

The International Daffodil Register & Classified List (2008)

Fourteenth Supplement

FOURTEENTH SUPPLEMENT
to the
INTERNATIONAL DAFFODIL REGISTER AND CLASSIFIED LIST (2008)
2020-2021

The daffodil names listed here are supplementary to the *International Daffodil Register* (2008) and were registered between **1st December 2020 and 30th June 2021**.

Registrations are followed by a list of some other recent additions and amendments to the Register & Supplements.

REGISTRATION

Hybridizers, raisers and other introducers of daffodils are urged to ensure that the names of new plants are registered and are reminded that registration should preferably take place **before** plants are released or catalogued. Registration is conducted by The Royal Horticultural Society, International Cultivar Registration Authority for the genus *Narcissus*. Application forms are available from:

- The International Daffodil Registrar: Ms Melanie Underwood
RHS Wisley, Woking, Surrey GU23 6QB, UK
Email daffodil@rhs.org.uk
- The National Daffodil Registrar (the Netherlands): Mr Roderick Bouman
KAVB, Postbus 175, 2180 AD Hillegom, the Netherlands
Fax (31) 2525 369 51
Email bouman@kavb.NL
- The National Daffodil Registrar (USA): Mrs Mary Lou Gripshover
Email mgripshover@cinci.rr.com
- The National Daffodil Registrar (New Zealand): Mr Mike Smith
Email mikesmithmotueka@gmail.com
- The National Daffodil Registrar (Australia): Mr Graeme Davis
Email graemecdavis@hotmail.com

Once registered, names and classifications may be changed only with the agreement of the International Cultivar Registration Authority, upon application to the International Registrar.

NOTES ON CLASSIFICATION AND DESCRIPTION

Note 1 – on classification

The combination of division and colour code assigned here (or as amended in any future Supplement) is the registered classification, to be observed, for example, when schedules require cultivars to be shown “as registered”. The registered classification is not altered by any note of variable measurement or colour.

Note 2 – on colour coding

Guidelines on colour coding, including those on distinguishing between Yellow and Orange and between Orange and Red, appear in the Register and on registration forms. It is at the registrant's discretion to distinguish White from Yellow or Green, Yellow from Green, or Pink from the paler tones of Orange or Red.

In addition:

– Green at corona base

The green at the base of a corona, whether in the tube or in the corona itself, may be included in the colour code if it is prominent and plain to see. Registrants are advised to include it only if it is consistent from year to year.

– Non-concentric colours

When coding colours in perianth or corona that appear in radial rather than concentric bands, or in a flare from the base, or in flecks or splashes: start with a letter for the predominant colour; proceed with an oblique line; follow with the letter(s) (in any order) for the non-predominant colour(s).

For example, a yellow flower with a white streak along the midrib of the perianth segments would be Y/W-Y; a white flower with radial bands of orange and yellow on the corona segments would be W-W/OY.

Note 3 – on colour terms

Colour Chart numbers in registered descriptions, e.g. ‘Amira’ brilliant yellow 8A, are from the *RHS Colour Chart* (1966, 1986, 1995, 2001, 2007, 2015). Colour names followed by Chart numbers without brackets are equivalents adopted by the RHS for all its international registers. They are taken from the Universal Colour Language in the Inter-Society Color Council-National Bureau of Standards colour-name system. Colour names followed by Chart numbers with brackets or by no numbers at all are those supplied by the registrant.

Note 4 – on description

Registered descriptions are drawn up from application forms and, whenever possible, from photographs and specimens. The Registrar would welcome readers' comments on the accuracy of all descriptions.

Illustrations of descriptive terms appear on page 24.

Note 5 – on height

Stem heights in registered descriptions may be taken to be Standard (325–675mm) unless otherwise stated, when they will be described as Dwarf (less than 325mm) or Tall (more than 675mm).

Note 6 – on Nomenclatural Standards

The Standard noted at the end of some descriptions is the designated herbarium specimen or illustration forming a permanent record of the distinguishing characteristics of the cultivar and fixing the cultivar name. These are maintained at the RHS Herbarium, Wisley.

Note 7 – on unregistered names

Names listed as ‘unregistered’ are those post-1955 that have not been accepted by the RHS or have not yet been submitted for registration. They are included as part of the Check List and they gain no registered status by being listed. They are included in order to prevent confusion between daffodils of the same name and to help prevent further duplication.

REGISTRATIONS 2020 - 2021

The following 140 cultivar names were registered between 1st December 2020 and 30th June 2021 by The Royal Horticultural Society, International Cultivar Registration Authority for the genus *Narcissus*.

To access the *International Daffodil Register and Classified List* (2008), to download *Supplements 1–14* and the *Cumulative List of Registrations (Abridged)* visit:

www.rhs.org.uk/plants/plantsmanship/plant-registration/Daffodil-cultivar-registration

Entries follow the style of those in the *International Daffodil Register and Classified List* (2008) and may be interpreted accordingly (see p10 in the Register).

The seed parent is given before the pollen parent.

'A.J.Star' 3 O-R

(Brian S.Duncan) Kathy Johnston, 2021
Sdlg 3005 ('Jake' × Sdlg 1776) × Sdlg 2510
('Shindig' × Sdlg 85/25); sdlg no. 3995
Fl. 105mm wide; perianth segments 40mm long;
corona 12mm long. Mid-season.
Etymology: named after registrant's beautiful dog
A.J. who passed away

'A Million Kisses' 11a W-YYO

(H.A.Vandervliet) C.van der Veek, 2021
'Jersey Lace' open pollinated
Fl. 96mm wide; perianth segments 40mm long,
roundish, very broad, blunt or truncate, prominently
mucronate, white, reflexed, concave or with margins
wavy, with midrib showing, of membranaceous
substance, overlapping half; the inner segments
narrower, more nearly spreading, shouldered at base,
truncate, scarcely mucronate; corona 11mm long,
split to half its length into six segments, each closely
overlying a perianth segment, forming an inner and
an outer whorl of three, yellow, with a broad band of
orange at rim, ribbed and frilled, with rim crenate.
Mid-season.
Nomenclatural Standard: colour print supplied by
registrant (WSY0136950)

'Amira' 4 W-Y

(H.Wijnhout) Fa. H.Wijnhout & Son, 2020
Parentage unknown
Fl. 90mm wide; perianth segments in three whorls,
greenish white 155A; the outer whorl 35mm long,
broadly ovate, rounded at apex, prominently
mucronate, spreading, with margins incurved,
smooth and of heavy substance, overlapping half;
the inner whorls shorter and inflexed towards
centre, with margins incurving or irregularly folded;
corona segments 20mm long, brilliant yellow 8A,
interspersed among the two inner perianth whorls
and clustered at centre, heavily frilled and crenate.
Early. Strongly scented.
Nomenclatural Standard: colour print supplied by
KAVB (WSY0136861)

'Anna Pavord' 2 YYW-P

(Brian S.Duncan, 2009) RHS Bulb Committee, 2021
'Melange' × Sdlg 2761 ('Oregon Pioneer' × 'Azocor');
sdlg no. 3742
Fl. 106mm wide; perianth segments 43mm long,
broadly ovate, blunt, lemon yellow, with a narrow
band of white at base, and white mucro, spreading,
plane or with margins incurved, creased, with midrib
showing, of heavy substance, overlapping half; the
inner segments narrower; corona 40mm long,
cylindrical to narrow funnel-shaped, broadly ribbed,
coral pink, mouth straight and wavy, with rim
shallowly notched and flanged. Mid-season.
Nomenclatural Standard: colour print supplied by
hybridiser (WSY0136870)
Etymology: In honour of Anna Pavord on her 80th
birthday

'Art Deco' 3 W-WPP

(Mary Lou Gripshover) Mary Lou Gripshover, 2021
Sdlg ('Angel' × 'Fellowship') × 'Amadeus';
sdlg no. 00-06-03
Fl. 78mm wide; perianth segments 33mm long,
ovate, truncate, slightly mucronate, spreading to
somewhat reflexed, plane, with margins wavy or
incurving, smooth and of heavy substance, overlapping
one-third; corona 10mm long, bowl-shaped, angled,
mouth expanded, ribbed and wavy, with rim crenate.
Mid-season.
Nomenclatural Standard: colour print supplied by
registrant (WSY0170065)
Etymology: commemorates exhibitions at Cincinnati
Art Museum

'Ashlee Maree' 4 W-YYP

(David Adams, 1996) David Adams, 2021
'Precedent' × 'Tropic Isle'; sdlg no. 89/102C
Fl. rounded, 108mm wide; perianth segments 39mm
long, in two whorls, white, ovate, spreading, plane,
with margins incurving, smooth and of heavy
substance, overlapping half or more; corona segments
yellow, with pink at rim. Mid-season

'Audrey Grace' 2 Y-Y

(Brian S.Duncan) Richard Moriarty, 2021
N. cyclamineus × *N. rupicola*; sdlg no. 14/103/2
 Fl. star-shaped, 24mm wide, facing downwards;
 perianth segments ovate, acute, blunt, spreading,
 plane, smooth and of heavy substance, overlapping a
 quarter; the inner segments slightly narrower; corona
 narrow funnel-shaped, angled, mouth straight and
 slightly wavy, with rim notched. Dwarf.
 Nomenclatural Standard: colour print supplied by
 registrant (WSY0136993)
 Etymology: named in honour of registrant's late mother

'Balintore Bairn' 1 Y-Y

(Brian S.Duncan, 2010) Robert S.Moore, 2021
 'Longitude' × 'Disquiet'; sdlg no. 4097
 Fl. forming a double triangle, 90mm wide; perianth
 segments 37mm long, broadly ovate, blunt, yellow,
 with slight, pale mucro, spreading, plane or with
 margins incurved, with midrib showing, of
 membranaceous substance, overlapping half; the
 inner segments narrower, shouldered at base; corona
 37mm long, cylindrical, angled, mouth ribbed, widely
 flared, with rim notched.
 Nomenclatural Standard: colour print supplied by
 hybridiser (WSY0136877)
 Etymology: named for the place where the registrant's
 late wife spent her childhood

'Ballgown' 4 W-P

(Nial Watson, 2012) Ringhaddy Daffodils, 2021
 'Brooke Ager' × 'Pink Pageant'; sdlg no. W957
 Fl. 71mm wide; perianth and other petaloid segments
 in three or more whorls, white; the two outer whorls
 30mm long, roundish, very broad, spreading, plane,
 smooth and of heavy substance, overlapping half or
 more; the inner whorls shorter and successively more
 strongly inflexed towards the centre, concave or
 folded inwards along midrib; corona segments 17mm
 long, interspersed among the inner perianth segments,
 strong yellowish pink 32D, folded inwards along
 midrib, frilled. Mid-season to late.
 Nomenclatural Standard: colour print supplied by
 registrant (WSY0136972)

'Beau Beauté' 2 W-WWP

(C.van der Veek) C.van der Veek, 2021
 Parentage unknown; sdlg no. F703
 Fl. forming a double triangle, 106mm wide; perianth
 segments 45mm long, broadly ovate to roundish,
 truncate, mucronate, spreading, plane, with midrib
 showing, of heavy substance, overlapping half; the
 inner segments narrower, shouldered at base; corona
 30mm long, cup-shaped, smooth, mouth broadly
 ribbed, wavy to lightly frilled, shallowly lobed, with
 rim crenate. Mid-season.
 Nomenclatural Standard: colour print supplied by
 registrant (WSY0136914)

'Bell Fly' 6 W-O

(Walter J.M. Blom) C.van der Veek, 2021
 Parentage unknown
 Fl. star-shaped, 67mm wide, facing downwards;
 perianth segments 28mm long, ovate or oblong,
 blunt, white, touched green at base, prominently
 mucronate, spreading or a little reflexed, plane or
 wavy, smooth and of heavy substance, overlapping a
 third to a half; the inner segments narrower, less
 prominently mucronate; corona 20mm long,
 cylindrical, angled, orange, a little paler towards base,
 mouth expanded, wavy and broadly ribbed, with rim
 crenate. Dwarf. Early.
 Nomenclatural Standard: colour print supplied by
 registrant (WSY0136941)

'Bésame Mucho' 3 WWY-YYO

(H.A.Vandervliet) C.van der Veek, 2021
 'Jersey Lace' open pollinated
 Fl. 93mm wide; perianth segments 36mm long,
 roundish, very broad, blunt or truncate, mucronate,
 white, touched yellow at base, spreading or a little
 reflexed, shallowly concave, creased and of
 membranaceous substance, overlapping half or more;
 the inner segments narrower, scarcely mucronate,
 shouldered at base, spreading, somewhat wavy and
 notched at margins; corona 11mm long, bowl-shaped,
 smooth, yellow, with a band of strong orange at rim,
 mouth widely expanded, lobed and heavily frilled,
 lobes overlapping, with rim crenate. Mid-season.
 Nomenclatural Standard: colour print supplied by
 registrant (WSY0136932)

'Bessie Davies' 1 Y-Y

(Brian S.Duncan, 2011) Andrew Lovell, 2021
 'Chobe River' × 'Disquiet'; sdlg no. 4106
 Fl. forming a double triangle, 115mm wide; perianth
 segments 43mm long, broadly ovate, blunt, spreading,
 plane, with margins a little incurving, smooth and of
 heavy substance, overlapping half; the inner segments
 narrower, shouldered at base; corona 45mm long,
 funnel-shaped, smooth, mouth straight and wavy,
 with rim dentate and broadly flanged. Early.
 Nomenclatural Standard: colour print supplied by
 registrant (WSY0136988)
 Etymology: named for the famous pub landlady of
 the Gwaun Valley

'Billy Bunter' 10 Y-Y

(Stuart Murray) David Adams, 2021
 ?'Elfhorn' × ?*N. bulbocodium* subsp. *obesus*
 Fl. star-shaped, 40mm wide, facing upwards; perianth
 segments 11mm long, lanceolate, acute, spreading,
 plane, smooth and of heavy substance, separated;
 corona 16mm long, bowl-shaped, smooth, mouth
 straight and lobed, with rim crenate. Dwarf.
 Mid-season

'Birr Castle' 3 Y-YYO

(Brian S.Duncan, 2012) William McCone, 2021
Sdlg 3005 ('Jake' × Sdlg 1776) × Sdlg 2510 ('Shindig'
× Sdlg 85/25); sdlg no. 4505

Fl. 90mm wide; perianth segments 37mm long, roundish, very broad, truncate, yellow, with pale mucro, spreading, shallowly concave, with margins narrowly incurved at apex, smooth and of heavy substance, overlapping half or more; the inner segments narrower, more nearly ovate, scarcely mucronate, with midrib showing; corona 9mm long, funnel-shaped, ribbed, yellow, with a broad band of reddish orange at rim, mouth straight and wavy, with rim minutely crenate. Mid-season to late.

Nomenclatural Standard: colour print supplied by registrant (WSY0136866)

Etymology: named after Birr Castle, County Offaly, Republic of Ireland

'Blue Tongue' 6 Y-Y

(David Adams, 2010) David Adams, 2021

Sdlg ('Snipe' × *N. cyclamineus*) open pollinated; sdlg no. 03/03A

Fl. star-shaped, 145mm wide; perianth segments 21mm long, oblong, acute, reflexed, plane, with margins incurving, with midrib showing, of heavy substance, overlapping a quarter; corona 19mm long, cylindrical, strongly ribbed, mouth straight and filled, with rim dentate, Dwarf. Mid-season

'Bobby Dazzler' 11a W-R

(Brian S.Duncan, 2011) Brian S.Duncan, 2021

'Magician' × 'Diversity'; sdlg no. 3706

Fl. forming a double triangle, 98mm wide; perianth segments 35mm long, roundish, very broad, blunt, mucronate, white, spreading, plane or with margins incurved, a little creased, of heavy substance, overlapping half; the inner segments narrower, ovate, scarcely mucronate, somewhat shouldered at base; corona 18mm long, split almost to base into six segments, each closely overlying a perianth segment, forming an outer and inner whorl of three, bi-lobed, almost as wide as the inner segments, deep pinkish red, a little lighter in tone towards rim, wavy and crenate. Early to mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0170060)

'Ceann Beag' 1 Y-Y

(Brian S.Duncan, 2010) Richard Moriarty, 2021

'Little Beauty' open pollinated; sdlg no. 4033

Fl. 50mm wide, facing downwards; perianth segments 17mm long, ovate, acute, spreading, plane or with margins very slightly incurved, smooth and of heavy substance, overlapping at base only; the inner segments a little narrower; corona 17mm long, narrow funnel-shaped, smooth, mouth straight and even, with mouth notched and broadly flanged. Dwarf. Early.

Nomenclatural Standard: colour print supplied by hybridiser (WSY0136874)

Etymology: registrant's pet name for his wife

'Ceann Mór' 2 Y-O

(Brian S. Duncan, 2009) Richard Moriarty, 2021

Syn. 'Good Point'

'Banker' × 'Causeway Sunset'; sdlg no. 4122

Etymology: wife's pet name for registrant

Note: at the request of the hybridiser seedling number 4122, previously registered as 'Good Point' (*13th Suppl.*), was renamed 'Ceann Mór' (*ICNCP* 2016: Art. 29)

'Charles Nelson' 2 W-W

(Brian S.Duncan, 2011) William McCone, 2021

'Chinchilla' × 'Bridal Chorus'; sdlg no. 4120

Fl. forming a double triangle, 108mm wide, pure white; perianth segments 40mm long, broadly ovate, blunt, spreading, plane, with midrib showing, of membranaceous substance, overlapping half; the inner segments narrower, somewhat shouldered at base; corona 26mm long, funnel-shaped, smooth, mouth straight, wavy to lightly frilled, with rim crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0136867)

Etymology: named for founder of the Irish Garden Plant Society

'Chemin-A-Haut' 2 W-O

(C.Higgins, 2010) C.Higgins, 2021

'Baradoc' open pollinated; sdlg no. 10-32

Fl. forming a double triangle, 95mm wide; perianth segments 35mm long, ovate, blunt, white, touched very pale yellow at base, with prominent white mucro, spreading, plane, smooth and of membranaceous substance, overlapping half; the inner segments narrower, somewhat shouldered at base, less prominently mucronate; corona 21mm long, narrow funnel-shaped, angled, orange, touched yellowish orange at base, mouth straight, wavy and irregularly lobed, with rim crenate. Early to mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0170001)

Etymology: pronounced "shemn-a-HAW", it is the French name (meaning "high road") for the trail used by Native Americans in their seasonal migrations.

The trail runs north/south along the west side of the Mississippi River

'Chiquitita' 7 Y-Y

(C.van der Veek) C.van der Veek, 2021

Selection from *N. fernandesii*

Fls 6 per stem, 23mm wide, golden yellow; perianth segments 9mm long, roundish, very broad, blunt, with prominent white mucro, spreading, plane, creased and of heavy substance, overlapping half or more; the inner segments less prominently mucronate; corona 5mm long, cup-shaped, smooth, mouth straight and wavy, with rim crenate. Early. Slightly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0136945)

‘Chubby Chops’ 6 W-Y

(Tim Klein) David Adams, 2021

‘Foundling’ × *N. cyclamineus*; sdlg no. TK95/205A

Fl. star-shaped, 58mm wide, facing downwards; perianth segments 25mm long, lanceolate, mucronate, reflexed, twisted, of heavy substance, overlapping half; corona 13mm, cylindrical, ribbed, mouth straight and even, with rim crenate. Dwarf. Mid-season

‘Cindy’s Joy’ 1 YY-W-Y

(Cindy Haeffner, 2015) Cindy Haeffner, 2021

‘Pops Legacy’ × ‘Loch Leven’; sdlg no. 2009-1-1

Fl. 100mm wide; perianth segments 42mm long, roundish, very broad, yellow, touched white at base and with pale mucro, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower; corona 44mm long, cylindrical, smooth, yellow, mouth flared, broadly ribbed and lightly frilled, with rim crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0170053)

Etymology: named for hybridiser’s husband, Joy

‘Consent’ 2 W-Y

(Gerry Wass, 2018) Gerry Wass, 2021

‘Ice Follies’ sport

Fl. forming a double triangle, 90mm wide; perianth segments 38mm long, ovate, blunt, slightly mucronate, spreading, plane, with midrib showing, of heavy substance, overlapping one-third; the inner segments narrower; corona 30mm long, funnel-shaped, ribbed, light yellow, mouth straight and frilled, with rim dentate to notched and widely flanged. Early. Sweetly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0136994)

‘Country Roads’ 2 W-YWY

(C.van der Veek) C.van der Veek, 2021

Parentage unknown; sdlg no. F14

Fl. forming a double triangle, 105mm wide; perianth segments 40mm long, broadly ovate, blunt, mucronate, white, spreading, concave, with margins incurling, creased and of membranaceous substance, overlapping half or more; the inner segments a little narrower; corona 27mm long, broad and shallow funnel-shaped, smooth, opening orange-yellow, maturing to white, with a broad band of yellow at rim and touched yellow at base, mouth straight and lightly frilled, with rim notched. Early.

Nomenclatural Standard: colour print supplied by registrant (WSY0136916)

‘Cremello’ 2 Y-Y

(C.van der Veek) C.van der Veek, 2021

Parentage unknown; sdlg no. F60

Fl. forming a double triangle, 122mm wide; perianth segments 50mm long, broadly ovate, blunt, mucronate, spreading, plane, with midrib showing, of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate; corona 48mm long, narrow funnel-shaped, smooth, a little darker in tone than perianth segments, mouth frilled and broadly

ribbed, with rim widely flanged. Early.

Nomenclatural Standard: colour print supplied by registrant (WSY0136879)

‘Dance All Day’ 11a W-P

(C.van der Veek) C.van der Veek, 2021

Parentage unknown; sdlg no. 08-84

Fl. rounded, 105mm wide; perianth segments 37mm long, roundish, very broad, blunt, slightly mucronate, spreading, plane, with margins narrowly incurling, smooth and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base; corona segments 31mm long, split almost to base into six segments, each as wide as and closely overlying a perianth segment, forming an inner and an outer whorl of three, bi-lobed, with lobes overlapping, frilled and minutely crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0136954)

‘Dawn Parade’ 2 W-YYO

(Denise E.McQuarrie, 2006) Denise E.McQuarrie, 2021

‘Carib Gipsy’ × ‘Sabre’; sdlg no. MCQ-J11

Fl. rounded, 110mm wide; perianth segments 45mm long, very broadly ovate, rounded at apex, mucronate, spreading, plane, smooth and of heavy substance, overlapping half or more; corona 41mm long, cylindrical, smooth, mouth wavy and slightly flared, with rim crenate. Tall. Early to mid-season.

Etymology: the Dawn Parade is held in New Zealand on ANZAC Day to commemorate returned service-men and women, and those who lost their lives in war

‘Dilcie’ 2 Y-YWP

(W.G.Pannill, c.1980) Lucy Wilson, 2021

Parentage unknown; sdlg no. 44/12

Fl. 64mm wide, facing upwards; perianth segments 51mm long, roundish, very broad, blunt, yellow, with pale midrib and mucro, spreading, plane or with margins slightly recurved, smooth and of membranaceous substance, overlapping one-third; the inner segments narrower; corona 19mm long, bowl-shaped, smooth, white, with broad band of pink at rim and yellow at base, mouth flared and ribbed, with rim frilled and dentate. Early. Sweetly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0136995)

Etymology: nickname for registrant’s mother-in-law

‘Dindy Sparkles’ 5 Y-Y

(Brian S.Duncan) Richard Moriarty, 2020

‘Hillstar’ × *N. triandrus* subsp. *triandrus*; sdlg no. 3184

Fls up to 5 per stem, 76mm wide, facing downwards; perianth segments 37mm long, oblong or ovate, blunt or acute, spreading, plane, smooth and of heavy substance, overlapping at base only; corona narrow funnel-shaped, 17mm long, smooth, mouth straight and even, with rim entire.

Nomenclatural Standard: colour print supplied by hybridiser (WSY0136862)

Etymology: registrant’s pet name for his best friend, Lucinda Kirby

'El Cóndor' 6 W-Y

(C.van der Veek) C.van der Veek, 2021
 Parentage unknown; sdlg no. F85
 Fl. 110mm wide; perianth segments 45mm long, broadly ovate, blunt or truncate, mucronate, reflexed, plane or with margins incurved, creased and of membranaceous substance, overlapping half or more; the inner segments narrower, scarcely mucronate, wavy; corona 36mm long, narrow funnel-shaped, broadly ribbed, mouth straight, lightly frilled and lobed, with lobes overlapping, mouth broadly flanged and minutely crenate. Dwarf. Early.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136945)

'Elsa's Song' 1 W-W

(Leone Y.Low) Becky Fox Matthews, 2021
 Sdlg Low 4-2a1 × Sdlg ('Ice Follies' × 'Pledge' unreg); sdlg no. 1675
 Fl. 42mm wide; perianth segments ovate, blunt, mucronate, slightly inflexed, plane or twisted, smooth and of heavy substance, overlapping one-third; corona funnel-shaped, ribbed, mouth straight and lightly frilled, with rim notched. Dwarf. Very early.
 Nomenclatural Standard: colour print supplied by registrant (WSY0170070)

'Ethel Elizabeth' 2 Y-P

(Brian S.Duncan, 2012) David Walker, 2020
 'Pincambo' × 'Rocoza'; sdlg no. 4516
 Fl. 103mm wide; perianth segments 36mm long; corona 37mm long.
 Etymology: named for registrant's wife

'Falling For You' 4 W-Y

(Brian S.Duncan) C.van der Veek, 2021
 'Serena Beach' × 'Soprano'; sdlg no. D2414
 Fl. 106mm wide; perianth and other petaloid segments in three or more whorls, white; the two outer whorls 44mm long, roundish, very broad, blunt to truncate, slightly mucronate, spreading, plane or with margins a little incurved, smooth and of heavy substance, overlapping half or more; the inner whorls successively shorter and more strongly inflexed towards centre, concave or folded inwards along midrib; corona segments 25mm long, interspersed among the inner perianth whorls, strong yellow, lightly frilled, becoming more crumpled at centre. Mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136934)

'Firelight Glow' 3 Y-O

(Denise E.McQuarrie, 2009) Denise E.McQuarrie, 2021
 'Red Era' × 'Nakajima'; sdlg no. MCQ-OC506
 Fl. rounded, 105mm wide; perianth segments 46mm long, broadly ovate, rounded at apex, slightly mucronate, spreading, plane, smooth and of heavy substance, overlapping half or more; the inner segments scarcely mucronate; corona 12mm long, shallow cup-shaped, smooth, mouth straight and slightly wavy, with rim entire. Tall. Mid-season to late

'Freddie Raymond' 1 YYW-W

(Brian S.Duncan, 2011) Greer Gouldsbrough, 2021
 'Little Gem' open pollinated
 Fl. star-shaped, 55mm wide; perianth segments 21mm long, ovate or oblong, blunt, lime yellow, with broad white halo at base, a little inflexed, plane, with margins incurved, smooth and of heavy substance, overlapping at base; corona 24mm long, cylindrical, smooth, yellowish white, mouth straight and wavy, with rim notched. Dwarf. Early.
 Nomenclatural Standard: colour print supplied by hybridiser (WSY0136962)

'Free Bird' 5 Y-Y

(Brian S.Duncan, 2010) Becky Fox Matthews, 2021
 'Hillstar' × *N. triandrus*; sdlg no. 3892
 Fls 3 per stem, 40mm wide, deep lemon yellow, facing downwards; perianth segments 20mm long, ovate or oblong, blunt, spreading, plane or with margins a little incurved, smooth and of heavy substance, overlapping at base; corona 7mm long, cup-shaped, smooth, mouth straight and slightly wavy, with rim entire. Mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136961)
 Etymology: song by band Lynyrd Skynyrd, written in 1970

'Frimly Milly' 1 Y-O

(Graeme and Faith Miller, 2014) Graeme and Faith Miller, 2021
 'Waiteitei' × 'Rangataua'; sdlg no. GM14-22
 Fl. forming a double triangle, 73mm wide; perianth segments 30mm long, broadly ovate, blunt, mucronate, greenish yellow 7D, spreading, plane or with margins a little incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, somewhat shouldered at base; corona 30mm long, funnel-shaped, ribbed, light orange (29A), mouth flared and frilled, with rim crenate. Early.
 Nomenclatural Standard: colour print supplied by registrant (WSY01360010)

'Frontier Cherry' 4 W-P

(Graeme and Faith Miller, 2010) Graeme and Faith Miller, 2021
 'Cherrygardens' × 'Marabou'; sdlg no. GM10-68
 Fl. 95mm wide; perianth and other petaloid segments in three or more whorls, yellowish white 155D; the two outer whorls 38mm long, roundish, very broad, blunt or truncate, a little reflexed, plane or with margins incurved, smooth and of heavy substance, overlapping half or more; the inner segments a little narrower, more nearly spreading; the inner whorls successively shorter and more strongly inflexed towards centre, interspersed among the corona segments, concave or irregularly folded inwards along midrib; corona segments 34mm long, reddish pink (48C), clustered at centre, wavy to frilled. Mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0170015)

'Frontier Coral' 2 Y-O

(Graeme and Faith Miller, 2006) Graeme and Faith Miller, 2021

'Dailmanach' × Sdlg GM99-72; sdlg no. GM06-155 Fl. 103mm wide; perianth segments 40mm long, very broadly ovate to roundish, blunt or truncate, brilliant greenish yellow 4A, with slight, pale mucro, spreading, plane or with margins a little incurved, creased and of membranaceous substance, overlapping half or more; the inner segments narrower, ovate, somewhat shouldered at base; corona 34mm long, narrow funnel-shaped, ribbed, strong orange 24A, mouth flared and frilled with rim crenate. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0170011)

'Frontier Honey' 1 W-Y

(Graeme and Faith Miller, 2006) Graeme and Faith Miller, 2021

'Apple Honey' × 'Pop's Legacy'; sdlg no. GM06-052 Fl. forming a double triangle, 116mm wide; perianth segments 49mm long, broadly ovate, blunt, mucronate, greenish white 157B, spreading, plane or with margins a little incurved, creased and of membranaceous substance, overlapping half or more; corona 50mm long, cylindrical, greenish yellow 7D, mouth straight, ribbed and frilled, with rim broadly flanged and dentate. Early.

Nomenclatural Standard: colour print supplied by registrant (WSY0170013)

'Gecko' 6 Y-Y

(David Adams, 2012) David Adams, 2021

Sdlg 91/06A × *N. cyclamineus*; sdlg no. 05/05N Fl. star-shaped, 43mm wide, facing downwards; perianth segments 20mm long, lanceolate, blunt, reflexed, convex, smooth and of heavy substance, overlapping at base only; corona 19mm long, cylindrical, smooth, mouth straight, ribbed and frilled, with rim crenate. Dwarf. Early

'Golden Bouquet' 5 Y-Y

(K.van der Veek) Gebr. T. & E.Ammerlaan B.V., 2021 Parentage unknown

Fls 6 per stem, forming a double triangle, at right angles or facing downwards, brilliant greenish yellow 6A; perianth segments ovate, blunt, slightly mucronate, spreading, concave, with margins incurving, smooth and of membranaceous substance, overlapping one-third; the inner segments narrower; corona cup-shaped, smooth, mouth straight, even and slightly lobed, with rim straight and entire. Mid-season.

Nomenclatural Standard: colour print supplied by KAVB (WSY0170054)

'Gordon Dymond' 1 Y-Y

(Brian S.Duncan, 2012) Tony Dymond, 2021

'Disquiet' × 'Wild Rover'; sdlg no. 4066 Fl. forming a double triangle, 103mm wide; perianth segments 40mm long, broadly ovate, blunt, deep golden yellow, with slight, pale mucro, spreading,

plane or with margins a little incurved, with midrib showing, of membranaceous substance, overlapping half or more; the inner segments narrower, scarcely mucronate, shouldered at base; corona 43mm long, funnel-shaped, broadly ribbed, deep golden yellow, sometimes with orange tones developing at maturity, mouth straight and wavy, with rim narrowly rolled and shallowly notched. Mid-season.

Nomenclatural Standard: colour print supplied by hybridiser (WSY0136873)

Etymology: named for registrant's late father

'Gracie' 1 W-YWY

(Mrs Anne Wright, 2015) Mrs Anne Wright, 2021

'Candlepower' × 'Lara Lovely' unregistered; sdlg no. 3110-3-15

Fl. star-shaped, 44mm wide; perianth segments 18mm long, narrowly ovate, acute, mucronate, yellowish white 155B, with brilliant greenish yellow 4A at base and rim, spreading, plane, with midrib showing, of heavy substance, overlapping a quarter; corona 21mm long, cylindrical, smooth, opening brilliant greenish yellow 4A, becoming yellowish white 155B at maturity with yellow at base and rim, mouth frilled and a little expanded, with rim dentate. Early. Dwarf. Faintly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0136977)

'Greenhill Hero' 2 W-Y

(Denise E.McQuarrie, 2007) Denise E.McQuarrie, 2021 Parentage unknown; sdlg no. MCQ-J56

Fl. rounded, 115mm wide; perianth segments 48mm long, very broadly ovate, rounded at apex, mucronate, spreading, plane, smooth and of heavy substance, overlapping half or more; corona 40mm long, funnel-shaped, smooth, mouth flared and wavy, with rim crenate and notched. Mid-season.

Etymology: named in honour of the registrant's late husband, Neil McQuarrie, who was a hero to his family

'Greenhill Ruru' 3 W-YYR

(Denise E.McQuarrie, 2013) Denise E.McQuarrie, 2021

'Cairntoul' × 'Carole Lombard'; sdlg no. MCQ-M13

Fl. rounded, 110mm wide; perianth segments 52mm long, broadly ovate, rounded at apex, spreading, plane, smooth and of heavy substance, overlapping half or more; corona 15mm long, shallow bowl-shaped, smooth, mouth expanded and frilled, with rim entire. Mid-season to late

'Greenhill Snow' 2 W-W

(Denise E.McQuarrie, 2007) Denise E.McQuarrie, 2021

'Quiet Waters' × 'Florence Joy'; sdlg no. MCQ-K63

Fl. rounded, 105mm long; perianth segments 43mm long, ovate, rounded at apex, mucronate, spreading, plane, smooth and of heavy substance, overlapping half or more; the inner segments scarcely mucronate; corona 38mm long, funnel-shaped, lightly ribbed, mouth wavy and slightly flared, with rim crenate. Mid-season

'Helen's Melody' 6 W-P

(Leone Y.Low) Becky Fox Matthews, 2021

Parentage unknown

Perianth segments ovate, blunt, slightly mucronate, reflexed, plane, smooth and of membranaceous substance, overlapping half; the inner segments narrower, scarcely mucronate; corona narrow funnel-shaped, angled, mouth narrowly flared and lightly filled, with rim dentate. Early to mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0170066)

Etymology: named in honour of Helen Link

'Hello Sunshine' 1 Y-Y

(C.van der Veek) C.van der Veek, 2021

Parentage unknown; sdlg no. F30

Fl. forming a double triangle, 115mm wide; perianth segments 50mm long, broadly ovate, blunt, scarcely mucronate, spreading, plane, with midrib showing, of membranaceous substance, overlapping half; the inner segments narrower; corona 54mm long, funnel-shaped, smooth, slightly darker in tone than perianth segments, mouth expanded and frilled, with rim crenate. Early.

Nomenclatural Standard: colour print supplied by registrant (WSY0136883)

'Ida Kathleen' 3 W-GWP

(Nial Watson, 2009) Ringhaddy Daffodils, 2021

'Park Springs' × 'Newcomer'; sdlg no. W763

Fl. 93mm wide; perianth segments 32mm long, roundish, very broad, slightly mucronate, white, spreading, plane, smooth and of heavy substance, overlapping one-third; the inner segments a little narrower; corona 10mm long, bowl-shaped, ribbed, white, with green at base and a broad band of strong yellowish pink 37A at rim, mouth expanded and frilled, with rim crenate. Mid-season. Sweetly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0136971)

Etymology: named for registrant's great niece

'Imogen Ella' 4 W-P

(Denise E.McQuarrie, 2008) Denise E.McQuarrie, 2021

Sdlg ('Sea Dream' × 'Irani') × Sdlg ('Romance' × 'Irani'); sdlg no. MCQ-H2B

Fl. rounded, 78mm wide; perianth segments 22mm long, in several whorls; outer whorls roundish, very broad, mucronate, spreading, plane, smooth and of heavy substance, overlapping half or more; the inner whorls inflexed, with margins incurved; corona segments folded inwards along midrib, smooth, frilled, with rim entire. Mid-season.

Etymology: In honour of the late Imogen Ella Scurr

'In Love' 1 W-W

(C.van der Veek) C.van der Veek, 2021

Parentage unknown

Fl. forming a double triangle, 118mm wide, facing upwards; perianth segments 44mm long, roundish, very broad, blunt, mucronate, spreading, plane, with

midrib showing, of heavy substance, overlapping half; the inner segments narrower, ovate, somewhat shouldered at base, scarcely mucronate; corona 46mm long, narrow funnel-shaped, smooth, mouth flared and broadly ribbed, with rim notched. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0136906)

'Inter Stellar' 11a W-YYP

(Nial Watson, 2012) Ringhaddy Daffodils, 2021

'Quick Step' × 'Cacatua'; sdlg no. W968

Fl. rounded, 63mm wide; perianth segments 24mm long, roundish, very broad, blunt, mucronate, white, spreading, plane, with midrib showing, of heavy substance, overlapping half or more; the inner segments narrower, more nearly ovate, scarcely mucronate; corona 12mm long, split more than half its length into six segments, each the same width as the perianth segments, bi-lobed, with lobes overlapping, greenish yellow 9D, with a broad band of light yellowish pink 36A at rim, wavy to lightly frilled. Late. Very sweetly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0136976)

'In the Pink' 7 W-P

(Nial Watson, 2006) Ringhaddy Daffodils, 2021

'Quick Step' × 'Everpink'; sdlg no. W432

Fls 1-3 per stem, 73mm wide; perianth segments 34mm long, very broadly ovate, truncate, mucronate, reflexed, concave, white, smooth and of heavy substance, overlapping half or more; the inner segments narrower, with margins wavy, more nearly plane; corona 16mm long, cup-shaped, ribbed, light pink 49C, mouth straight and wavy, with rim entire. Late. Nomenclatural Standard: colour print supplied by registrant (WSY0136973)

'Iolana' 5 Y-Y

(Mrs Anne Wright, 2015) Mrs Anne Wright, 2021

N. triandrus × 'Second Fiddle'; sdlg no. 2972-6-15

Fl. star-shaped, 44mm wide, facing downwards; perianth segments 19mm long, narrowly ovate, blunt, mucronate, vivid yellow 9A, reflexed, plane or with margins incurved, smooth and of heavy substance, overlapping at base only; corona 19mm long, cylindrical, ribbed, brilliant greenish yellow 6A, paler (4B) at rim, mouth straight, broadly ribbed and wavy, lightly frilled and shallowly lobed, with rim dentate. Dwarf. Early to mid-season. Faintly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0136981)

Etymology: of Hawaiian origin, meaning "to soar like a hawk"

'Itgotaway' 2 Y-O

(Brian S.Duncan) J.L.Akers, 2021

'Lennymore' × *N. assoanus*; sdlg no. BD12/54

Fl. forming a double triangle, 46mm wide; perianth segments 19mm long, broadly ovate, blunt, yellow, with slight, white mucro, spreading, plane, smooth

and of heavy substance, overlapping one-third; the inner segments narrower, with margins a little incurved; corona 13mm long, cup-shaped, smooth, orange, mouth a little expanded, wavy and broadly ribbed, with rim dentate to notched. Dwarf. Early. Nomenclatural Standard: colour print supplied by registrant (WSY0136999)
Etymology: hybridizer's 'reject' seedling, passed to registrant

'It's a Date' 2 W-O

(C.van der Veek) C.van der Veek, 2021
Parentage unknown; sdlg no. F705
Fl. 98mm wide; perianth segments 37mm long, roundish, very broad, blunt, prominently mucronate, white, spreading, plane or wavy, with midrib showing, of heavy substance, overlapping half or more; the inner segments narrower, scarcely mucronate; corona 27mm long, shallow bowl-shaped, smooth, mouth expanded and heavily frilled, with rim notched and irregularly lobed. Early.
Nomenclatural Standard: colour print supplied by registrant (WSY0136920)

'Jampor' 2 Y-YYO

(Jeremy P.E.Wilkes, 2011) Jeremy P.E.Wilkes, 2021
'Pacific Rim' × 'Goldhanger'; sdlg no. 3/05
Fl. forming a double triangle, 100mm wide; perianth segments 40mm long, broadly ovate, blunt, light greenish yellow 7D, with slight, pale mucro, slightly reflexed, plane or with margins incurved, with midrib showing, of heavy substance, overlapping half; the inner segments narrower, more nearly plane, shouldered at base, scarcely mucronate; corona 22mm long, cup-shaped, smooth, vivid yellow 14A, with a broad band of vivid orange 28B at rim, mouth broadly ribbed, a little expanded and wavy, with rim entire and somewhat shallowly lobed and flanged. Mid-season. Lightly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0136966)
Etymology: family nickname for registrant

'Jean Blanchard' 1 Y-Y

(Mrs Anne Wright, 2016) Mrs Anne Wright, 2021
'Candlepower' × 'Snook'; sdlg no. 3101-1-16
Fl. star-shaped, 41mm wide, facing upwards; perianth segments 17mm long, oblong, rounded at apex, brilliant greenish yellow 5A, with pale prominent mucro, spreading, plane, with margins slightly incurved at apex, with midrib showing, of heavy substance; the inner segments scarcely mucronate; corona 20mm long, cylindrical, slightly constricted at waist, smooth, vivid yellow 9A, mouth wavy and narrowly flared, with rim dentate. Dwarf. Early.
Nomenclatural Standard: colour print supplied by registrant (WSY0136986)
Etymology: named for hybridiser's late aunt

'Joules' 2 Y-YYO

(Brian S.Duncan, 2014) David Lowndes, 2021
'Red Reed' × 'Corby Candle'; sdlg no. 4496
Fl. forming a double triangle, 83mm wide; perianth segments 33mm long, broadly ovate, blunt, yellow, with pale mucro, spreading, plane, smooth and of heavy substance, overlapping half or more; the inner segments narrower; corona 31mm long, funnel-shaped, smooth, yellow, with orange rim, mouth straight, wavy and lightly frilled, with rim very narrowly flanged and notched. Mid-season.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0136876)
Etymology: named for Joe and Lou, registrant's son and son's fiancée, to be married in 2021

'Just for You' 1 Y-Y

(C.van der Veek) C.van der Veek, 2021
Parentage unknown; sdlg no. F76
Fl. forming a double triangle, 108mm wide, facing upwards; perianth segments 43mm long, very broadly ovate, blunt, yellow, with pale mucro, a little reflexed, shallowly concave, creased, with midrib showing, of heavy substance, overlapping half or more; the inner segments narrower, scarcely mucronate; corona 51mm long, narrowly funnel-shaped, smooth, yellow, mouth flared, broadly ribbed, wavy and lobed, with lobes somewhat overlapping, with rim notched. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0136903)

'Ka-Pow!' 11a Y-P

(Gerard Knehans Jr, 2004) Gerard Knehans Jr, 2021
'Pink Sparkler' × 'Manor of Roses'; sdlg no. KN203
Fl. 100mm wide; perianth segments 39mm long, broadly ovate, blunt, brilliant yellow 12B, with pale mucro, spreading, plane or with margins incurved, smooth and of heavy substance, overlapping half or more; the inner segments narrower; corona 35mm long, split to half its length into six segments, each bi-lobed and thickly frilled, light yellowish pink 36C. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170056)
Etymology: comic book term for a dramatic impact

'Kev's Gift' 1 WWY-Y

(David Adams, 2014) David Adams, 2021
'Flash Affair' × K Johnston 1W-R sdlg; sdlg no. 06/10A
Fl. forming a double triangle, 93mm wide; perianth segments 35mm long, ovate, blunt, creamy white, yellow at base, spreading, plane, with margins incurving, smooth and of heavy substance, overlapping half; corona 38mm long, cylindrical, smooth, yellow, mouth straight and frilled, with rim crenate. Early. Strongly scented

'Laser Beam' 2 Y-WWY

(Nial Watson, 2012) Ringhaddy Daffodils, 2021
 'Gold Ingot' × 'Trumpet Warrior'; sdlg no. W954
 Fl. forming a double triangle, 109mm wide; perianth segments 45mm long, broadly ovate, blunt, greenish yellow 5B, touched white at base, with pale, slight mucro, spreading, plane or with margins somewhat incurved, smooth and of membranaceous substance, overlapping half; the inner segments narrower, shouldered at base; corona 35mm long, narrow funnel-shaped, smooth, white, with a band of vivid yellow 9A at rim, mouth broadly ribbed, straight and wavy or lightly frilled, and lobed, with rim entire. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0136976)

'Leah Ellie' 1 Y-Y

(Brian S.Duncan) David Walker, 2021
 'Kingsleigh' × 'Gold Pipe'; sdlg no. 4512
 Fl. 102mm wide; perianth segments 40mm long; corona 42mm long.
 Etymology: named for the registrant's granddaughter

'Lemon Gumdrop' 3 W-WWY

(Graeme and Faith Miller, 2012) Graeme and Faith Miller, 2021
 Sdlg GM03-69 × 'Dunley Hall'; sdlg no. GM12-78
 Fl. rounded, 110mm wide; perianth segments 48mm long, roundish, very broad, truncate, mucronate, white (N999D), spreading, somewhat convex, with margins incurving towards corona, smooth and of membranaceous substance, overlapping half; the inner segments narrower, scarcely mucronate; corona 16mm long, bowl-shaped, ribbed, white, flushed yellow, with a band of greenish yellow 7D at rim, mouth straight, frilled and lobed, with rim crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0170017)

'Let's Dance' 11a W-YYO

(C.van der Veek) C.van der Veek, 2021
 Parentage unknown; sdlg no. 5
 Fl. 95mm wide; perianth segments 38mm long, roundish, very broad, truncate, scarcely mucronate, spreading, shallowly concave, creased and of membranaceous substance, overlapping half or more; the inner segments narrower, somewhat inflexed, margins wavy; corona 15mm long, split to half its length into six segments, each overlapping a perianth segment, forming an inner and an outer whorl of three, bi-lobed, with lobes overlapping, frilled, with rim minutely crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0136958)

'Let's Kiss' 11a W-P

(C.van der Veek) C.van der Veek, 2021
 Parentage unknown; sdlg no. 6
 Fl. 105mm wide; perianth segments 39mm long, roundish, truncate, slightly mucronate, spreading, shallowly concave, creased and of heavy substance, overlapping half; the inner segments narrower, somewhat inflexed, ovate, blunt; corona 15mm long, split to half its length into six segments, overlying the inner perianth segments only, smooth, wavy, irregularly lobed, with up to four, often narrow, strap-shaped lobes per segment, minutely crenate. Mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136959)

'Lima's Winter Color' 8 G-G

(Manuel Lima, 2010) Robert Spotts, 2021
 'Soleil d'Or' × *N. viridiflorus*
 Fls 3–5 per stem, forming a double triangle, 25mm wide; perianth segments 10mm long, oblong, blunt, spreading, plane, smooth and of heavy substance, overlapping a quarter; corona 5mm long, cup-shaped, smooth, mouth flared, ribbed and frilled. Dwarf. Very early. Strongly scented.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136965)

'Lismaeloskey' 3 Y-Y

(Brian S.Duncan, 2012) William McCone, 2021
 'Vendell' × 'Chortle'; sdlg no. 4503
 Fl. forming a double triangle, 105mm wide, lemon yellow; perianth segments 40mm long, roundish, very broad, blunt, spreading, plane, smooth and of membranaceous substance, overlapping half or more; the inner segments narrower; corona 10mm long, bowl-shaped, smooth, mouth straight and wavy, with rim minutely crenate. Mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136869)
 Etymology: named after Lismaeloskey Old Rectory Garden and in recognition of the volunteer group which developed and maintains the garden

'Love Me Tender' 7 YYW-P

(Brian S.Duncan, 2007) C.van der Veek, 2021
 'Regeneration' × 'Inner Glow'; sdlg no. 3216
 Fls 2 per stem, 70mm wide; perianth segments 37mm long, roundish, very broad, blunt, mucronate, yellow, touched white at base, spreading or a little reflexed, plane, with margins narrowly incurving, creased and of heavy substance, overlapping half; the inner segments narrower, shouldered at base, scarcely mucronate; corona 17mm long, cup-shaped, smooth, pink, slightly darker in tone at rim, mouth a little expanded, broadly ribbed and lightly frilled, with rim minutely crenate. Mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136893)

'Loyce's Choice' 3 W-YYO

(Robert Spotts, 2015) Robert Spotts, 2021

'Merlin' × ('Actaea' × *N. viridiflorus*)

Fl. forming a double triangle, 64mm wide; perianth segments 30mm long, broadly ovate to roundish, blunt, spreading, plane or with margins somewhat incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, more nearly ovate; corona 6mm long, cup-shaped, ribbed, mouth a little expanded, frilled and lobed, with lobes overlapping, with rim notched. Early. Slightly sweetly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0136967)

Etymology: Loyce McKenzie's preference for Division 3 intermediates

'Loyce's Memory' 9 WWG-GGR

(Robert Spotts, 2015) Robert Spotts, 2021

'Top of the Hill' × ('Actaea' × *N. viridiflorus*)

Fl. forming a double triangle, 65mm wide; perianth segments 31mm long, broadly ovate, rounded at apex, spreading, plane, margins wavy, with midrib showing, of heavy substance, overlapping half; the inner segments narrower, more nearly ovate; corona 5mm long, cup-shaped, ribbed, mouth straight and frilled, with rim crenate. Early. Slightly sweetly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0136968)

Etymology: Loyce McKenzie's love of small-cupped flowers

'Margaret's Jewel' 1 Y-Y

(Brian S.Duncan, 2011) Kathy Johnston, 2021

'Red Reed' × 'Disquiet'; sdlg no. 4054

Fl. 113mm wide; perianth segments 40mm long; corona 44mm long. Mid-season.

Etymology: named for registrant's aunt who passed away

'Mary and Grace' 7 W-W

(C.Higgins, 2014) C.Higgins, 2021

'Areley Kings' × *N. fernandesii* var *cordubensis*; sdlg no. 17-50

Fls 1-2 per stem, 65mm wide; perianth segments 27mm long, ovate, blunt, a little reflexed, plane or with margins narrowly incurving, smooth and of heavy substance, overlapping a quarter; the inner segments more nearly plane, somewhat shouldered at base; corona 4mm long, cup-shaped, smooth, mouth wavy and broadly ribbed, with rim entire. Mid-season to late.

Nomenclatural Standard: colour print supplied by registrant (WSY0170003)

Etymology: named for two of the hybridiser's sisters

'Masked Crusader' 3 W-Y

(J.L.Akers, 2019) J.L.Akers, 2021

Panna Cotta Group × 'Little Kibler'; sdlg no. 264

Fl. forming a double triangle, 36mm wide; perianth segments 14mm long, roundish, very broad, blunt or truncate, slightly mucronate, spreading, plane, smooth and of heavy substance, overlapping one-third; the inner segments narrower, more nearly ovate, scarcely

mucronate, with margins incurved; corona 4.5mm long, bowl-shaped, smooth, mouth expanded and wavy, with rim crenate. Dwarf. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0136997)

Etymology: commemorates registrant's day, post Covid lockdown, spent with Anne Wright who was wearing a mask whilst hybridising daffodils

'Meadowbank Sweetheart' 2 Y-O

(Brian S.Duncan, 2012) Robert S.Moore, 2021

'Lennymore' × 'Corby Candle'; sdlg no. 4121

Fl. forming a double triangle, 105mm wide; perianth segments 42mm long, broadly ovate, blunt, mucronate, deep yellow, spreading, plane, with midrib showing, of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 27mm long, narrow funnel-shaped, broadly ribbed, opening yellow, becoming orange at maturity, mouth straight and wavy, with rim crenate.

Nomenclatural Standard: colour print supplied by hybridiser (WSY0136878)

Etymology: where registrant's late wife lived when they first met

'Melody Maree' 1 W-Y

(David Adams, 2014) David Adams, 2021

'Ebony' × 'Biway'; sdlg no. 04/04J

Fl. forming a double triangle, 105mm wide; perianth segments 39mm long, ovate, blunt, white, spreading, concave, with margins incurving, smooth and of heavy substance, overlapping one-third; the inner segments shouldered at base; corona 45mm long, cylindrical, smooth, light yellow, mouth straight, ribbed and frilled, with rim rolled and entire. Mid-season.

Strongly scented

'Merry Me' 2 YYW-YYO

(C.van der Veek) C.van der Veek, 2021

Parentage unknown; sdlg no. F708

Fl. forming a double triangle, 105mm wide; perianth segments 43mm long, ovate, blunt, yellow, touched white at base, with pale, slight mucro, spreading, plane or with margins a little incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate, shouldered at base; corona 38mm long, funnel-shaped, smooth, yellow, touched pinkish-orange at rim, mouth straight and frilled, with rim notched. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0136922)

'Mevagh' 1 Y-Y

(Brian S.Duncan, 2011) Sean McClafferty, 2021

'Chobe River' × 'Gatecrasher'; sdlg no. 4105

Fl. 107mm wide, deep golden yellow; perianth segments 40mm long; corona 41mm long. Early to mid-season.

'Miami Whitewater' 2 W-YYO

(Mary Lou Gripshover) Mary Lou Gripshover, 2021
Sdlg ('Angel' × 'Fellowship') × 'Amadeus';
sdlg no. 2000-06-05

Fl. forming a double triangle, 80mm wide; perianth segments 35mm long, broadly ovate, blunt, spreading or somewhat reflexed, plane or with margins incurved, with midrib showing, of heavy substance, overlapping one-third; corona 13mm long, funnel-shaped, angled, mouth straight, ribbed and wavy to lightly frilled, with rim crenate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0170069)
Etymology: named after a park in Hamilton County area, Ohio

'Miner's Dream' 1 Y-Y

(David Adams, 2002) David Adams, 2021
Sdlg 90/09D ('Temple Gold' × 'Yellow Gift') × 'Misquote'; sdlg no. 97/08A

Fl. forming a double triangle, 101mm wide; perianth segments 41mm long, ovate, blunt, spreading, plane, with margins incurving, smooth and of heavy substance; the inner segments shouldered at base; corona 42mm long, funnel-shaped, smooth, mouth straight and even, with rim crenate. Early to mid-season. Faintly scented

'Misimau' 5 Y-Y

(Brian S.Duncan, 2011) Vladimir Hempel, 2021
'Hillstar' × *N. triandrus* subsp. *triandrus*; sdlg no. 4108
Fls 2–4 per stem, facing downwards, 77mm wide, deep lemon yellow; perianth segments 32mm long, narrowly ovate, acute, reflexed, concave, smooth and of heavy substance, overlapping at base only; corona 15mm long, cup-shaped, smooth, mouth expanded, with rim entire. Mid-season to late.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0136884)

'Miss Poppy' 1 W-W

(Mrs Anne Wright, 2014) Mrs Anne Wright, 2021
'Candlepower' × Keira hybrid KB/M/1/98;
sdlg no. 2953-2-14

Fl. star-shaped, 35mm wide, opening light greenish yellow 3D, becoming greenish white 157D at maturity; perianth segments 13mm long, oblong, blunt, prominently mucronate, spreading, plane, with midrib showing, of heavy substance, overlapping at base only; corona 15mm long, cylindrical, slightly constricted at waist, mouth flared and frilled, with rim dentate. Dwarf. Early. Faintly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0170028)
Etymology: named for hybridiser's granddaughter

'Misty' 6 W-Y

(Mrs Anne Wright, 2017) Mrs Anne Wright, 2021
'Snipe' × 'Candlepower'; sdlg no. 3762-1-17
Fl. star-shaped, 48mm wide, facing slightly downwards; perianth segments 20mm long, oblong, blunt, prominently mucronate, reflexed, plane or with margins incurved, smooth, separated; corona 20mm long, cylindrical, smooth, opening brilliant greenish yellow 2B, becoming pale greenish yellow 2D at maturity, mouth flared, lightly frilled and shallowly lobed, with rim crenate. Dwarf. Very early. Scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0170032)

'Mount Airy' 2 W-P

(Mary Lou Gripshover) Mary Lou Gripshover, 2021
'Soprano' × 'Music'; sdlg no. 95-15-3B
Fl. forming a double triangle, 81mm wide; perianth segments 35mm long, broadly ovate, blunt, prominently mucronate, spreading, plane, with margins incurving, smooth and of heavy substance, overlapping half; the inner segments narrower, less prominently mucronate, shouldered at base; corona 17mm long, cup-shaped, smooth, mouth straight and wavy, with rim entire and somewhat narrowly flanged. Late.
Nomenclatural Standard: colour print supplied by registrant (WSY0170071)
Etymology: named for Cincinnati's largest park/forest

'Mount Crusader' 1 W-W

(Denise E.McQuarrie, 2006) Denise E.McQuarrie, 2021
'Snowy Morn' × 'Silver Convention';
sdlg no. MCQ-OC431
Fl. forming a double triangle, 110mm wide; perianth segments 44mm long, ovate, rounded at apex, mucronate, spreading, plane, smooth and of heavy substance, overlapping half or more; the inner segments scarcely mucronate; corona 46mm long, cylindrical, smooth, mouth flared, wavy and lobed, with rim slightly crenate. Early to mid-season.
Etymology: named after a mountain peak in the Kahurangi National Park, near to where the registrant lived for almost 50 years

'Natchez Trace' 2 W-Y

(Mary Lou Gripshover) Mary Lou Gripshover, 2021
'Inverpolly' × 'Angel'; sdlg no. 83-20-4
Fl. forming a double triangle; perianth segments very broadly ovate, blunt, mucronate, spreading or slightly reflexed, plane or shallowly concave, with midrib showing, of heavy substance, overlapping half or more; corona cup-shaped, smooth, mouth broadly ribbed, wavy and a little expanded, with rim entire. Late.
Nomenclatural Standard: colour print supplied by registrant (WSY0170073)
Etymology: commemorates the historic trail between Natchez and Nashville used by Native Americans

'Neemmemee' 2 W-YYP

(C.van der Veek) C.van der Veek, 2021

Parentage unknown; sdlg no. F497

Fl. forming a double triangle, 88mm wide; perianth segments 35mm long, roundish, very broad, blunt, mucronate, white, spreading, plane or with margins a little incurved, smooth and of heavy substance, overlapping half; the inner segments ovate, scarcely mucronate, shouldered at base, with midrib showing; corona 31mm long, narrow funnel-shaped, smooth, yellow, with a narrow band of orange-pink at rim, mouth straight and lightly frilled, with rim crenate. Dwarf. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0136925)

'Norma June' 4 W-YYP

(David Adams, 1992) David Adams, 2021

'Precedent' × 'Tropic Isle'; sdlg no. 85/102A

Fl. forming a double triangle, 94mm wide; perianth segments 44mm long, acute at apex, white, shouldered at base, spreading, plane, with margins incurved, smooth and of heavy substance, overlapping half; corona segments heavily frilled, light pink, becoming stronger in tone towards margins, with yellow at base. Mid-season. Sweetly scented. Etymology: named for the late mother of a friend of the registrant

'Outstanding' 2 Y-Y

(Robert Spotts, 2015) Robert Spotts, 2021

Parentage unknown

Fl. 90mm wide; perianth segments 35mm long, roundish, very broad, blunt, mucronate, spreading, plane, with margins somewhat incurved, smooth and of heavy substance, overlapping half or more; the inner segments narrower, scarcely mucronate; corona 30mm long, cylindrical, smooth, mouth straight, even and somewhat shallowly lobed, with rim narrowly flanged. Early.

Nomenclatural Standard: colour print supplied by registrant (WSY1036969)

'Over the Top' 1 Y-Y

(C.van der Veek, 2008) C.van der Veek, 2021

Parentage unknown

Fl. forming a double triangle, 130mm wide; perianth segments 52mm long, broadly ovate, blunt, scarcely mucronate, spreading to very slightly reflexed, plane or with margins a little incurved, creased, of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 54mm long, funnel-shaped, smooth, mouth expanded, very heavily frilled and deeply lobed, with rim crenate. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0136887)

'Palila' 2 Y-W

(Mrs Anne Wright, 2016) Mrs Anne Wright, 2021

Sdlg (*N. rupicola* subsp. *marvieri* open pollinated); sdlg no. 3267-1-16

Fl. star-shaped, 27mm wide, facing slightly upwards;

perianth segments 12mm long, ovate to oblong, rounded at apex, mucronate, whitish yellow (157A), spreading, plane or with margins slightly incurved, smooth, overlapping a quarter; corona very broad and shallow, almost disc-shaped, greenish white (157D), with green eye, somewhat wavy, with rim crenate. Dwarf. Early.

Nomenclatural Standard: colour print supplied by registrant (WSY0170020)

Etymology: name of yellow and white Hawaiian bird

'Pallene' 10 W-W

(Mrs Anne Wright, 2018) Mrs Anne Wright, 2021

N. romieuxii × *N. cantabricus* subsp. *cantabricus* var. *petunioides*; sdlg no. 3956-1-18

Fl. 50mm wide, greenish white 155C, facing slightly upwards; perianth segments 15mm long, lanceolate, acute, slight, greenish mucro, a little reflexed, plane, smooth and of heavy substance, separated; corona 25mm long, very broad funnel-shaped, ribbed, mouth expanded and wavy, with rim rolled and crenate. Dwarf. Very early. Strongly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0170023)

Etymology: moon of Saturn

'Pandia' 10 W-W

(Mrs Anne Wright, 2018) Mrs Anne Wright, 2021

N. cantabricus subsp. *cantabricus* var. *petunioides* open pollinated; sdlg no. 3262-1-18

Fl. 38mm wide; perianth segments 10mm long, lanceolate, acute, greenish white 157B, with slight, greenish mucro, reflexed, concave, with midrib showing, separated; corona 25mm long, very broad funnel-shaped, greenish white 157C, touched green at base, mouth ribbed and wavy, with rim broadly flanged. Dwarf. Very early.

Nomenclatural Standard: colour print supplied by registrant (WSY0170036)

Etymology: moon of Jupiter

'Pastor Tim' 1 W-W

(Tim Klein, 2011) David Adams, 2021

'Heralding' × Campbell 11Y-P sdlg; sdlg no. 99/118B

Fl. rounded, 113mm wide; perianth segments 44mm long, very broad, blunt, spreading, concave, smooth and of heavy substance, overlapping half or more; corona 45mm long, funnel-shaped, ribbed, opening yellow, becoming white at maturity, mouth straight and wavy, with rim crenate. Tall. Mid-season

'Pavilion View' 3 W-YYO

(Brian S.Duncan, 2010) A.K.Shipp, 2021

'Nowra' × 'Doctor Hugh'; sdlg no. 4470

Fl. 120mm wide; perianth segments 50mm long, broadly ovate, blunt, white, touched yellow at base, spreading to a little reflexed, plane or with margins incurved from midrib, smooth and of membranaceous substance, overlapping half; the inner segments narrower; corona 14mm long, cup-shaped, smooth, yellow, with a broad band of orange at rim, mouth expanded and frilled, with rim somewhat narrowly

flanged and minutely crenate.
Nomenclatural Standard: colour print supplied by hybridiser (WSY0136904)
Etymology: social meeting place on bulb field

‘Petite Pearl’ 2 W-YYP

(A.W.Chappell, 1995) David Adams, 2021
‘Silent Wonder’ × ‘John’s Pink’
Fl. forming a double triangle, 74mm wide; perianth segments 30mm long, ovate, mucronate, whitish, spreading, plane, creased and of heavy substance, overlapping half; the inner segments shouldered at base; corona 18mm long, cup-shaped, ribbed, light yellow, blending to light pink at rim, mouth straight and frilled, with rim flanged and crenate. Mid-season

‘Piccolini’ 1 Y-Y

(C.van der Veek) C.van der Veek, 2021
Selection from *N. asturiensis*
Fl. star-shaped, 50mm wide, facing downwards; perianth segments 19mm long, lanceolate, blunt, yellow, with slight, pale mucro, inflexed, plane, smooth and of heavy substance, overlapping at base only; corona 20mm long, cylindrical, smooth, slightly constricted at waist, mouth flared, with rim irregularly notched. Dwarf. Very early. A vigorous and healthy selection from the species.
Nomenclatural Standard: colour print supplied by registrant (WSY0136900)

‘Pirongia Harmony’ 2 Y-Y

(Graeme and Faith Miller, 2009) Graeme and Faith Miller, 2021
‘Gold Bond’ × ‘Frontier Gold’; sdlg no. GM09-24
Fl. forming a double triangle, 120mm wide, vivid yellow 12A; perianth segments 47mm long, ovate, blunt, slight, pale mucro, spreading, concave, creased, with midrib showing, of membranaceous substance, overlapping half; the inner segments narrower, truncate, not mucronate; corona 40mm long, funnel-shaped, angled, mouth straight, ribbed and wavy, with rim flared and dentate. Early.
Nomenclatural Standard: colour print supplied by registrant (WSY0170074)

‘Pirongia Sunrise’ 2 Y-YOO

(Graeme and Faith Miller, 2007) Graeme and Faith Miller, 2021
‘Waiteitei’ × ‘Uncle Duncan’; sdlg no. GM07-018
Fl. forming a double triangle, 119mm wide; perianth segments 50mm long, broadly ovate, truncate, brilliant greenish yellow 6A, with slight, pale mucro, spreading, shallowly concave, creased and of heavy substance, overlapping half; the inner segments narrower; corona 39mm long, funnel-shaped, angled, light orange 23A, with brilliant greenish yellow 6A at base, mouth expanded, broadly ribbed, wavy to lightly frilled, with rim flanged and dentate. Tall. Early.
Nomenclatural Standard: colour print supplied by registrant (WSY0170078)

‘Polar Hunter’ 12 W-Y

(J.A.Hunter) VOF J.S.Pennings De Bilt, 2020
Parentage unknown; sdlg no. 67 99A
Fls up to 4 per stem, at right angles or facing downwards; perianth segments ovate, blunt, slightly mucronate, opening greenish yellow (154D), becoming greenish white (157D), plane or with margins incurved, somewhat creased, membranaceous, overlapping one-third; the inner segments narrower; corona cup-shaped, broadly ribbed, opening greenish yellow (151B), darker in tone (151A) at base and lighter in tone (151C) at rim, becoming greenish yellow (150D) at maturity, mouth straight and wavy, with rim entire. Early.
Nomenclatural Standard: colour print supplied by KAVB (WSY0136886)

‘Pracht’ 3 W-YYO

(C.van der Veek) C.van der Veek, 2021
Parentage unknown; sdlg no. F130
Fl. rounded, 94mm wide; perianth segments 35mm long, roundish, very broad, blunt or truncate, prominently mucronate, spreading, concave, smooth and of membranaceous substance, overlapping half or more; the inner segments narrower, shouldered at base, scarcely mucronate; corona 11mm long, bowl-shaped, smooth, yellow, blending into a narrow band of orange at rim, mouth widely expanded, ribbed, wavy to lightly frilled, lobed, with lobes overlapping. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0136936)

‘Pupina’ 2 W-Y

(Mrs Anne Wright, 2015) Mrs Anne Wright, 2021
N. rupicola × ‘Candlepower’; sdlg no. 2991-3-15
Fl. star-shaped, 25mm wide; perianth segments 11mm long, roundish, very broad, prominently mucronate, greenish white 157D, spreading, plane or with margins a little incurved, smooth and of heavy substance, overlapping a quarter; corona 10mm long, cylindrical or narrowly funnel-shaped, smooth, pale greenish yellow 1D, mouth flared, wavy and lobed, with rim dentate. Dwarf. Early. Scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0170040)

‘Puthills’ 1 Y-Y

(Dean R.Croucher, 2006) Dean R.Croucher
Selection from *Narcissus pseudonarcissus*
Fl. star-shaped, 80mm wide, facing downwards; perianth segments 30mm long, ovate, acute, pale yellow, a little darker in tone along midrib, spreading or somewhat inflexed, plane, overlapping at base only; the inner segments narrower; corona 55mm long, narrow funnel-shaped, strong yellow, darker in tone towards rim, mouth expanded, even and frilled, with rim flanged, notched and crenate. Very early to early.
Nomenclatural Standard: colour print supplied by registrant (WSY0136894)
Etymology: named after the woodland in which it was discovered

'Raymond Redmore' 1 Y-Y

(Brian S.Duncan, 2012) Cheryl Dymond, 2021
 'Kingsleigh' × 'Gold Pipe'; sdlg no. 4056
 Fl. forming a double triangle, 103mm wide, deep golden yellow; perianth segments 40mm long, broadly ovate, blunt, slightly mucronate, spreading, plane, smooth and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base, scarcely mucronate; corona 43mm long, cylindrical, smooth, mouth a little wavy, with rim somewhat notched. Mid-season.
 Nomenclatural Standard: colour print supplied by hybridiser (WSY0136871)
 Etymology: named for registrant's late father

'Ray Saylor' 2 W-P

(Mary Lou Gripshover, 2005) Mary Lou Gripshover, 2021
 Sdlg ('Angel' × 'Fellowship') × 'Amadeus'; sdlg no. 00-06-01
 Fl. forming a double triangle; perianth segments broadly ovate, blunt, white, spreading, plane or with margins incurved, with midrib showing, of heavy substance, overlapping half; the inner segments narrower, shouldered at base, margins somewhat wavy; corona cup-shaped, smooth, pink, paler in tone towards base, mouth ribbed, expanded, wavy and lobed, with rim crenate. Mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0170075)
 Etymology: named for registrant's neighbour who helps in her garden

'Rebel Rebel' 6 Y-Y

(C.van der Veek) C.van der Veek, 2021
 Parentage unknown; sdlg no. F8
 Fl. 90mm wide; perianth segments 36mm long, broadly ovate, blunt, yellow, with prominent white mucro, reflexed, plane, smooth and of heavy substance, overlapping half; the inner segments narrower; corona 35mm long, cylindrical, smooth, yellow, mouth straight, frilled and lobed, with lobes overlapping, with rim somewhat flanged. Dwarf. Early.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136953)

'Roger Love' 7 W-WWP

(C.van der Veek, 2011) Inge Nieuweboer, 2021
 Parentage unknown; sdlg no. F745
 Fls 2 per stem, 65mm wide; perianth segments 27mm long, broadly ovate or roundish, blunt, mucronate, white, spreading, plane or with margins incurving, smooth and of heavy substance, overlapping half; the inner segments narrower; corona 15mm long, cup-shaped, broadly ribbed, white, with a broad band of pink at rim, becoming paler at maturity, mouth straight and wavy, with rim entire. Late.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136892)

'Saint Brelade's Bay' 2 Y-Y/O

(Jeremy P.E.Wilkes, 2010) Jeremy P.E.Wilkes, 2021
 'Pacific Rim' × 'Banker'; sdlg no. 2/06
 Fl. forming a double triangle, 110mm wide; perianth segments 46mm long, broadly ovate, truncate, brilliant greenish yellow 6A, scarcely mucronate, spreading, shallowly concave, with midrib showing, smooth and of heavy substance, overlapping half; the inner segments narrower, blunt, shouldered at base, with margins narrowly incurving; corona 22mm long, cup-shaped, angled, brilliant yellow 13B, blending to strong orange 24A at rim, mouth straight, wavy and broadly ribbed, with rim dentate. Mid-season. Lightly scented.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136963)
 Etymology: a beauty spot in Jersey, Channel Islands

'Sea Cloud' 2 W-W

(Denise E.McQuarrie, 2014) Denise E.McQuarrie, 2021
 'Jenny's Joy' × 'Sheelagh Rowan'; sdlg no. MCQ-14-05
 Fl. rounded, 115mm wide; perianth segments 48mm long, very broad, rounded at apex, prominently mucronate, spreading, plane, very smooth and of heavy substance, overlapping half or more; corona 40mm long, funnel-shaped, smooth, mouth flared and wavy, with rim notched. Mid-season to late.
 Etymology: named after a beautiful sailing ship built in 1931

'Seize the Day' 1 YYW-WWY

(C.van der Veek) C.van der Veek, 2021
 Parentage unknown; sdlg no. F96
 Fl. forming a double triangle, 120mm wide; perianth segments 49mm long, broadly ovate, blunt, yellow, a little darker in tone towards margins, slight, white mucro, and touched white at base, spreading, plane, creased and of heavy substance, overlapping half; the inner segments narrower, shouldered at base, scarcely mucronate; corona 51mm long, cylindrical, smooth, white, with band of yellow at rim, mouth straight, wavy to lightly frilled, with rim notched and very broadly flanged. Mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136911)

'Shaw's Journey' 9 W-GYR

Cindy Haeffner, 2021
 Parentage unknown
 Collected from Shaw's Nature Reserve, USA
 Fl. rounded, 42mm wide; perianth segments 17mm long, roundish, truncate or blunt, mucronate, bright white, spreading or a little reflexed, plane or with margins incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 2mm long, disc-shaped, ribbed, yellow, with green eye and very narrow band of crimson at rim, mouth expanded, even and shallowly lobed, with rim minutely crenate. Late. Sweetly scented.
 Nomenclatural Standard: colour print supplied by registrant (WSY0170058)

'Silver Bouquet' 5 Y-W

(K.van der Veek) Gebr. T. en E.Ammerlaan B.V., 2021
Parentage unknown

Fls 3 per stem, facing downwards; perianth segments roundish, very broad, truncate, slightly mucronate, pale greenish yellow 2D, paler towards midrib, at base and at apex, spreading, plane or with margins incurved, creased and of membranaceous substance, overlapping half; the inner segments narrower, ovate in outline, blunt at apex; corona cup-shaped, ribbed, greenish white (157B), mouth expanded and wavy, with rim entire and narrowly flanged. Strongly and sweetly scented. Mid-season.

Nomenclatural Standard: colour print supplied by KAVB (WSY0136880)

'Silver Satellite' 10 W-W

(John Gibson, 2016) John Gibson, 2021

Selection from *N. cantabricus* subsp. *cantabricus* var. *petunioides*

Fl. rounded, 34mm wide; perianth segments 9mm long, lanceolate, acute, mucronate, spreading, plane, of heavy substance, separated; corona 13mm long, disc-shaped, angled, mouth ribbed, with rim crenate and very broadly flanged. Dwarf. Very early.

Nomenclatural Standard: colour print supplied by registrant (WSY0170063)

'Silvery Light' 2 W-W

(Denise E.McQuarrie, 2007) Denise E.McQuarrie, 2021

'Quiet Waters' × 'Florence Joy'; sdlg no. MCQ-K23

Fl. forming a double triangle, 112mm wide; perianth segments 46mm long, broadly ovate, rounded, mucronate, spreading, plane, very smooth and of heavy substance, overlapping half or more; corona 42mm long, funnel-shaped, smooth, mouth flared and even, with rim rolled and crenate. Mid-season.

Etiymology: name taken from the lyrics of a New Zealand song called 'Sailing Along on a Moonbeam', which has a family connection

'Skink' 6 Y-Y

(David Adams, 2014) David Adams, 2021

'Snipe' × *N. cyclamineus*

Fl. star-shaped, 43mm long; perianth segments 18mm long, lanceolate, blunt, reflexed, twisted, smooth and of heavy substance, separated; corona 20mm long, cylindrical, smooth, mouth straight, ribbed and frilled, with rim crenate. Dwarf. Early

'Splendid Isolation' 4 Y-Y

(Fa. H.W.van Saase & Son) Fa. P.C.van Saase & Son, 2021
Parentage unknown

Fl. forming a double triangle, facing upwards; perianth segments very broadly ovate, rounded, mucronate, brilliant greenish yellow 6A, spreading, plane or with margins incurved at apex, notched, creased and of membranaceous substance, overlapping one-third; the inner segments narrower; corona vivid yellow 9A, smooth, frilled and flanged. Early
EU PBR applies (*ICNCP*, 2016: Art. 11)

'Spring Ahead' 3 YYG-OOY

(Robert Spotts, 2017) Robert Spotts, 2021

'Loch Lundie' × ('Actaea' × *N. viridiflorus*); sdlg no. 17-1

Fl. 84mm wide; perianth segments 40mm long, ovate, blunt, slight, white mucro, reflexed, plane, with margins incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate; corona 9mm long, cup-shaped, smooth, mouth straight, ribbed and lightly frilled, with rim notched. Very early.

Nomenclatural Standard: colour print supplied by registrant (WSY9136970)

'Star Attraction' 3 Y-YOO

(Nial Watson, 2012) Ringhaddy Daffodils, 2021

'Jake' × 'Armidale'; sdlg no. W961

Fl. forming a double triangle, 110mm wide; perianth segments 40mm long, ovate, blunt, greenish yellow 3A, with scarce, pale mucro, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower; corona 12mm, bowl-shaped, ribbed, brilliant yellow 13B, with a broad band of vivid orange 28B at rim, mouth straight and even, with rim minutely crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0136974)

'Strike a Pose' 2 W-Y

(C.van der Veek) C.van der Veek, 2021

Parentage unknown; sdlg no. F16

Fl. 144mm wide; perianth segments 56mm long, broadly ovate, blunt, mucronate, spreading, plane or with margins incurving, with midrib showing, of heavy substance, overlapping half; the inner segments narrower, margins somewhat wavy; corona 48mm long, shallow and broad funnel-shaped, angled, mouth expanded and wavy, with rim broadly flanged, somewhat rolled and crenate. Tall. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0136927)

'Strong' 1 Y-Y

(David Adams, 1993) David Adams, 2021

'Demand' × Bell 1Y-Y sdlg; sdlg no. 87/07A

Fl. forming a double triangle, 103mm wide; perianth segments 41mm long, ovate, blunt, mucronate, spreading, plane, creased and of heavy substance, overlapping one-third; the inner segments narrower; corona 43mm long, funnel-shaped, smooth, mouth flared and frilled, with rim rolled and create. Very early

'Sun Catchers' 4 Y-O

(K.van der Veek) J. G. Weijers & Son, 2021

Parentage unknown

Fl. rounded, 110mm wide, facing slightly upwards; perianth and other petaloid segments in several whorls, greenish yellow 3C; the outer whorls 55mm long, oblong, rounded at apex, sometimes mucronate, reflexed, concave, with margins a little wavy, smooth and of membranaceous substance, overlapping half; the inner whorls successively shorter and more strongly

inflexed towards centre, concave or with margins incurved from midrib; corona segments 30mm long, interspersed among the perianth segments, strong orange N25B, wavy to lightly frilled, lobed, with margins crenate. Mid-season. Sweetly scented. Nomenclatural Standard: colour print supplied by KAVB (WSY0170091)

‘Swamp Juice’ 2 Y-Y

(C.Higgins, 2015) C.Higgins, 2021
‘Daydream’ × ‘Goldhanger’; sdlg no. 15-50
Fl. 110mm wide, facing upwards; perianth segments 45mm long, broadly ovate, blunt, yellow, with pale mucro, spreading, plane or with margins a little incurved, creased and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 44mm long, funnel-shaped, smooth, yellow, mouth straight, wavy to lightly frilled, with rim notched and narrowly flanged. Early to mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0170004)
Etymology: Dare County, North Carolina, has a tradition of making rye whiskey (moonshine) called “swamp juice”

‘Swampscott’ 2 Y-Y

(C.Higgins, 2015) C.Higgins, 2021
‘River Queen’ × ‘Gold Convention’; sdlg no. 14-262
Fl. forming a double triangle, 83mm wide, facing upwards; perianth segments 35mm long, ovate, blunt, yellow, with white mucro, spreading, plane or with margins somewhat incurved, smooth and of membranaceous substance, overlapping half; the inner segments narrower, with midrib showing; corona narrow funnel-shaped, smooth, yellow, mouth straight, even and lightly frilled, with rim notched and crenate. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0170005)
Etymology: named after a little town northeast of Boston where hybridiser lived for many years

‘Swiftlet’ 6 Y-Y

(Mrs Anne Wright, 2014) Mrs Anne Wright, 2021
N. cyclamineus × ‘Gipsy Queen’; sdlg no. 2813-2-14
Fl. 35mm wide, light yellow 4D, stronger in tone at base of corona; perianth segments 15mm long, oblong, blunt, mucronate, reflexed, plane or with margins incurved, smooth and of heavy substance, overlapping at base only; corona 17mm long, cylindrical, slightly ribbed, mouth flared and lightly frilled, with rim dentate. Dwarf. Early. Nomenclatural Standard: colour print supplied by registrant (WSY0170044)

‘Take Me Home’ 4 Y-Y

(C.van der Veek) C.van der Veek, 2021
Parentage unknown; sdlg no. F6
Fl. 98mm wide, facing upwards; perianth and other petaloid segments in three whorls; the two outer whorls 40mm long, ovate, blunt, yellow, with slight,

pale mucro, spreading, plane or with margins a little incurved, smooth and of heavy substance, overlapping half; the inner whorl shorter and more strongly inflexed towards centre, concave; corona segments 29mm long, clustered at centre, yellow, lightly frilled, becoming more crumpled at centre. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0136938)

‘TG Lava’ 4 Y-O

(C.van der Veek, 2010) C.van der Veek, 2021
Parentage unknown; sdlg no. F131
Fl. 104mm wide; perianth and other petaloid segments in several whorls, 50mm long, broadly ovate, blunt, yellow, with pale mucro, smooth or with midrib showing, of heavy substance, overlapping half or more; the outer whorls spreading, plane or with margins incurved, the inner whorls inflexed, concave or folded inwards along midrib; corona segments 30mm long, orange, interspersed among the inner perianth segments, wavy or lightly frilled, entire. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0136890)
Etymology: named for the Dutch cabaret act, featuring three girls from the City of Haarlem

‘Thinking of You’ 2 W-Y

(C.van der Veek) C.van der Veek, 2021
Parentage unknown; sdlg no. F66
Fl. forming a double triangle, 100mm wide; perianth segments 38mm long, ovate, blunt, slightly mucronate, spreading, wavy and somewhat notched, with midrib showing, creased and of heavy substance, overlapping half; corona 35mm long, funnel-shaped, smooth, mouth ribbed and frilled, with rim crenate or notched. Dwarf. Early. Nomenclatural Standard: colour print supplied by registrant (WSY0136929)

‘Toddler’ 1 W-W

(Mrs Anne Wright, 2013) Mrs Anne Wright, 2021
‘Bowles Early Sulphur’ × ‘Candlepower’; sdlg no. 2991-2-15
Fl. star-shaped, 40mm wide; perianth segments 16mm long, ovate, blunt, slightly mucronate, greenish white 155C, spreading, plane, creased and of heavy substance, overlapping a quarter; the inner segments narrower; corona 18mm long, cylindrical, angled, opening light greenish yellow 5D, becoming greenish white 155C at maturity, mouth flared and frilled, with rim dentate. Dwarf. Very early. Faintly scented. Nomenclatural Standard: colour print supplied by registrant (WSY0170047)

‘Veni Brading’ 2 W-P

(Brian S.Duncan, 2013) Richard Moriarty, 2020
‘Pink Haze’ × ‘Toretta’; sdlg no. 4471
Fl. 98mm wide; perianth segments 35mm long, roundish, very broad, truncate, very slightly mucronate, white, spreading, shallowly concave, creased, with midrib showing, of heavy substance,

overlapping half; the inner segments narrower, scarcely mucronate, somewhat shouldered at base; corona 27mm long, narrow funnel-shaped, smooth, deep pink, mouth straight, lightly frilled, with rim crenate. Mid-season.

Nomenclatural Standard: colour print supplied by hybridiser (WSY0136865)

Etymology: named for registrant's friend, Venitia Brading

'Vica the Kitten' 6 Y-Y

(Brian S.Duncan, 2019) Vladimir Hempel, 2021
N. cyclamineus × *N. rupicola*; sdlg no. 14/130/1
Fl. facing downwards; perianth segments lanceolate, acute at apex, mucronate, reflexed, plane, smooth and of heavy substance; corona funnel-shaped, smooth, mouth straight and even, with rim broadly flanged, dentate or notched. Early to mid-season. Dwarf.
Nomenclatural Standard: colour print supplied by registrant (WSY0136868)
Etymology: named for registrant's husband and first child, Victoria

'Wherever You Go' 2 W-Y

(C.van der Veek) C.van der Veek, 2021
Parentage unknown; sdlg no. F33
Fl. forming a double triangle, 132mm wide; perianth segments 55mm long, broadly ovate, blunt, mucronate, opening white, touched yellow at base, maturing to white, spreading, plane or with margins incurving, creased, with midrib showing, of membranaceous substance, overlapping half; the inner segments narrower; corona 50mm long, funnel-shaped, smooth, opening intense orange-yellow, maturing to yellow, mouth flared, frilled and lobed, with lobes overlapping, rim minutely crenate. Tall. Early.
Nomenclatural Standard: colour print supplied by registrant (WSY0136908)

'Whitford Farewell' 9 W-GYR

(M.Hamilton, 2003) Graeme and Faith Miller, 2021
Parentage unknown; sdlg no. JMH186-03
Fl. rounded, 58mm wide; perianth segments 22mm long, roundish, very broad, truncate, prominently mucronate, white (99D), spreading, plane or with margins incurved, with midrib showing, of heavy substance, overlapping half or more; the inner segments narrower, scarcely mucronate; corona 3mm long, disc-shaped, brilliant greenish yellow 6A, with a narrow band of red (41A) at rim, mouth flared, ribbed and wavy with rim dentate. Late.
Nomenclatural Standard: colour print supplied by registrant (WSY0170080)
Etymology: name suggested by Max Hamilton's widow, Kath

'Windeler' 2 W-WWY

(C.Higgins) C.Higgins, 2021
'Geometrics' × 'Conestoga'
Fl. 93mm wide; perianth segments 35mm long, broadly ovate to obovate, blunt, mucronate,

spreading, plane or with margins incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 34mm long, funnel-shaped, smooth, mouth flared, wavy and lobed, with rim crenate and notched.

Nomenclatural Standard: colour print supplied by registrant (WSY0170009)

Etymology: named after a back road registrant takes to the post office and bank to avoid a 'white-knuckle' expressway ride!

'Xavier' 2 Y-YYO

(C.Higgins, 2014) C.Higgins, 2021
'Pacific Rim' open pollinated; sdlg no. 17-40
Fl. forming a double triangle, 90mm wide; perianth segments 35mm long, ovate, blunt, yellow, with slight, pale mucro, spreading, plane, smooth and of membranaceous substance, overlapping half; the inner segments narrower, somewhat shouldered at base, with midrib showing; corona 33mm long, narrow funnel shaped, angled, mouth straight, broadly ribbed, wavy to lightly frilled, with rim crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0170007)

Etymology: named after the old Spanish mission south of Tuscon, AZ, called San Xavier del Bac

'Yellow Parrot' 11a Y-Y

(C.van der Veek) World Flower B.V., 2021
Parentage unknown
Fls 3 per stem, rounded, 50mm wide; perianth segments 15mm long, ovate, rounded at apex, mucronate, vivid yellow 9A, slightly reflexed, concave, with margins incurving, smooth and of membranaceous substance, overlapping half; the inner segments narrower; corona 7mm long, split almost to base into six segments, closely overlying and as wide as the inner perianth segments, sometimes bilobed, yellow 14A. Dwarf. Mid-season.
Nomenclatural Standard: colour print supplied by KAVB (WSY0170089)

'You're Beautiful' 4 W-P

(C.van der Veek) C.van der Veek, 2021
Parentage unknown; sdlg no. F724
Fl. 104mm wide; perianth and other petaloid segments in three or more whorls, white; the outer whorl 40mm long, roundish, very broad, blunt, prominently mucronate, spreading, plane or with margins a little incurved, smooth, overlapping half or more; the inner segments narrower, scarcely mucronate; the inner whorls narrower, successively shorter and more strongly inflexed towards centre, concave or folded inwards along midrib; corona segments 28mm long, interspersed among the inner perianth whorls and clustered tightly at centre, apricot pink, frilled and notched. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0136940)

ADDITIONS AND AMENDMENTS TO THE INTERNATIONAL DAFFODIL REGISTER (2008) AND SUPPLEMENTS

The compilers are grateful to those who have drawn attention to omissions from the International Daffodil Register and its Supplements, pointed out errors, suggested changes or supplied new information.

Amendments to cultivar names, divisions, colour codes, parentages, originators and registrants will usually be published in an annual Supplement. Amendments to descriptions will usually only be published in a new edition of the Register. However, all amendments (including those listed below †) will be published on the internet, in a regular updating of the Register posted at:

www.rhs.org.uk/plants/plantsmanship/plant-registration/Daffodil-cultivar-registration

ADDITIONS TO THE REGISTER

The following were sourced from WFM Copeland photo albums, c. 1900, courtesy of the Copeland family

'Delegate' 2

Fl. forming a double triangle; perianth segments broadly ovate, blunt, scarcely mucronate, spreading to somewhat inflexed, plane or with margins a little incurved, overlapping one-third to half; the inner segments with margins wavy or incurved from midrib; corona funnel-shaped, angled, mouth expanded, broadly ribbed, wavy, with rim crenate

'Edge' 6

N. cyclamineus hybrid

Fl. star-shaped; perianth segments narrowly ovate, acute, reflexed, plane, overlapping at base only; corona cylindrical, smooth, mouth flared and wavy, with rim crenate

'Mohegau' 3

(pre-1903)

Syn. Mohegan

Fl. star-shaped, perianth segments ovate, blunt, spreading, plane, with margins incurved, overlapping one-third; corona bowl-shaped, ribbed, mouth expanded, with rim crenate

'Mohegan'

Syn. of 'Mohegau'

AMENDMENTS TO THE REGISTER (2008)

'Diana Kasner'

Amend colour code to: W-YYR

'Marieke'

Add: Wister Award 2021

'Royal'

Alter first flowering date to: pre-1903

'Southern Hospitality'

Add: Pannill Award 2021

† *With reference to WFM Copeland photo albums, c. 1900, courtesy of the Copeland family, descriptions have been amended for the following:*

'Ada' 5 W-W

(G.H. Engleheart, pre-1902)

'Betty Berkeley' 5 W-W

(G.H. Engleheart, pre-1902)

'Castile' 3 Y-O (a)

(G.H. Engleheart, pre-1903)

'Cecil Rhodes' 5 Y-Y

(G.H. Engleheart, pre-1902)

'Charles Wolley-Dod' 2 Y-Y (a)

(Miss E. Willmott, pre-1900)

'Corydon' 5

(Miss E. Willmott, pre-1901)

'Cygnet' 1 W-Y (b)

(G.P. Haydon, pre-1902)

'Earl Grey' 5 Y-Y

(G.H. Engleheart, pre-1901)

'Ellen Willmott' 1 W-Y (b)

(G.H. Engleheart, pre-1897)

'Firelight' 2 Y-YYO (a)

(Mrs R.O. Backhouse, pre-1903)

'Glory of Noordwijk' 1 W-Y (b)

(J. de Groot & Sons, pre-1902)

'Gold Eye' 3 W-YYO (b)

(G.H. Engleheart, pre-1904)

'Lemon Queen' 2 Y-Y (a)

(G.H. Engleheart, pre-1902)

'Lilian' 2 W-Y (b or c)

(G.H. Engleheart, pre-1902)

'Master-at-Arms' 2 W-Y (b)

(G.H. Engleheart, pre-1901)

'Moonray' 5

(Miss E. Willmott, pre-1902)

'Osiris' 1 W-Y

(Barr & Sons, pre-1903)

'Rearguard' 2 W-Y (b)

(G.H. Engleheart, pre-1901)

'Robert Berkeley' 5 W-W

(G.H. Engleheart, pre-1901)

'Rosalind' 3 W-YYO (b)

(G.H. Engleheart, pre-1901)

'Seabird' 3 W-Y

(G.H. Engleheart, pre-1901)

'Stonechat' 3 Y-R (a)

(G.H. Engleheart, pre-1903)

'Symmetry' 3 W-YYO (b)

(G.H. Engleheart, pre-1903)

'Viscountess Falmouth' 5 W-W

(G.H. Engleheart, pre-1903)

'Warley Magna' 1 W-W (c)

(G.H. Engleheart, pre-1902)

AMENDMENTS TO THE *13TH SUPPLEMENT*

'Arctic Diamond' Add seedling number: G17-09

'Casanova' Amend raiser to: C.A.J. van der Wereld

'Good Point' Add: syn. of 'Ceann Mór'

'Hawera Tetra' Amend year of registration to: 2020

'Newbie' Amend seedling number to: G17-12

'Split Gem' Amend seed parent to: 'Miss Primm'

AMENDMENTS TO THE *2ND SUPPLEMENT*

'Cameo Glen' Amend colour code to: W-GYR

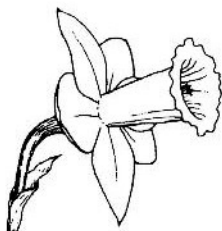

HORTICULTURAL CLASSIFICATION

Whether of wild or cultivated origin, once a selection has been distinguished by a cultivar name it should be assigned to Divisions 1–12. Daffodils distinguished solely by botanical name should be assigned to Division 13.

Notes

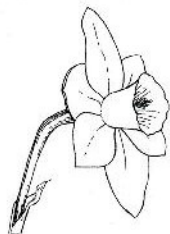

1. The characteristics for Divisions 5 to 10 are given for guidance only; they are not all necessarily expected to be present in every cultivar assigned to those divisions
2. Divisions 12 and 13 are not illustrated owing to the wide variation in shape and size between the flowers involved

DIVISION 1 - TRUMPET DAFFODIL CULTIVARS

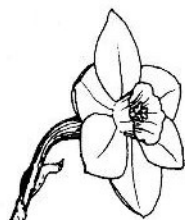

One flower to a stem; corona ("trumpet") as long as, or longer than the perianth segments ("petals")

DIVISION 2 - LARGE-CUPPED DAFFODIL CULTIVARS

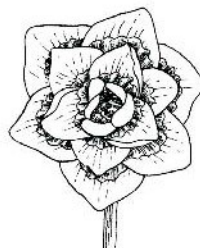

One flower to a stem; corona ("cup") more than one-third, but less than equal to the length of the perianth segments ("petals")

DIVISION 3 - SMALL-CUPPED DAFFODIL CULTIVARS

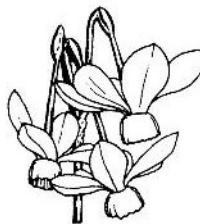

One flower to a stem; corona ("cup") not more than one-third the length of the perianth segments ("petals")

DIVISION 4 - DOUBLE DAFFODIL CULTIVARS

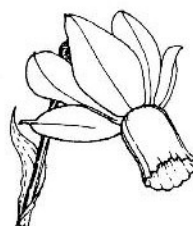

One or more flowers to a stem, with doubling of the perianth segments or the corona or both

DIVISION 5 - TRIANDRUS DAFFODIL CULTIVARS

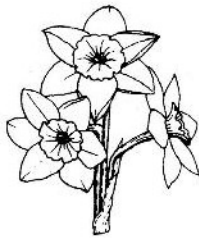

Characteristics of *N. triandrus* clearly evident: usually two or more pendent flowers to a stem; perianth segments reflexed

DIVISION 6 - CYCLAMINEUS DAFFODIL CULTIVARS

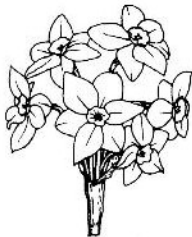

Characteristics of *N. cyclamineus* clearly evident: one flower to a stem; perianth segments significantly reflexed; flower at an acute angle to the stem, with a very short pedicel ("neck")

DIVISION 7 - JONQUILLA AND APODANTHUS DAFFODIL CULTIVARS

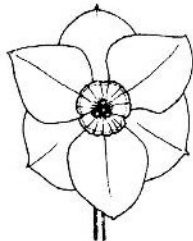

Characteristics of Sections Jonquilla or Apodanthi clearly evident: one to five (rarely eight) flowers to a stem; perianth segments spreading or reflexed; corona cup-shaped, funnel-shaped or flared, usually wider than long; flowers usually fragrant

DIVISION 8 - TAZETTA DAFFODIL CULTIVARS

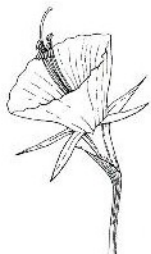

Characteristics of Section Tazettae clearly evident: usually three to twenty flowers to a stout stem; perianth segments spreading not reflexed; flowers usually fragrant

DIVISION 9 - POETICUS DAFFODIL CULTIVARS

Characteristics of *N. poeticus* and related species clearly evident; perianth segments pure white; corona very short or disc-shaped, not more than one-fifth the length of the perianth segments; corona usually with a green and/or yellow centre and red rim, but sometimes wholly or partly of other colours; anthers usually set at two distinct levels; flowers fragrant

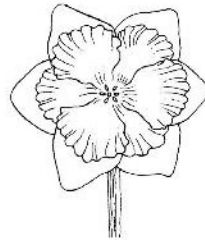

DIVISION 10 - BULBODIDIUM DAFFODIL CULTIVARS

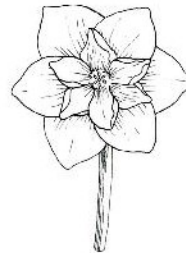

Characteristics of Section Bulbocodium clearly evident: usually one flower to a stem; perianth segments insignificant compared with the dominant corona; anthers dorsifixed (ie attached more or less centrally to the filament); filament and style usually curved

DIVISION 11 - SPLIT-CORONA DAFFODIL CULTIVARS

Corona split - usually for more than half its length

a) Collar Daffodils
Split-corona daffodils with the corona segments opposite the perianth segments; the corona segments usually in two whorls of three

b) Papillon Daffodils
Split-corona daffodils with the corona segments alternate to the perianth segments; the corona segments usually in a single whorl of six

DIVISION 12 - OTHER DAFFODIL CULTIVARS

Daffodil cultivars which do not fit the definition of any other division

DIVISION 13 - DAFFODILS DISTINGUISHED SOLELY BY BOTANICAL NAME

SOME ILLUSTRATIONS OF DESCRIPTIVE TERMS
