, concave or folded inwards long midrib; corona segments 25mm long, interspersed among the inner petaloid segments and clustered at centre, frilled. Mid-season. Sweetly scented.
Nomenclatural Standard: colour print supplied by KAVB (WSY0170096)

'Terry' 6 Y-O

(J.de Winter) Fa. M.H.van der Zon & Son, 2021
Parentage unknown
Fl. forming a double triangle, 95mm wide; perianth segments 40mm long, ovate, acute, mucronate, greenish yellow 2D, reflexed, convex, with margins incurling, with midrib showing, of membranaceous substance, overlapping half; the inner segments less strongly reflexed; corona 33mm long, cylindrical, angled, brownish orange (170D), mouth straight, broadly ribbed and wavy, with rim crenate and very narrowly flanged. Mid-season. Strongly scented.
Nomenclatural Standard: colour print supplied by KAVB (WSY0170109)

'Texel Sun' 2 Y-O

(M.A.Vandervliet) Texelsun Bloembollen, 2022
Parentage unknown
Fl. forming a double triangle, 123mm wide, facing upwards; perianth segments 51mm long, broadly ovate, blunt, yellow, with slight pale mucro, spreading, plane or with margins a little incurved, creased and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 29mm long, funnel-shaped, smooth, orange, mouth straight, a little wavy, lightly frilled, with rim notched. Mid-season. Sunproof.
Nomenclatural Standard: colour print supplied by registrant (WSY0170354)

‘Tiny Alice’ 4 Y-O

(Nial Watson, 2014) Ringhaddy Daffodils, 2022
N. rupicola × ‘Little Alice’; sdlg no. M55W
 Fl. forming a double triangle, 42mm wide; perianth and other petaloid segments in two whorls, 18mm long, vivid yellow 12A, with pale mucro, spreading, plane, with midrib showing, of heavy substance, overlapping one-third; the outer whorl obovate, truncate; the inner whorl narrower, somewhat inflexed, with margins incurling; corona segments 8mm long, mostly clustered at centre, light orange (23A), wavy to lightly frilled. Dwarf. Early. Sunproof. Very sweetly scented.
 Nomenclatural Standard: colour print supplied by registrant (WSY0170378)

‘Tropical Blend’ 2 Y-O

(Testcentrum voor Siergewassen BV) W.van Lierop & Sons, 2021
 Parentage unknown; sdlg no. 01-47-br1
 Fl. forming a double triangle, 100mm wide; perianth segments 45mm long, broadly ovate, truncate, light yellow 9C, with slight pale mucro, spreading, plane, with margins incurling, with midrib showing, of membranaceous substance, overlapping half; the inner segments narrower; corona 30mm long, funnel-shaped, smooth, orange (24C), mouth expanded, ribbed, wavy and lobed, with lobes overlapping, with rim broadly flanged and crenate. Mid-season. Sweetly scented. Sunproof.
 Nomenclatural Standard: colour print supplied by KAVB (WSY0170101)

‘Ulrike’ 2 W-Y

(Brian S.Duncan) Susan Duncan, 2022
 ‘Jammin’ open pollinated; sdlg no. 4656
 Fl. rounded, 113mm wide; perianth segments 47mm long, roundish, very broad, blunt or sometimes truncate, pure white, scarcely mucronate, spreading, plane, smooth and of membranaceous substance, overlapping half or more; the inner segments narrower; corona 16mm long, bowl-shaped, smooth, deep yellow, mouth expanded and frilled, with rim crenate. Mid-season.
 Nomenclatural Standard: colour print supplied by hybridiser (WSY0170491)

‘Uncle Moon’ 2 W-W

(Denise E.McQuarrie, 2010) Denise E.McQuarrie, 2022
 ‘Silver Kiwi’ × ‘Stoke Doyle’; sdlg no. MCQ-OC14
 Fl. rounded, 115mm wide; perianth segments 48mm long, roundish, very broad, rounded at apex, mucronate, spreading, plane, smooth and of heavy substance, overlapping half or more; the inner segments narrower, more nearly ovate, slightly truncate, somewhat shouldered at base; corona 40mm long, narrow funnel-shaped, smooth, mouth wavy, with rim flanged, crenate to shallowly notched. Early to mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0170364)
 Etymology: a favourite Hawaiian musician of the Registrant

‘Vita’ 2 WWY-Y

(M.W.Carney, 2004) M.W.Carney, 2022
 ‘Golden Amber’ × ‘Silver Bells’; sdlg no. 04-10-08
 Fl. forming a double triangle, 78mm wide; perianth segments 35mm long, ovate, blunt, slightly mucronate, spreading, plane, smooth and of heavy substance, overlapping one-third; the inner segments narrower, shouldered at base; corona 28mm long, funnel-shaped, broadly ribbed, mouth straight and wavy, with rim dentate. Mid-season. Sunproof.
 Nomenclatural Standard: colour print supplied by registrant (WSY0170552)
 Etymology: hybridiser’s cat

‘Wanted One’ 2 W-YO

(Michael Berrigan, 2015) Michael Berrigan, 2022
 ‘Step Child’ × ‘Katrina Rea’; sdlg no. 8P2J6
 Fl. forming a double triangle, 95mm wide; perianth segments 25mm long, roundish, blunt, mucronate, spreading, plane, smooth and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base, scarcely mucronate; corona 22mm long, cylindrical, angled, mouth straight, wavy and lobed, with rim notched. Mid-season. Sunproof. Sweetly scented.
 Nomenclatural Standard: colour print supplied by registrant (WSY0170545)

‘Warren Jay Enger’ 1 O-O

(Michael Berrigan, 2015) Michael Berrigan, 2022
 Postle’s 1 O-O sdlg × Reed 1 O-O sdlg;
 sdlg no. 08-16-4
 Fl. forming a double triangle, facing upwards; perianth segments broadly ovate, blunt, orange, with pale mucro, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona cylindrical, smooth, orange, mouth expanded and even, with rim narrowly flanged and crenate. Mid-season. Sunproof.
 Nomenclatural Standard: colour print supplied by registrant (WSY0170546)

‘Wattle Gold’ 2 Y-Y

(Tim Klein) David Adams, 2022
 ‘Purbeck’ × *N. cyclamineus*; sdlg no. 99/207B
 Fl. rounded, 94mm long; corona 37mm long, roundish to broadly ovate, blunt, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments shouldered at base; corona 15mm long, bowl-shaped, ribbed, mouth flared and frilled, with rim dentate. Mid-season

‘Wilde Poetry’ 9 W-GYO

(Nial Watson) Ringhaddy Daffodils, 2022

Parentage unknown; sdlg no. W812

Fl. rounded, 59mm wide; perianth segments 24mm long, roundish, very broad, rounded at apex, mucronate, white, a little reflexed, plane, with midrib showing, of heavy substance, overlapping half or more; the inner segments narrower, more nearly truncate; corona 4mm long, disc-shaped, ribbed, brilliant yellow 7B, with a very narrow band of orange at rim, and green at base, mouth smooth and wavy, with rim crenate. Mid-season. Sunproof. Slightly sweetly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0170380)

‘Wilton Garden Club’ 2 W-P

(John R.Reed) J.A.Delaney, 2022

Parentage unknown; sdlg no. 95-14-2

Fl. forming a double triangle, 83mm wide, facing upwards; perianth segments 34mm long, broadly ovate, blunt, white, reflexed, plane or with margins incurved, smooth and of heavy substance, overlapping one-third; the inner segments narrower; corona 20mm long, cup-shaped, ribbed, pink (51B), mouth straight and wavy, with rim crenate. Mid-season. Sunproof. Sweetly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0170527)

Etymology: to commemorate the Wilton, Connecticut Garden Club's Centennial

‘Wodka’ 11a Y-OOY

(C.van der Veek) C.van der Veek, 2022

Parentage unknown

Fls upto 3 per stem, 60mm wide; perianth segments 24mm long, ovate, blunt, yellow, with pale mucro, spreading or a little inflexed, plane or with margins slightly incurving at apex, smooth and of membranaceous substance, overlapping half; the inner segments narrower, scarcely mucronate; corona 9mm long, split half way into six segments, each opposite and overlying a perianth segment, bi-lobed, with lobes overlapping, wavy to lightly frilled, with rim notched, orange, merging with yellow towards rim. Dwarf. Late. Nomenclatural Standard: colour print supplied by registrant (WSY0170359)

Etymology: in memory of Wodka the cat, whose regular presence outside a hospital entrance gave comfort to many patients

‘Zeeland Ginger’ 2 YYW-P

(John R.Reed) J.A.Delaney, 2022

Parentage unknown

Fl. forming a double triangle, 92mm wide, facing upwards; perianth segments 38mm long, ovate, truncate, luminous yellow (4C), with white at base and scarce white mucro, spreading, plane, smooth and of heavy substance, overlapping one-third; the inner segments narrower, shouldered at base; corona 30mm long, narrow funnel-shaped, smooth, strong yellowish pink 37B, mouth expanded, ribbed and wavy, with rim somewhat crenate. Mid-season. Sunproof. Sweetly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0170529)

Etymology: for Hans Hansen, renowned red-headed plant breeder from Zeeland, Michigan, USA

ADDITIONS AND AMENDMENTS TO THE INTERNATIONAL DAFFODIL REGISTER (2008) AND SUPPLEMENTS

The compilers are grateful to those who have drawn attention to omissions from the International Daffodil Register and its Supplements, pointed out errors, suggested changes or supplied new information.

Amendments to cultivar names, divisions, colour codes, parentages, originators and registrants will usually be published in an annual Supplement. Amendments to descriptions will usually only be published in a new edition of the Register. However, all amendments will be published on the internet, in a regular updating of the Register posted at:

www.rhs.org.uk/plants/plantsmanship/plant-registration/Daffodil-cultivar-registration

AMENDMENTS TO THE *INTERNATIONAL DAFFODIL REGISTER (2008)*

- ‘Blushing Lady’ Add: ADS Wister Award 2022
‘Cameo Joy’ Add: AM(e) April 2022
‘Garden Opera’ Amend colour code to: Y-O
‘Williamsburg’ Add: ADS Pannill Award 2022

ADDITIONS TO THE *LIST OF ORIGINATORS AND REGISTRANTS*

- Andersen, Kathryn S. Pennsylvania, USA
Calkins, Timothy E. Virginia, USA
Delaney, J.A. Missouri, USA
Freeman, Gregory S. South Carolina, USA
Gammons, Susan L. Missouri, USA
Hamill, Hubert Co. Omagh, Northern Ireland
Hill, R.J. Te Awamutu, New Zealand
Hulsebosch, Gebr. Schagerbrug, The Netherlands
Marlow, Trevor Hornchurch, England
Texelsun Bloembollen De Cocksdorp, The Netherlands
van Beck, Sara L. Georgia, USA

AMENDMENTS TO THE *LIST OF ORIGINATORS AND REGISTRANTS*

It is with sadness we report the death of the following daffodil luminaries, enthusiasts and friends:

- Abernethy, R.J. (Ron), New Zealand d. 2021
Lee, Bill, USA d. 2022
Niswonger, O. David, USA d. 2022
MacArthur, Dugald C., Scotland d. 2018
Phillips, Graham J., New Zealand d. 2021
Sanders, Theo, Germany d. 2021

AMENDMENTS TO THE LIST OF BOTANICAL NAMES IN THE GENUS *NARCISSUS*

The initial S. has been added before the name Ríos in the following entries:

alcaracensis S.Ríos, D.Rivera, Alcaraz & Obón, in *Bot. J. Linn. Soc.* 131 (2)160 (1999) (*Narcissus*)
Section Pseudonarcissus

segurensis S.Ríos, D.Rivera, Alcaraz & Obón, in *Bot. J. Linn. Soc.* 131 (2) 153 (1999) (*Narcissus*)
Section Pseudonarcissus

yepesii S.Ríos, D.Rivera, Alcaraz & Obón, in *Bot. J. Linn. Soc.* 131 (2) 161 (1999) (*Narcissus*)
Section Pseudonarcissus

AMENDMENTS TO THE 14TH SUPPLEMENT

‘Blue Tongue’ Amend flower width to: 45mm wide

‘Chemin-A Haut’ Amend colour code to: W-O

‘Dilcie’ Amend flower width to: 110mm

AMENDMENTS TO THE 8TH SUPPLEMENT

‘Kauana’ Amend colour code to: W-GYR

‘Winks’ Add: FCC(e) April 2022

AMENDMENTS TO THE 6TH SUPPLEMENT

‘Grafton Gold’ Add: AM(e) April 2022

HORTICULTURAL CLASSIFICATION

Whether of wild or cultivated origin, once a selection has been distinguished by a cultivar name it should be assigned to Divisions 1–12. Daffodils distinguished solely by botanical name should be assigned to Division 13.

Notes

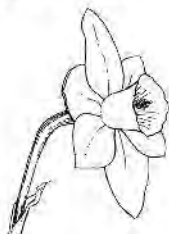

1. The characteristics for Divisions 5 to 10 are given for guidance only; they are not all necessarily expected to be present in every cultivar assigned to those divisions
2. Divisions 12 and 13 are not illustrated owing to the wide variation in shape and size between the flowers involved

DIVISION 1 - TRUMPET DAFFODIL CULTIVARS

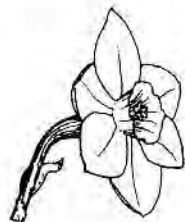

One flower to a stem; corona (“trumpet”) as long as, or longer than the perianth segments (“petals”)

DIVISION 2 - LARGE-CUPPED DAFFODIL CULTIVARS

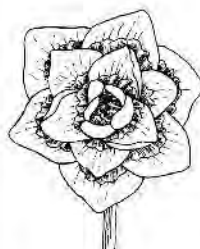

One flower to a stem; corona (“cup”) more than one-third, but less than equal to the length of the perianth segments (“petals”)

DIVISION 3 - SMALL-CUPPED DAFFODIL CULTIVARS

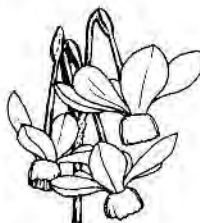

One flower to a stem; corona (“cup”) not more than one-third the length of the perianth segments (“petals”)

DIVISION 4 - DOUBLE DAFFODIL CULTIVARS

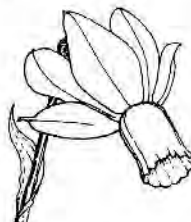

One or more flowers to a stem, with doubling of the perianth segments or the corona or both

DIVISION 5 - TRIANDRUS DAFFODIL CULTIVARS

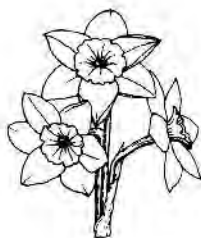

Characteristics of *N. triandrus* clearly evident: usually two or more pendent flowers to a stem; perianth segments reflexed

DIVISION 6 - CYCLAMINEUS DAFFODIL CULTIVARS

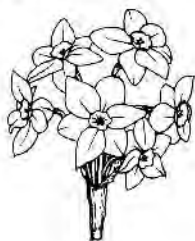

Characteristics of *N. cyclamineus* clearly evident: one flower to a stem; perianth segments significantly reflexed; flower at an acute angle to the stem, with a very short pedicel (“neck”)

DIVISION 7 - JONQUILLA AND APODANTHUS DAFFODIL CULTIVARS

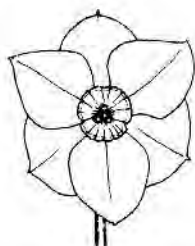

Characteristics of Sections Jonquilla or Apodanthi clearly evident: one to five (rarely eight) flowers to a stem; perianth segments spreading or reflexed; corona cup-shaped, funnel-shaped or flared, usually wider than long; flowers usually fragrant

DIVISION 8 - TAZETTA DAFFODIL CULTIVARS

Characteristics of Section Tazettae clearly evident: usually three to twenty flowers to a stout stem; perianth segments spreading not reflexed; flowers usually fragrant

DIVISION 9 - POETICUS DAFFODIL CULTIVARS

Characteristics of *N. poeticus* and related species clearly evident; perianth segments pure white; corona very short or disc-shaped, not more than one-fifth the length of the perianth segments; corona usually with a green and/or yellow centre and red rim, but sometimes wholly or partly of other colours; anthers usually set at two distinct levels; flowers fragrant

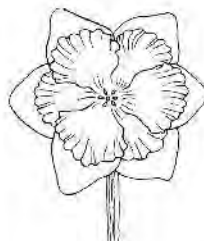

DIVISION 10 - BULBOCODIUM DAFFODIL CULTIVARS

Characteristics of Section Bulbocodium clearly evident: usually one flower to a stem; perianth segments insignificant compared with the dominant corona; anthers dorsifixed (ie attached more or less centrally to the filament); filament and style usually curved

DIVISION 11 - SPLIT-CORONA DAFFODIL CULTIVARS

Corona split - usually for more than half its length

a) Collar Daffodils
Split-corona daffodils with the corona segments opposite the perianth segments; the corona segments usually in two whorls of three

b) Papillon Daffodils
Split-corona daffodils with the corona segments alternate to the perianth segments; the corona segments usually in a single whorl of six

DIVISION 12 - OTHER DAFFODIL CULTIVARS

Daffodil cultivars which do not fit the definition of any other division

DIVISION 13 - DAFFODILS DISTINGUISHED SOLELY BY BOTANICAL NAME

SOME ILLUSTRATIONS OF DESCRIPTIVE TERMS
