

The International Daffodil Register & Classified List (2008)

Thirteenth Supplement

THIRTEENTH SUPPLEMENT
to the
INTERNATIONAL DAFFODIL REGISTER AND CLASSIFIED LIST (2008)
2019–2020

The daffodil names listed here are supplementary to the *International Daffodil Register* (2008) and were registered between **1 July 2019 and 30 November 2020**.
Registrations are followed by a list of some other recent additions and amendments to the Register.

REGISTRATION

Hybridizers, raisers and other introducers of daffodils are urged to ensure that the names of new plants are registered and are reminded that registration should preferably take place **before** plants are released or catalogued. Registration is conducted by The Royal Horticultural Society, International Cultivar Registration Authority for the genus *Narcissus*. Application forms are available from:

- The International Daffodil Registrar: Melanie Underwood
RHS Wisley, Woking, Surrey GU23 6QB, UK
Fax (44) 01483 211750
Email daffodil@rhs.org.uk
- The National Daffodil Registrar (the Netherlands): Drs J. van Scheepen
KAVB, Postbus 175, 2180 AD Hillegom, the Netherlands
Fax (31) 2525 369 51
Email vanscheepen@kavb.NL
- The National Daffodil Registrar (USA): Mrs Mary Lou Gripshover
Email mgripshover@cinci.rr.com
- The National Daffodil Registrar (New Zealand): Mr Wilfred Hall
Email wilshe@xtra.co.nz
- The National Daffodil Registrar (Australia): Mr Graeme Davis
Email graemecdavis@hotmail.com

Once registered, names and classifications may be changed only with the agreement of the International Cultivar Registration Authority, upon application to the International Registrar.

NOTES ON CLASSIFICATION AND DESCRIPTION

Note 1 – on classification

The combination of division and colour code assigned here (or as amended in any future Supplement) is the registered classification, to be observed, for example, when schedules require cultivars to be shown “as registered”. The registered classification is not altered by any note of variable measurement or colour.

Note 2 – on colour coding

Guidelines on colour coding, including those on distinguishing between Yellow and Orange and between Orange and Red, appear in the Register and on registration forms. It is at the registrant's discretion to distinguish White from Yellow or Green, Yellow from Green, or Pink from the paler tones of Orange or Red.

In addition:

– Green at corona base

The green at the base of a corona, whether in the tube or in the corona itself, may be included in the colour code if it is prominent and plain to see. Registrants are advised to include it only if it is consistent from year to year.

– Non-concentric colours

When coding colours in perianth or corona that appear in radial rather than concentric bands, or in a flare from the base, or in flecks or splashes: start with a letter for the predominant colour; proceed with an oblique line; follow with the letter(s) (in any order) for the non-predominant colour(s).

For example, a yellow flower with a white streak along the midrib of the perianth segments would be Y/W-Y; a white flower with radial bands of orange and yellow on the corona segments would be W-W/OY.

Note 3 – on colour terms

Colour Chart numbers in registered descriptions, e.g. ‘Aisha’ brilliant greenish yellow 5A, are from the *RHS Colour Chart* (1966, 1986, 1995, 2001, 2007, 2015). Colour names followed by Chart numbers without brackets are equivalents adopted by the RHS for all its international registers. They are taken from the Universal Colour Language in the Inter-Society Color Council-National Bureau of Standards colour-name system. Colour names followed by Chart numbers with brackets or by no numbers at all are those supplied by the registrant.

Note 4 – on description

Registered descriptions are drawn up from application forms and, whenever possible, from photographs and specimens. The Registrar would welcome readers' comments on the accuracy of all descriptions.

Illustrations of descriptive terms appear on page 27.

Note 5 – on height

Stem heights in registered descriptions may be taken to be Standard (325–675mm) unless otherwise stated, when they will be described as Dwarf (less than 325mm) or Tall (more than 675mm).

Note 6 – on Nomenclatural Standards

The Standard noted at the end of some descriptions is the designated herbarium specimen or illustration forming a permanent record of the distinguishing characteristics of the cultivar and fixing the cultivar name. These are maintained at the RHS Herbarium, Wisley.

Note 7 – on unregistered names

Names listed as ‘unregistered’ are those post-1955 that have not been accepted by the RHS or have not yet been submitted for registration. They are included as part of the Check List and they gain no registered status by being listed. They are included in order to prevent confusion between daffodils of the same name and to help prevent further duplication.

REGISTRATIONS 2019–2020

The following 162 cultivar names were registered between **1 July 2019 and 30 November 2020** by The Royal Horticultural Society, International Cultivar Registration Authority for the genus *Narcissus*.

To access the *International Daffodil Register and Classified List* (2008), to download *Supplements 1–13* and the *Cumulative List of Registrations (Abridged)* visit:

www.rhs.org.uk/plants/plantsmanship/plant-registration/Daffodil-cultivar-registration

Entries follow the style of those in the *International Daffodil Register and Classified List* (2008) and may be interpreted accordingly (see p10 in the Register).

The seed parent is given before the pollen parent.

'Abigail Collette' 2 W-P

(Brian S.Duncan, 2013) Susan Duncan, 2020
'Pink Haze' × 'Camilla Clara Kate'; sdlg no. 4478
Fl. 109mm wide; perianth segments 43mm long, broadly ovate, truncate or blunt, mucronate, pure white, spreading, plane or with margins a little incurved, creased and of membranaceous substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 19mm long, narrow funnel-shaped, angled, deep pink, mouth straight, ribbed and lightly frilled, with rim notched. Mid-season to late.

Nomenclatural Standard: colour print supplied by registrant (WSY0136856)

Etymology: named for registrant's granddaughter

'Adele' 2 Y/W-P

(W.G.Pannill, 2015) Coates Clark, 2020
Parentage unknown; sdlg no. 93/16S
Fl. forming a double triangle, 82mm wide; perianth segments 38mm long, broadly ovate, rounded at apex, yellow, with white at base and along midrib, with slight, white mucro, reflexed, plane or with margins incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate, more nearly spreading, shouldered at base; corona 31mm long, funnel-shaped, ribbed, pink, mouth straight and lightly frilled, with rim notched and somewhat flanged. Tall. Mid-season. Sweetly scented. Nomenclatural Standard: colour print supplied by registrant (WSY0136304)

'Advance Party' 4 Y-W

(Brian S.Duncan) Esker Farm Daffodils, 2020
'Doubleday' × 'Altun Ha'; sdlg no. 3458
Fl. 95mm wide; perianth and other petaloid segments in several whorls; the outer two whorls very broadly ovate, blunt, yellow, with white mucro, spreading, shallowly concave, smooth and of membranaceous substance, overlapping half or more; the inner whorls successively shorter and more strongly inflexed towards centre, more deeply concave or folded along midrib; corona segments 45mm long, in several whorls, white, almost as long as and interspersed among the inner perianth whorls, frilled, crenate and sometimes bi-lobed. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0136701)

'Aisha' 4 Y-Y

(R.A.Scamp) Green In Between, 2020
Parentage unknown
Fl. rounded, 90mm wide, facing upwards; perianth and other petaloid segments in several whorls, 35mm long, broadly ovate, blunt, brilliant greenish yellow 5A, sometimes with scarce white mucro, smooth and of heavy substance, overlapping half or more; the outer whorls spreading, plane to a little concave; the inner whorls successively more inflexed towards centre, with margins more strongly incurved; corona segments 25mm long, interspersed among perianth segments and clustered at centre, yellow (14A/9A); outer segments bi-lobed, wavy; inner segments crumpled or folded inwards along midrib, wavy to lightly frilled. Early.

Nomenclatural Standard: colour print supplied by KAVB (WSY0136715)

'Albus Jack' 1 W-W

(Brian S.Duncan, 2007) Will, Becky & Katie Stewart, 2020
'Sherpa' × 'Nightflight'; sdlg no. 3589
Fl. forming a double triangle, 110mm wide; perianth segments 48mm long, roundish, very broad, blunt, mucronate, spreading, plane, with margins a little incurved, creased and of membranaceous substance, overlapping half; the inner segments narrower, more nearly plane, scarcely mucronate, shouldered at base; corona 50mm long, cylindrical, broadly ribbed, smooth, mouth widely flared, wavy and shallowly lobed, with rim minutely crenate. Early to mid-season. Nomenclatural Standard: colour print supplied by hybridizer (WSY0136248)
Etymology: In memory of the registrants' father, Ian, an accomplished, enthusiastic and popular Lawn Bowler

'Amy Susan' 2 Y-W

(Gerard Knehans Jr, 2000) Gerard Knehans Jr, 2020
'Fragrant Rose' × 'Altun Ha'; sdlg no. KN213
Fl. forming a double triangle, 72mm wide; perianth segments 32mm long, broadly ovate, truncate, mucronate, pale yellow (18D), slightly paler in tone along midrib, spreading, plane or with margins a little incurved, with midrib showing, of heavy substance, overlapping half or more; the inner segments narrower, more nearly blunt at apex, scarcely mucronate, shouldered at base; corona 20mm long,

funnel-shaped, smooth, white, mouth broadly ribbed, wavy and narrowly flared, with rim entire. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0136708)

'Angel's Share' 2 Y-P

(Gordon Coombes, 2011) Gordon Coombes, 2019
'Steffi' × 'Neon Blaze'; sdlg no. G30-11
Fl. forming a double triangle, 75mm wide; perianth segments 34mm long, ovate, blunt, mucronate, pale yellow, reflexed, convex, smooth and of heavy substance, overlapping half or more; the inner segments narrower; corona 20mm long, funnel-shaped, angled, deep pink, mouth straight, ribbed and frilled, with rim dentate. Late. Strongly scented.

'Arctic Diamond' 2 W-W

(Gordon Coombes, 2009) Gordon Coombes, 2019
'Best Yet' unreg × 'Ashmore'
Fl. 70mm wide; perianth segments 28mm long, roundish, very broad, pure white, spreading, plane or with margins incurved, smooth and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 18mm long, cup-shaped, angled, white, mouth straight, wavy and lobed, with rim dentate. Mid-season. Strongly scented. Nomenclatural Standard: colour print supplied by registrant (WSY0136619)

'Ashdon 19' 7 YYW-Y

(Brian S. Duncan, 2007) [withheld], 2019
'Perpetuation' × *N. jonquilla*; sdlg no. 3679
Fls 2 per stem, forming a double triangle, 78mm wide; perianth segments 32mm long, broadly ovate, deep golden yellow, touched white at base, prominent pale mucro, spreading, concave, with margins incurving, smooth and of heavy substance, overlapping one-third to a half; the inner segments narrower, scarcely mucronate; corona 16mm long, funnel-shaped, smooth, buff yellow, sometimes becoming paler at maturity, mouth straight and wavy, with rim entire. Mid-season to late. Nomenclatural Standard: colour print supplied by registrant (WSY0136296)

'Austin Wyatt' 2 Y-P

(Brian S. Duncan, 2010) Susan Duncan, 2020
'American Heritage' × Sdlg ('Brindle Pink' × 'Thistin'); sdlg no. 3910
Fl. 105mm wide; perianth segments 42mm long, broadly ovate, blunt, yellow, with white mucro, touched white at base, somewhat reflexed, plane or with margins slightly incurved, creased and of heavy substance, overlapping half or more; the inner segments narrower, scarcely mucronate, shouldered at base; corona 33mm long, narrow funnel-shaped, angled, pink, mouth straight, broadly ribbed and wavy, with rim notched and somewhat narrowly flanged. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0136857)
Etymology: named for registrant's grandson

'Backhouse Rossie Estate' 3 W-YYO

(Caroline G. Thomson, 2012) Caroline G. Thomson, 2020
'Sunrise' × ?'Conspicuous'; sdlg no. BRECGT001
Fl. 85mm wide, facing downwards; perianth segments 36mm long, ovate, blunt, white, flushed pale greenish yellow at base and extending in narrowing rays along perianth, reflexed, plane or with margins a little incurved, smooth and of heavy substance, overlapping one-third; the inner segments narrower; corona 12mm long, bowl-shaped, ribbed, strong yellow, becoming yellowish orange towards rim, mouth expanded, strongly ribbed, wavy to lightly frilled, deeply lobed, with rim minutely crenate. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0136639)

'Bank Rate' 2 Y-O

(Brian S. Duncan, 2013) Brian S. Duncan, 2019
'Banker' × 'Causeway Sunset'; sdlg no. 4082
Fl. 110mm wide; perianth segments 42mm long, very broadly ovate, blunt, yellow, with pale mucro, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 27mm long, funnel-shaped, angled, mid-orange, mouth straight, wavy and shallowly lobed, with rim entire. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0136626)

'Bianca Maria' 4 W-Y

(Brian S. Duncan) Narveco, 2020
Parentage unknown
Fl. rounded, 95mm wide, facing upwards, opening light yellow 4D, becoming white 155A at maturity; perianth and other petaloid segments in several whorls, broadly ovate, blunt, slightly mucronate, smooth and of heavy substance, overlapping half or more; the outer whorls spreading, plane or with margins a little incurved; the inner whorls successively more inflexed towards the centre, concave or folded inwards along midrib; the corona segments 25mm long, interspersed among the inner perianth segments, orange-yellow 15A/B, wavy to lightly frilled, with margins minutely crenate. Mid-season. Strongly scented. Nomenclatural Standard: colour print supplied by KAVB (WSY0136802)

'Bramcote Ice' 2 W-W

(Clive Postles, 2009) Roger Braithwaite, 2020
Parentage unknown; sdlg no. CPS381
Fl. forming a double triangle, 120mm wide; perianth segments broadly ovate, blunt to truncate, mucronate, spreading, plane, with midrib showing, of heavy substance, overlapping half; the inner segments narrower, somewhat shouldered at base; corona funnel-shaped, angled, mouth straight, wavy to lightly frilled, with rim entire. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0136270)

'Bramcote Jewel' 1 W-Y

(Clive Postles, 2009) Roger Braithwaite, 2020
 Parentage unknown; sdlg no. CPS394
 Fl. forming a double triangle, 115mm wide; perianth segments broadly ovate, blunt, mucronate, white, touched yellow at base, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate; corona funnel-shaped, angled, yellow, mouth straight, broadly flanged, ribbed and wavy, with rim notched. Mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136247)

'Bright Paradise' 4 Y-R

(Leenen Innovation BV, 2003) Leenen Innovation BV, 2020
 Parentage unknown; sdlg no. nvo9597-104
 Fl. 80mm wide. Mid-season

'Caislín Cloch' 2 Y-YYO

(Brian S.Duncan, 2006) Rose Sevastopulo, 2019
 'Gold Ingor' × 'Impeccable'; sdlg no. 3396
 Fl. forming a double triangle; perianth segments broadly ovate, blunt, slightly mucronate, spreading, shallowly concave, with midrib showing, of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate, shouldered at base; corona funnel-shaped, angled, mouth straight and wavy to lightly frilled, with rim entire. Early to mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136617)
 Etymology: Irish for Stonechat

'Carole Hale' 3 W-P

(Brian S.Duncan, 2012) Susan Duncan, 2020
 'Alto' × 'Demeanour'; sdlg no. 4511
 Fl. 95mm wide; perianth segments 38mm long, broadly ovate, blunt, white, spreading, shallowly concave, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 12mm long, bowl-shaped, angled, deep pink, mouth straight and wavy, with rim crenate. Mid-season to late.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136858)
 Etymology: named for registrant's sister-in-law

'Casanova' 11a W-P

(C.J.van der Wereld) H.Wijnhout, 2019
 Parentage unknown
 Fl. 85mm wide; perianth segments 30mm long, very broadly ovate, blunt, mucronate, white 155C, spreading, plane or with margins incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base, somewhat inflexed, scarcely mucronate; corona segments 20mm long, split to base into six segments, each overlying a perianth segment, forming an inner and an outer whorl of three, of the same width as the perianth

segments, smooth, bi-lobed, with lobes overlapping, orange-pink (31D), paler towards rim, frilled. Early.
 Nomenclatural Standard: colour print supplied by KAVB (WSY0136593)

'Chocolate Park' 2 YYW-WWY

(M.W.Carney, 2010) M.W.Carney, 2020
 'Highpoint' × 'American Classic'; sdlg no. 04-63-01
 Fl. forming a double triangle, 84mm wide; perianth segments 31mm long, ovate, truncate or blunt, yellow, with white at base and pale mucro, spreading, plane, with margins recurved, with midrib showing, of heavy substance, overlapping one-third; the inner segments narrower, scarcely mucronate; corona 29mm long, funnel-shaped, smooth, opening buff white, maturing to white, with a broad band of yellow at rim, mouth straight and lightly frilled, with rim dentate. Mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136711)

'Citrus Smoothie' 3 Y-Y

(Brian S.Duncan) Esker Farm Daffodils, 2020
 'Moon Shadow' × 'Lemma'; sdlg no. 3642
 Fl. forming a double triangle, 101mm wide; perianth segments 41mm long, broadly ovate, blunt, prominently mucronate, spreading, plane or with margins a little incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base, truncate, scarcely mucronate; corona 12mm long, cup-shaped, smooth, mouth a little expanded, frilled, with rim minutely crenate. Mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136700)

'Clara Vale' 3 Y-R

(Brian S.Duncan, 2010) [withheld], 2020
 'Likely Lad' unreg × 'Jake'; sdlg no. 3900
 Fl. forming a double triangle, 88mm wide; perianth segments 34mm long, roundish, very broad, blunt or truncate, mucronate, deep golden yellow, spreading, plane, with margins incurved, smooth and of heavy substance, overlapping more than half; the inner segments narrower, more nearly ovate, somewhat concave; corona 8mm long, bowl-shaped, smooth, deep orange-red, mouth expanded, ribbed and wavy, with rim minutely crenate. Mid-season to late.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136369)
 Etymology: named after registrant's village of birth

'Crystal Choice' 3 W-GWW

(Brian S.Duncan) F.Charlton, 2020
 'Silkwood' × 'Silver Crystal'; sdlg no. 3498
 Fl. 111mm wide; perianth segments 48mm long, roundish, very broad, truncate, mucronate, pure white, spreading, plane, with midrib showing, creased and of membranaceous substance, overlapping half or more; the inner segments narrower, scarcely mucronate; corona 13mm long, funnel-shaped,

angled, pure white with a hint of green at base, mouth expanded and frilled, with rim crenate. Mid-season. Nomenclatural Standard: colour print supplied by hybridizer (WSY0136667)

'Cuilcagh' 1 W-P

(Brian S.Duncan) Esker Farm Daffodils, 2020 'Korora Bay' × 'Ben Aligin'; sdlg no. 3440 Fl. 106mm wide; perianth segments 42mm long, roundish, very broad, blunt, prominently mucronate, spreading, plane or with margins incurved, smooth and of heavy substance, overlapping half; corona 42mm long, narrowly funnel-shaped, smooth, mouth straight, even, lightly frilled, with rim flanged, minutely crenate and irregularly notched. Early to mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0136699)

'Cynthia Christine' 2 W-W

(Brian S.Duncan, 2014) Susan Duncan, 2020 'Viva Diva' × 'Jammin'; sdlg no. 4489 Fl. 108mm wide; perianth segments 42mm long, roundish, very broad, truncate, slightly mucronate, spreading, shallowly concave, creased, with midrib showing, of membranaceous substance, overlapping half or more; the inner segments narrower, more nearly ovate, scarcely mucronate; corona 15mm long, funnel-shaped, smooth, mouth straight and heavily frilled, with rim crenate. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0136859) Etymology: named for registrant's daughter

'Dear Roxie' 2 W-P

(W.G.Pannill, 2015) Coates Clark, 2020 ('Interim' × pink sdlg) × 'Keepsake'; sdlg no. 77/96 Fl. forming a double triangle, 89mm wide; perianth segments 38mm long, ovate, blunt or truncate at apex, mucronate, a little inflexed, concave, with midrib showing, of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate; corona 25mm long, funnel-shaped, ribbed, mouth straight and heavily frilled, with rim dentate. Mid-season. Sweetly scented. Nomenclatural Standard: colour print supplied by registrant (WSY0136294) Etymology: named for a family friend

'Denton's Choice' 2 Y-YYO

(Brian S.Duncan, 2007) F.Charlton, 2020 'Gold Ingot' × 'Pacific Rim'; sdlg no. 3452 Perianth segments roundish, very broad, blunt, yellow, with pale mucro, spreading, plane or with margins a little incurved, with midrib showing, of heavy substance, overlapping half or more; the inner segments narrower; corona cup-shaped, smooth, yellow, with a band of orange at rim, mouth expanded, broadly ribbed and lightly frilled, with rim crenate. Early to mid-season. Nomenclatural Standard: colour print supplied by hybridizer (WSY0136671) Etymology: Grown and admired by Denton Horticultural Society

'Deportment' 3 W-P

(Brian S.Duncan) Esker Farm Daffodils, 2020 'Demeanour' × 'Panorama Pink'; sdlg no. 3471 Fl. 102mm wide; perianth segments 39mm long, roundish, very broad, truncate, slightly mucronate, spreading, plane, with margins incurving, creased and of heavy substance, overlapping half or more; the inner segments narrower, somewhat shouldered at base, scarcely mucronate; corona 12mm long, bowl-shaped, smooth, mouth straight, wavy, irregularly lobed and lightly frilled, with rim crenate and shallowly notched. Mid-season to late. Nomenclatural Standard: colour print supplied by registrant (WSY0136698)

'Deryn' 6 W-Y

(Mrs Anne Wright, 2015) Mrs Anne Wright, 2020 Sdlg KB/M/16/02 (Keira hybrid) × 'Candlepower'; sdlg no. 2795-2-15 Perianth segments 16mm long, ovate, blunt, slightly mucronate, greenish white 155C, reflexed, plane or with margins slightly incurved, with midrib showing, of heavy substance, overlapping at base only; corona 19mm long, cylindrical, smooth, brilliant greenish yellow 3B, paler towards base, mouth flared, ribbed and frilled, with rim notched. Dwarf. Early. Slightly scented. Nomenclatural Standard: colour print supplied by registrant (WSY0136652) Etymology: Welsh for 'bird'

'Desert Fire' 11a W-P

(Gordon Coombes, 2007) Gordon Coombes, 2019 'Cherry Pink' × 'Desert Blaze' unreg; sdlg no. G15-07 Fl. 100mm wide; perianth segments 36mm long, roundish, very broad, blunt or truncate, scarcely mucronate, white, spreading, plane or with margins incurved, smooth and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 20mm long, split almost to base into six segments, each almost as wide as and closely overlying a perianth segment, forming an outer and an inner whorl of three, two to three lobed, heavily frilled, deep apricot pink, becoming orange-pink towards rim. Mid-season. Strongly scented. Nomenclatural Standard: colour print supplied by registrant (WSY0136623)

'Desmond John H' 1 W-P

(Brian S.Duncan, 2007) Terry Haley, 2019 'Edenderry' × 'Chanson'; sdlg no. 3417 Fl. 110mm wide; perianth segments 45mm long, white; corona 46mm long, deep rose pink. Mid-season. Etymology: named in memory of registrant's son

'Double Diamond' 4 W-Y
(pre-1987)
Syn. of 'Lennart'

'Double Diamont'
Syn. of 'Lennart'

'Double Entendre' 4 Y-O

(Brian S.Duncan, 2012) Brian S.Duncan, 2020
Turbit Sdlg 05 × Sdlg 98/62 ('Summer Solstice' ×
'Jackadee'); sdlg no. 4319

Fl. rounded, 78mm wide; perianth and other petaloid segments in several whorls, golden yellow, with pale mucro, the outer whorls roundish, very broad, blunt or somewhat truncate, spreading, plane to a little concave, smooth and of heavy substance, overlapping half or more; the inner whorls successively shorter and more deeply inflexed towards centre, concave or folded inwards from midrib; corona segments interspersed among inner perianth segments, half the length of the outer perianth segments, strong reddish orange, frilled, becoming more crumpled towards centre. Dwarf. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0136735)

'Double Power' 4 Y-Y

(of New Zealand origin) Bloembollenkwekerij Veul BV, 2020.

PBR-NL granted 2019

Parentage unknown

Fl. facing upwards; perianth and other petaloid segments in several whorls, yellow 9A, with slight, pale mucro; the two outer whorls opposite and more or less overlying one another, ovate, spreading, plane or with margins a little incurved, with midrib showing and of heavy substance, overlapping half; the inner petaloid whorls successively shorter and more strongly inflexed towards the centre, concave; corona segments half the length of the outer petaloid segments, clustered at centre, orange-yellow 14A, frilled, becoming crumpled towards centre. Mid-season.

Nomenclatural Standard: colour print supplied by KAVB (WSY0136650)

'Dr Bob' 2 Y-O

(Brian S.Duncan, 2010) Donal McBride, 2020
'Likely Lad' unreg × 'Outline'; sdlg no. 3902

Fl. forming a double triangle, 111mm wide; perianth segments 43mm long, broadly ovate, blunt, yellow, with slight, pale mucro, spreading, shallowly concave, with prominent midrib showing, of heavy substance, overlapping half; the inner segments narrower, truncate; corona 22mm long, cup-shaped, angled, orange, mouth a little expanded, ribbed, wavy and irregularly lobed, with rim notched. Mid-season to late. Nomenclatural Standard: colour print supplied by registrant (WSY0136254)

Etymology: Named for the co-founder of Alcoholics Anonymous

'Dutch Pennant' 2 Y-O

(M.A.Vandervliet) Bloembollenkwekerij Veul BV, 2020
Parentage unknown

Fl. forming a double triangle, 105mm wide; perianth segments 45mm long, ovate, blunt or truncate, mucronate, vivid yellow 6A, spreading, plane, with midrib showing, of heavy substance, overlapping one-third; the inner segments a little narrower;

corona 25mm long, cup-shaped, ribbed, strong orange (N25B), mouth flared and lightly frilled, with rim crenate. Early. Strongly scented.
Nomenclatural Standard: colour print supplied by KAVB (WSY0136728)

'Eenie' 1 WWY-Y

(Brian S.Duncan, 2016) Brian S.Duncan, 2020
N. cyclamineus × 'Candlepower'; sdlg no. 4250

Fl. star-shaped, 40mm wide; perianth segments 20mm long, ovate to oblong, acute, mucronate, white, with a broad band of yellow at base, spreading, convex, smooth and of heavy substance, separated; corona 21mm long, cylindrical, angled, yellow, mouth straight, ribbed, wavy, irregularly and shallowly lobed, with rim minutely crenate. Dwarf. Very early to early. Nomenclatural Standard: colour print supplied by registrant (WSY0136738)

'Emma Groves' 2 Y-Y

(J.L.Akers, 2019) J.L.Akers, 2020

Panna Cotta Group × *N. scaberulus*; sdlg no. 2019/8

Fl. star-shaped, 35mm wide; perianth segments 16mm long, ovate, blunt, yellow, with pale mucro, a little reflexed, shallowly concave, smooth and of heavy substance, overlapping one-third; the inner segments narrower, scarcely mucronate; corona 11mm long, cup-shaped, angled, yellow, mouth flared and wavy, with rim crenate. Dwarf. Very early. Scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0136663)

Etymology: named for registrant's dental surgeon, Dr E.V. Groves

'Eric's Choice' 5 Y-Y

(Brian S.Duncan, 2010) F.Charlton, 2020

'Hillstar' × 'Little Bell'; sdlg no. 3613

Fls 3–6 per stem, deep lemon yellow, facing downwards; perianth segments lanceolate, blunt, with prominent pale mucro, slightly reflexed, plane or a little twisted, with margins narrowly incurving; smooth and of heavy substance; the inner segments less prominently mucronate; corona cup-shaped, broadly ribbed, mouth straight, wavy, shallowly and broadly lobed, with rim entire. Mid-season.

Nomenclatural Standard: colour print supplied by hybridizer (WSY0136672)

Etymology: admired by member of Denton Horticultural Society

'Fairy Chimes Tetra' 5 Y-Y

(Theo Sanders, 2015) Theo Sanders, 2020

Fertile tetraploid of 'Fairy Chimes'; sdlg no. TS1552

Fls 5 per stem, 42mm wide, facing downwards, pale canary yellow; perianth segments 18mm long, oblong, blunt, prominently mucronate, reflexed, plane, smooth and of heavy substance, overlapping at base only; the inner segments narrower; corona 9mm long, cup-shaped, smooth, mouth straight and wavy, with rim entire. Mid-season. Sweetly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0136729)

'Finest Cut' 2 Y-YYR

(Brian S.Duncan, 2006) Brian S.Duncan, 2020
 'Boulder Bay' × 'Pacific Rim'; sdlg no. 3651
 Fl. forming a double triangle, 112mm wide; perianth segments 42mm long, roundish, very broad, blunt, deep yellow, with slight, white mucro, spreading, plane or with margins a little incurved, smooth and of heavy substance, overlapping half or more; the inner segments narrower, more nearly ovate, shouldered at base, scarcely mucronate; corona 22mm long, cup-shaped, angled, deep yellow, with a sharply defined, broad band of red at rim, mouth a little expanded, wavy to lightly frilled, with rim minutely crenate. Mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136750)

'Fire Crater' 11a Y-O

(K.van der Veek) Bloembollenkwekerij Veul BV, 2020
 Parentage unknown
 Fl. rounded, 90mm wide; perianth segments 40mm long, broadly ovate, blunt to acute, mucronate, light greenish yellow 6C, with margins vivid yellow 9A, reflexed, plane, with margins narrowly incurving, smooth and of membranaceous substance, overlapping half; the inner segments narrower, more nearly plane; corona 30mm long, split almost to base into six segments, each overlying a perianth segment, forming an outer and an inner whorl of three, almost as broad as the inner perianth segments, bi-lobed, with lobes overlapping, strong orange (N25C), with yellow-orange (N25D) towards base, with rim frilled and entire. Early.
 Nomenclatural Standard: colour print supplied by KAVB (WSY0136717)

'Flaming Choice' 2 Y-GOO

(Brian S.Duncan, 2010) Brian S.Duncan, 2020
 'Likely Lad' unreg × 'Outline'; sdlg no. 3655
 Fl. forming a double triangle, 104mm wide; perianth segments 40mm long, roundish, very broad, blunt, mucronate, deep yellow, spreading, plane, smooth and of membranaceous substance, overlapping half; the inner segments narrower, more nearly ovate, shouldered at base; corona 15mm long, bowl-shaped, broadly ribbed, deep orange, paling towards base, with olive green 'eye', mouth straight, wavy and shallowly lobed, with rim minutely crenate. Mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136741)

'Flushing Meadows' 4 O-R

(Brian S.Duncan, 2016) Brian S.Duncan, 2020
 Turbitt sdlg 99/20 × 'Bionic'; sdlg no. 4446
 Fl. 100mm wide; perianth and other petaloid segments in several whorls, orange, flushed yellow; the two outer whorls broadly ovate to roundish, blunt, with slight, pale mucro, spreading, plane, with margins narrowly incurving, smooth and of heavy substance, overlapping half; the inner whorls successively shorter, more strongly inflexed towards and clustered at centre, concave or folded inwards

along midrib, paler at apex; corona segments half the length of the outer petaloid segments, interspersed among the inner perianth whorls, orange-red. Early to mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0136746)

'Fresh Breeze' 6 Y-Y

(Mrs Anne Wright, 2009) Mrs Anne Wright, 2020
N. watieri × *N. cyclamineus*; sdlg no. 2661-1
 Fl. 27mm wide, at right angles or facing slightly downwards; perianth segments 19mm long, ovate, blunt, light greenish yellow 4B, reflexed, plane, with margins somewhat incurved, smooth and of heavy substance, overlapping half or less; the inner segments narrower; corona 18mm long, cylindrical, smooth, brilliant greenish yellow 4A, mouth ribbed, even, a little expanded and shallowly lobed, with rim crenate. Dwarf. Slightly scented.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136635)

'Gavroche' 6 Y-Y

(Brian S.Duncan, 2010) Brian S.Duncan, 2020
N. cyclamineus × *N. poeticus*; sdlg no. 4026
 Fl. 30mm wide, facing downwards; perianth segments 20mm long, ovate or oblong, blunt, mucronate, mid-yellow at maturity, paling to white with yellow at base in final stages of flowering, reflexed, plane or with margins a little incurving, smooth and of heavy substance, overlapping at base only; corona 11mm long, cup-shaped, broadly ribbed, deep lemon yellow, mouth wavy and a little expanded, with rim crenate to notched. Dwarf. Early.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136751)
 Etymology: Named after the street urchin in 'Les Misérables'

'Gentleman's Choice' 1 Y-Y

(Brian S.Duncan, 2011) Brian S.Duncan, 2020
 'Goldfinger' × 'Disquiet'; sdlg no. 4104
 Fl. forming a double triangle, 113mm wide; perianth segments 44mm long, roundish, very broad, blunt, deep yellow, with white mucro, spreading, plane or with margins slightly incurved, with midrib showing, of heavy substance, overlapping half; the inner segments narrower, more nearly ovate, shouldered at base; corona 47mm long, cylindrical, smooth, deep yellow, mouth ribbed, wavy and a little expanded, with rim shallowly notched. Mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136760)

'Gertrude Marie' 11a Y-P

(John R.Reed) John R.Reed, 2020
 Parentage unknown; sdlg no. 2001-39
 Fl. forming a double triangle; perianth segments broadly ovate, truncate, yellow, with scarce white mucro, spreading or a little reflexed, smooth and of heavy substance, overlapping half or more; the inner segments narrower; corona split almost to base into six

segments, each half as long as the perianth segments and as broad, deeply bi-lobed, with lobes overlapping, pink, wavy, with rim minutely crenate. Mid-season. Nomenclatural Standard: colour print supplied by T. Stettner (WSY0136704)

'Ghost Town' 11a W-W

(Colin Crotty, 2014) Colin Crotty, 2019
'Caramel Joy' × Sdlg; sdlg no. CC12-14
Fl. forming a double triangle, 102mm wide; perianth segments 40mm long, roundish, very broad, blunt, mucronate, spreading, plane or with margins incurved, smooth and of heavy substance, overlapping half; the inner segments ovate, scarcely mucronate; corona 20mm long, split almost to base into six segments, each as broad as and closely overlying a perianth segment, forming an inner and an outer whorl of three, a little wavy, bi-lobed with lobes overlapping, creamy white. Mid-season. Strongly scented. Nomenclatural Standard: colour print supplied by registrant (WSY0136439)

'Glenmore Meadow' 2 Y-Y

(J.A.Hunter, 1995) J.A.Hunter, 2020
(‘Temple Gold’ × ‘King’s Ransom’) × Hamilton sdlg 31-86; sdlg no. 36/90A
Fl. forming a double triangle, 105mm wide; perianth segments 43mm long, ovate, vivid yellow 9A, spreading, plane, of heavy substance; corona 38mm long, orange-yellow 15A. Early

'Golden Palace' 1 Y-Y

(Brian S.Duncan, 2011) Brian S.Duncan, 2020
'Longitude' × 'Disquiet'; sdlg no. 3726
Fl. forming a double triangle, 107mm wide; perianth segments 39mm long, roundish, very broad, blunt, deep golden yellow, with slight, pale mucro, spreading, plane, creased and of membranaceous substance, overlapping half; the inner segments narrower, more nearly ovate, scarcely mucronate, shouldered at base; corona 40mm long, cylindrical, smooth, deep golden yellow, sometimes with a hint of orange, mouth even, a little expanded, lightly frilled and irregularly shallowly lobed, with rim minutely crenate. Early to mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0136762)

'Golden Trail' 1 Y-Y

(Brian S.Duncan, 2011) Brian S.Duncan, 2020
'Disquiet' × 'Oregon Trail'; sdlg no. 4099
Fl. forming a double triangle, 110mm wide; perianth segments 41mm long, broadly ovate, blunt, deep yellow, with pale mucro, spreading, plane or with margins a little incurved, smooth and of heavy substance, overlapping half; the inner segments more nearly ovate, shouldered at base; corona 43mm long, cylindrical, smooth, deep golden yellow, a little darker in tone than perianth segments, mouth straight and wavy, with rim rolled and crenate. Early to mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0136765)

'Good Point' 2 Y-O

(Brian S.Duncan, 2009) Brian S.Duncan, 2020
'Banker' × 'Causeway Sunset'; sdlg no. 4122
Fl. forming a double triangle, 108mm wide; perianth segments 45mm long, broadly ovate, blunt, yellow, with slight, pale mucro, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 22mm long, cup-shaped, smooth, orange, mouth straight and a little wavy, with rim crenate. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0136766)

'Green Eyed Beauty' 3 Y-YYO

(Nial Watson, 2014) Ringhaddy Daffodils, 2020
'Pacific Rim' × 'Causeway Ringer'; sdlg no. W1060
Fl. forming a double triangle, 98mm wide; perianth segments 42mm long, broadly ovate, blunt, mucronate, brilliant greenish yellow 6C, spreading, plane, with margins incurving, smooth and of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate, shouldered at base; corona 11mm long, bowl-shaped, ribbed, vivid yellow 14A, with a narrow band of light orange 23A at rim, mouth ribbed and frilled, with rim crenate. Late. Sweetly scented. Nomenclatural Standard: colour print supplied by registrant (WSY0136307)

'Grumpy Penguin' 1 W-Y

(Brian S.Duncan, 2014) Brian S.Duncan, 2020
'Wyong' × 'Pet Lamb' or open pollinated; sdlg no. 4309
Fl. forming a double triangle, 110mm wide; perianth segments 44mm long, broadly ovate, blunt, scarcely mucronate, white, with a hint of yellow at base, spreading, plane or with margins a little incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 46mm long, funnel-shaped, smooth, deep lemon yellow, paler towards rim, mouth straight, broadly ribbed and slightly wavy, with rim crenate. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0136767)
Etymology: Registrant's son cast as the 'Grumpy Penguin' in a video produced by registrant's grandson, Jake

'Hawera Tetra' 5 Y-Y

(Theo Sanders, 2015) Theo Sanders, 2015
Fertile tetraploid of 'Hawera'; sdlg no. TS1551
Fls 4 per stem, 59mm wide, facing downwards, pale canary yellow; perianth segments 25mm long, oblong, blunt, mucronate, reflexed, plane, smooth and of heavy substance, overlapping at base only; the inner segments narrower; corona 11mm long, cup-shaped, smooth, mouth straight and wavy, with rim entire. Mid-season. Sweetly scented. Nomenclatural Standard: colour print supplied by registrant (WSY0136725)

'Hazel McClung' 1 W-Y/P

(Brian S.Duncan) Samuel Robinson, 2020

Parentage unknown; sdlg no. 3340

Fl. forming a double triangle, 103mm wide; perianth segments 39mm long, broadly ovate, blunt, slightly mucronate, white, spreading, plane, smooth and of membranaceous substance, overlapping half; the inner segments narrower, scarcely mucronate; corona 40mm long, smooth, lemon yellow, flushed pink, mouth flared and wavy, with rim crenate. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0136688)

'Heat Torch' 2 Y-R

(Brian S.Duncan, 2010) F.Charlton, 2020

'Likely Lad' unreg × 'Tropical Heat'; sdlg no. 3899

Fl. 110mm wide; perianth segments 44mm long, roundish, very broad, blunt, deep golden yellow, with slight, pale mucro, spreading, plane, with midrib showing, of membranaceous substance, overlapping half or more; the inner segments a little narrower; corona 17mm long, cup-shaped, smooth, intense orange-red, mouth expanded, wavy to lightly ribbed, with rim crenate. Mid-season. Nomenclatural Standard: colour print supplied by hybridizer (WSY0136673)

'Hedgehog' 2 W-YYW

Bloembollenkwekerij Veul BV, 2020

Parentage unknown

Fl. forming a double triangle, 120mm wide; perianth segments 50mm long, broadly ovate, rounded at apex, mucronate, greenish white 155C, spreading, plane, with margins wavy, with midrib showing and of membranaceous substance, overlapping half; the inner segments a little narrower; corona 30mm long, funnel-shaped, smooth, vivid yellow 5C, with stronger yellow (9A) and white flecks (155C) at rim, mouth straight and frilled, with rim flanged and crenate. Early. Strongly scented. Nomenclatural Standard: colour print supplied by KAVB (WSY0136730)

'High Desert Dessert' 1 Y-P

(Brian S.Duncan, 2011) Susan Duncan, 2020

Sdlg ('Brindle Pink × 'American Heritage') × Sdlg ('Oregon Pioneer' × ['Rose Gold' × 'Fidelity']); sdlg no. 4137

Fl. 99mm wide; perianth segments 36mm long, broadly ovate, blunt, yellow, with slight, white mucro, spreading, plane, with margins narrowly incurling, creased and of membranaceous substance, overlapping half; the inner segments narrower, shouldered at base, scarcely mucronate; corona 37mm long, funnel-shaped, smooth, mouth straight and wavy, with rim shallowly notched and broadly flanged. Mid-season. Nomenclatural Standard: colour print supplied by registrant (WSY0136860)

Etymology: named to commemorate the foundation of the High Desert Daffodil Society with some playfulness on the spelling of desert and dessert!

'Hot Plate' 3 Y-R

(Brian S.Duncan, 2008) Brian S.Duncan, 2020

'Jake' × Sdlg 1840 ('Garden News' × 'Parabundy'); sdlg no. 3330

Fl. 110mm wide; perianth segments 44mm long, roundish, very broad, truncate or blunt, deep yellow, slight, pale mucro, spreading, plane, creased and of heavy substance, overlapping half or more; the inner segments narrower; corona 14mm long, broad bowl-shaped, smooth, intense orange-red, mouth expanded, ribbed and wavy, with rim crenate and slightly rolled. Mid-season to late.

Nomenclatural Standard: colour print supplied by registrant (WSY0136770)

'Huntingdon' 2 Y-Y

(Brian S.Duncan, 2007) Brian S.Duncan, 2020

'Treasure Hunt' × 'Gold Ingot'; sdlg no. 3443

Fl. forming a double triangle, 108mm wide; perianth segments 39mm long, broadly ovate, blunt, mucronate, mid-yellow, spreading, shallowly concave, smooth and of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate, shouldered at base; corona 31mm long, cylindrical or somewhat funnel-shaped, broadly ribbed, yellow, slightly darker in tone than perianth segments, mouth straight and wavy, with rim notched and narrowly flanged. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0136774)

'Hydra van Lerna' 8 W-W

(M.A.Vandervliet) Bloembollenkwekerij Veul BV, 2020

Parentage unknown

Fls 9 per stem, star-shaped, 42mm wide, at right angles to stem or facing upwards, white (NN155C); perianth segments 15mm long, ovate, acute, prominently mucronate, spreading, concave, with margins incurling, smooth and of heavy substance, overlapping at base only; corona 6mm long, cup-shaped, smooth, mouth straight and wavy, with rim crenate. Mid-season. Strongly and sweetly scented. Nomenclatural Standard: colour print supplied by KAVB (WSY0136724)

'Ice Storm' 1 W-W

(Nial Watson, 2006) Ringhaddy Daffodils, 2020

'Mourneview' × 'White Star'; sdlg no. W160

Fl. forming a double triangle, 105mm wide; perianth segments 45mm long, broadly ovate, rounded at apex, scarcely mucronate, spreading to a little reflexed, plane or with margins slightly incurved, smooth and of heavy substance; the inner segments narrower; corona 47mm long, funnel-shaped, smooth, mouth flared, ribbed and wavy, with rim dentate. Tall. Late. Faintly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0136305)

'Inch Island' 1 Y-P

(Brian S.Duncan) Brian S.Duncan, 2020
'American Heritage' × 'Azocor' or 'Oregon Pioneer';
sdlg no. 4089

Fl. 115mm wide; perianth segments 45mm long, broadly ovate, blunt, deep lime yellow, spreading, plane, smooth and of membranaceous substance, overlapping half; the inner segments narrower, shouldered at base; corona 46mm long, narrow funnel-shaped, smooth, deep pink, mouth straight, even and lightly frilled, with rim flanged and notched. Early to mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0136778)

'Influence' 2 Y-R

(Brian S.Duncan, 2006) Brian S.Duncan, 2020
'Jake' × 'Skywalker'; sdlg no. 3476

Fl. 120mm wide; perianth segments 50mm long, roundish, very broad, truncate, mucronate, deep golden yellow, spreading, plane or with margins incurling, with midrib showing, of heavy substance, overlapping half or more; the inner segments ovate, shouldered at base; corona 17mm long, funnel-shaped, smooth, deep orange-red, mouth straight, wavy, lightly frilled, shallowly lobed, with rim crenate. Mid-season to late.

Nomenclatural Standard: colour print supplied by registrant (WSY0136678)

'Instant Sunshine' 3 W-Y

(Nial Watson, 2012) Ringhaddy Daffodils, 2020
'Spindletop' × 'Moon Shadow'; sdlg no. W966

Fl. forming a double triangle, 111mm wide; perianth segments 50mm long, roundish, very broad, blunt or slightly truncate at apex, mucronate, white, spreading, plane or with margins incurved, with midrib showing, of heavy substance; the inner segments narrower, scarcely mucronate; corona 15mm long, bowl-shaped, ribbed, brilliant greenish yellow 5A, mouth expanded, lightly frilled and lobed, with lobes overlapping. Late. Slightly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0136303)

'Interactive' 1 Y-O

(Nial Watson, 2012) Ringhaddy Daffodils, 2020
'Red Reed' × 'Hampton Court'; sdlg no. W970

Fl. forming a double triangle, 74mm wide; perianth segments 30mm long, very broadly ovate, blunt, vivid yellow 14B, with slight, pale mucro, spreading, plane, with margins incurling, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 30mm long, funnel-shaped, angled, strong orange 25A, ribbed and wavy to lightly frilled, with rim notched and narrowly flanged. Late. Slightly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0136301)

'Interpink' 2 W-P

(Nial Watson, 2013) Ringhaddy Daffodils, 2020
'Foundling' × Sdlg D2227 2Y-P; sdlg no. W1027

Fl. rounded, 58mm wide; perianth segments 23mm long, roundish, very broad, scarcely mucronate, spreading, plane, with margins incurling, a little creased, of heavy substance, overlapping one-third; the inner segments narrower, shouldered at base; corona 21mm long, funnel-shaped, smooth, mouth straight and even, with rim crenate and narrowly flanged. Dwarf. Late. Sweetly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0136299)

'Janneke' 4 W-Y

(Arno Kroon) Narveco, 2019

Fl. 120mm wide, facing upwards; perianth and other petaloid segments in several whorls, greenish white 155A; the outer whorl 50mm long, roundish, very broad, blunt, spreading to a little reflexed, plane or with margins incurved, smooth and of heavy substance, overlapping half or more; the inner whorls ovate, successively shorter and more strongly inflexed towards centre, deeply concave or folded inwards from midrib; corona segments 45mm long, vivid yellow 12A, two-thirds the width of and interspersed among the inner petaloid segments, wavy, bi-lobed, with lobes overlapping, with rim entire. Mid-season. Sweetly scented.

Nomenclatural Standard: colour print supplied by KAVB (WSY0136597)

'Jazzie' 4 Y-P

(Brian S.Duncan) Brian S.Duncan, 2020
Blan. sdlg 185/21A × Sdlg 1920 ('Baldock' × 'Chemeketa'); sdlg no. 3328

Fl. 110mm wide; perianth and other petaloid segments in three whorls; the two outer whorls ovate, blunt, lemon yellow, with slight, pale mucro, spreading, plane, with margins narrowly incurling, creased and of membranaceous substance, overlapping half; the inner whorls successively shorter and more inflexed towards the centre, concave or folded inwards along midrib; corona segments two-thirds the length of the outer petaloid segments and interspersed among the inner perianth segments, pink, crumpled or folded inwards along midrib, with margins crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0136779)

'Jennifer's Charm' 3 Y-R

(Brian S.Duncan, 2006) Sean McClafferty, 2019;
sdlg no. 3484

'African Sunset' × 'Tropical Heat'
Fl. forming a double triangle, 105mm wide; perianth segments 45mm long, broadly ovate, blunt, mucronate, deep yellow, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower; corona 15mm long, smooth, hot orange-red, mouth straight and even, with rim

crenate. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0136620)

Etymology: named for wife of registrant

'Jolly Chameleon' 2 Y-Y

(Nial Watson, 2012) Ringhaddy Daffodils, 2020

'Impeccable' × 'Comal'; sdlg no. W900

Fl. forming a double triangle, 110mm wide; perianth segments 47mm long, roundish, very broad, truncate, vivid yellow 9A, with slight, pale mucro, spreading, plane, with margins narrowly incurling, smooth and of heavy substance, overlapping half or more; the inner segments more nearly ovate, shouldered at base, scarcely mucronate; corona 35mm long, cylindrical, angled, vivid yellow 13A, some years light orange 23A, mouth straight, ribbed, wavy to a little frilled, with rim notched and crenate. Tall. Mid-season to late. Sweetly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0136258)

'Kilmacurragh' 2 WWY-Y

(Brian S.Duncan, 2010) Seamus O'Brien, 2020

N. asturiensis × *N. poeticus*; sdlg no. 3695

Fl. star-shaped, 55mm wide; perianth segments 19mm long, narrowly ovate, acute, mucronate, white, touched yellow at base, spreading or a little inflexed, plane or with margins narrowly incurling, smooth and of heavy substance, overlapping at base only; the inner segments scarcely mucronate; corona 16mm long, narrow funnel-shaped, angled, yellow, mouth ribbed, straight and wavy, with rim notched. Dwarf. Early. Nomenclatural Standard: colour print supplied by registrant (WSY0136852)

Etymology: Named for Kilmacurragh, Co. Wicklow

'Kurfurstin Sophie' 4 G/W-Y

(Brian S.Duncan) Narveco, 2020

Parentage unknown

Fl. 90mm wide, facing upwards; perianth and other petaloid segments in several whorls, 35mm long; the outer whorls broadly ovate, blunt or truncate, mucronate, strong yellow-green 144A, with midrib showing and of heavy substance; the inner whorls successively shorter and more inflexed towards centre, more nearly white (NN155A), folded inwards from midrib or with margins strongly incurved; corona segments very short, vivid yellow 9B, interspersed among the inner perianth segments. Mid-season. Sweetly scented.

Nomenclatural Standard: colour print supplied by KAVB (WSY0136804)

'Lady Benholm' 2 W-W

(Brian S.Duncan) Esker Farm Daffodils, 2020

'Chinchilla' × 'Nightflight'; sdlg no. 4072

Fl. forming a double triangle, 126mm wide; perianth segments 52mm long, broadly ovate, blunt, mucronate, spreading, plane or with margins incurved, with midrib showing, of heavy substance,

overlapping half; corona 42mm long, cylindrical, broadly ribbed, mouth straight and lightly frilled, with rim broadly flanged and somewhat notched. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0136726)

Etymology: Named for Fiona Strachan (Lady Benholm), as gifted by her daughters

'Lady Madonna' 6 W-W

(J.de Winter) M.H.van der Zon & Zn, 2020

Parentage unknown

Fl. forming a double triangle, 110mm wide; perianth segments 50mm long, ovate, rounded at apex, opening light yellow-orange (11D), becoming greenish white 155A, touched light yellow-orange (11D) at base, reflexed, plane, with margins wavy, with midrib showing and of heavy substance, overlapping at base only; the inner segments narrower; corona 40mm long, funnel-shaped, ribbed, opening light yellow-orange (11D), becoming white 155A, touched yellowish green-brown (151B) at base, mouth a little expanded and lightly frilled, with rim narrowly flanged and crenate. Early.

Nomenclatural Standard: colour print supplied by KAVB (WSY0136718)

'Lamorna Laity' 7 Y-YYR

(R.A.Scamp, 1996) R.A.Scamp, 2020

Parentage unknown; sdlg no. 706 116x91

Fls 2–3 per stem, forming a double triangle, 70mm wide; perianth segments 29mm long, ovate, rounded, yellow, with pale mucro, spreading, plane or with margins somewhat incurved, with midrib showing, of heavy substance, overlapping half; the inner segments scarcely narrower, shouldered at base, scarcely mucronate; corona 10mm long, bowl-shaped, smooth, yellow, with a narrow band of red at rim, mouth straight and wavy, with rim crenate. Mid-season. Sweetly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0136747)

Etymology: Popular Cornish family name

'Lemon Breeze' 6 Y-Y

(Mrs Anne Wright, 2009) Mrs Anne Wright, 2020

N. watieri × *N. cyclamineus*; sdlg no. 2661-B

Fl. star-shaped, facing downwards; perianth segments 11mm long, ovate, blunt, brilliant greenish yellow 6C, with slight, pale mucro, a little reflexed, plane or with margins somewhat incurved, with midrib showing, of heavy substance, overlapping a quarter; the inner segments narrower; corona 11mm long, cylindrical, smooth, brilliant greenish yellow 5B, mouth a little expanded, ribbed and even, with rim dentate. Dwarf. Early. Slightly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0136643)

'Lemon Flounce' 4 Y/W-WWY

(Nial Watson, 2012) Ringhaddy Daffodils, 2020 ('Baldock' × 'Filoli') × 'Eype'; sdlg no. W960
Fl. 105mm wide; perianth and other petaloid segments 44mm long, broadly ovate, blunt, brilliant greenish yellow 6A, with yellowish white midrib and mucro, spreading, plane, with margins narrowly incurling, smooth and of heavy substance; the inner segments successively shorter towards centre; corona segments 34mm long, mostly clustered at centre, white, with a broad band of light greenish yellow 8B at margin, narrower than perianth segments, concave or folded inwards from midrib, wavy to lightly frilled. Late. Sweetly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0136297)

'Lemon Pride' 3 Y-Y

(Brian S.Duncan) Esker Farm Daffodils, 2020 ('Moon Shadow' × 'Lemma'; sdlg no. 3644
Fl. forming a double triangle, 120mm wide; perianth segments 48mm long, roundish, blunt, mucronate, spreading, plane, creased and of heavy substance, overlapping half; the inner segments narrower, more nearly ovate, shouldered at base, scarcely mucronate; corona 13mm long, bowl-shaped, smooth, mouth expanded, wavy or lightly frilled, with rim minutely crenate. Mid-season to late.
Nomenclatural Standard: colour print supplied by registrant (WSY0136697)

'Lennart' 4 W-Y

(unknown) H.Wijnhout, 2019
Syns. 'Double Diamond', 'Double Diamond'
Parentage unknown
Fl. 95mm wide; perianth and other petaloid segments 35mm long, greenish white 155C, in several whorls; the outer whorls very broadly ovate, spreading, plane, smooth and of heavy substance, overlapping half or more; the inner segments narrower; the inner whorls successively shorter and more strongly inflexed towards the centre, concave or folded inwards along midrib; corona segments 25mm long, light yellow 10B, interspersed among the inner whorls of petaloid segments, frilled, becoming more crumpled towards the centre. Early.
Nomenclatural Standard: colour print supplied by KAVB (WSY0136596)

'Lime Cooler' 5 Y-W

(Brian S.Duncan, 2012) Brian S.Duncan, 2020 'Regeneration' × *N. triandrus* subsp. *triandrus*; sdlg no. 4011
Fls 3 per stem, star-shaped, 62mm wide, facing downwards; perianth segments 28mm long, ovate or oblong, blunt, lime yellow, paler towards base, with prominent white mucro, reflexed, plane or with margins incurved from midrib, smooth and of heavy substance, overlapping at base only; corona 12mm long, cup-shaped, smooth, white, straight, even to a little wavy, with rim minutely crenate. Dwarf. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0136785)

'Limon Sul Garda' 1 Y-Y

(K.van der Veek) Bloembollenkwekerij Veul BV, 2020
Parentage unknown
Fl. forming a double triangle, 100mm wide; perianth segments 40mm long, ovate, blunt, mucronate, pale greenish yellow 2D, spreading, plane, with margins incurling, with midrib showing, of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate; corona 40mm long, funnel-shaped, ribbed, vivid yellow 9A, mouth expanded, frilled and irregularly lobed, with rim broadly flanged to slightly rolled. Early. Strongly and sweetly scented.
Nomenclatural Standard: colour print supplied by KAVB (WSY0136722)

'Little Beacon' 2 W-Y

(Brian S.Duncan, 2010) Brian S.Duncan, 2020 'Little Beauty' × *N. poeticus*; sdlg no. 3932
Fl. star-shaped, 48mm wide; perianth segments 19mm long, ovate, blunt, mucronate, white, spreading, plane or with margins a little wavy, with midrib showing, of membranaceous substance, overlapping a quarter; the inner segments acute at apex, scarcely mucronate; corona 11mm long, narrow funnel-shaped, broadly ribbed, deep lemon yellow, mouth straight and wavy to lightly frilled, with rim notched. Dwarf. Very early to early.
Nomenclatural Standard: colour print supplied by registrant (WSY0136787)

'Little Gossip' 2 Y-Y

(Brian S.Duncan) Brian S.Duncan, 2019
'Small Talk' × *N. rupicola*; sdlg no. 3057
Fl. 30mm wide; perianth segments 11mm long, ovate, blunt, yellow, with prominent pale mucro, spreading, plane or with margins a little incurved, prominent parallel venation, of membranaceous substance, overlapping one-third; the inner segments narrower; corona 9mm long, funnel-shaped, smooth, yellow, mouth straight and slightly wavy, with rim entire. Dwarf. Very early.
Nomenclatural Standard: colour print supplied by registrant (WSY0136615)

'Lobelle' 5 Y-Y

(Brian S.Duncan, 2010) Brian S.Duncan, 2020 'Hillstar' × 'Little Bell'; sdlg no. 3611
Fls 3 per stem, 68mm wide, facing downwards; perianth segments 28mm long, ovate, blunt or truncate, scarcely mucronate, reflexed, with margins incurved from midrib, smooth and of heavy substance, overlapping at base only; corona 18mm long, cup-shaped, smooth, mouth straight, even, shallowly six-lobed, with rim entire. Mid-season to late.
Nomenclatural Standard: colour print supplied by registrant (WSY0136789)

'Lovers' Leap' 1 Y-Y

(W.G.Pannill, 2015) Coates Clark, 2020
 ?'Urbane' × 'Newport'; sdlg no. 89/35-1
 Fl. forming a double triangle, 96mm wide, facing upwards; perianth segments 38mm long, ovate, blunt or truncate at apex, yellow, with slight, pale mucro, a little reflexed, plane or with margins incurved, with midrib showing and of heavy substance, overlapping half or more; the inner segments narrower, scarcely mucronate; corona 45mm long, funnel-shaped, smooth, yellow, darker in tone than perianth segments, mouth straight and frilled, with rim flanged and notched. Tall. Mid-season. Sweetly scented.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136292)

'Lucy Giles' 1 Y-P

(Brian S.Duncan, 2012) Brian S.Duncan, 2020
 'Bronzewing' × 'Azocor'; sdlg no. 3988
 Fl. forming a double triangle, 112mm wide; perianth segments 43mm long, broadly ovate, blunt, lime yellow, with slight, pale mucro, spreading, plane, with margins incurving, creased and of membranaceous substance, overlapping half; the inner segments narrower, shouldered at base; corona 46mm long, narrow funnel-shaped, broadly ribbed, pink, a little darker in tone at rim, mouth straight, lightly frilled, with rim flanged and notched. Early to mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136791)

'Mariner' 11a W-P

(K.van der Veek) Fa. Kuiper & Zn, 2020
 Parentage unknown
 Fl. forming a double triangle, 100mm wide; perianth segments 40mm long, very broadly ovate, rounded to blunt at apex, mucronate, greenish white 155A, a little reflexed, plane, with margins incurving, with midrib showing, of membranaceous substance, overlapping at base; the inner segments more nearly spreading; corona 35mm long, split almost to base, the six segments each overlaying a perianth segment, forming an inner and an outer whorl of three, orange-pink (35C), heavily frilled. Early.
 Nomenclatural Standard: colour print supplied by KAVB (WSY0136721)

'Marius' 2 WWY-Y

(Brian S.Duncan) Brian S.Duncan, 2020
N. primigenius × *N. poeticus*; sdlg no. 4144
 Fl. star-shaped, 52mm wide; perianth segments 22mm long, narrowly ovate, blunt, white, touched yellow at base, spreading, twisted, smooth and of heavy substance, separated; corona 10mm long, narrowly funnel-shaped, broadly ribbed, deep orange-yellow, mouth straight, wavy to lightly frilled, with rim crenate. Dwarf. Early.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136781)
 Etymology: Named after suitor of Cosette from 'Les Misérables'

'Mary Ann Kelly' 2 Y-YP

(Brian S.Duncan, 2013) Mrs Michaeline Kelly, 2019
 Reed sdlg × 'Tickled Pink'; sdlg no. 3872
 Fl. forming a double triangle, 115mm wide; perianth segments 46mm long, broadly ovate, blunt, lemon yellow, paler towards base, with slight, pale mucro, spreading, plane, creased and of membranaceous substance, overlapping half; the inner segments narrower, with margins incurved, shouldered at base; corona 36mm long, funnel-shaped, angled, pink, with pinkish yellow at base. Mid-season.
 Nomenclatural Standard: colour print supplied by B.S.Duncan (WSY0136261)

'Mary B. Haley' 2 W-W

(Brian S.Duncan) Terry Haley, 2019
 'Chinchilla' × 'Nightflight'; sdlg no. 3845
 Fl. forming a double triangle, 125mm wide; perianth segments 54mm long, broadly ovate, blunt, slightly mucronate, spreading, plane or with margins a little incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, with midrib showing; corona 39mm long, funnel-shaped, broadly ribbed, mouth straight and shallowly lobed, with rim crenate. Mid-season.
 Nomenclatural Standard: colour print supplied by B.S.Duncan (WSY0136265)

'Maura Burns' 1 W-P

(Brian S.Duncan, 2006) Charles M.Burns, 2019
 'Ben Aligin' × 'Diversity'; sdlg no. 3430
 Fl. forming a double triangle, 105mm wide; perianth segments 41mm long, very broadly ovate, blunt, mucronate, white, slightly reflexed, plane, smooth and of membranaceous substance, overlapping half or more; the inner segments narrower, shouldered at base, scarcely mucronate; corona 42mm long, narrowly funnel-shaped, angled, apple blossom pink, becoming paler at rim, mouth straight and even, with rim notched and narrowly flanged. Early to Mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136298)

'McFarland' 3 W-YYO

(M.W.Carney, 2010) M.W.Carney, 2020
 'Walden Pond' × 'Witch Doctor'; sdlg no. 04-56-02
 Fl. forming a double triangle, 93mm wide; perianth segments 36mm long, ovate, truncate, slightly mucronate, white, spreading, plane, with margins incurving, smooth and of heavy substance, overlapping one-third; the inner segments narrower, scarcely mucronate; corona 12mm long, bowl-shaped, narrowly ribbed, yellow, with a narrow band of orange at rim, mouth expanded, frilled and irregularly lobed, with lobes overlapping, with rim dentate. Late.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136712)
 Etymology: named for J. Horace McFarland (1859–1948), leading proponent of the "City Beautiful Movement" in the United States

'McRae' 2 Y-O

(Brian S.Duncan, 2013) Brendan Sayers, 2020
 'Lennymore' × 'Corby Candle'; sdlg no. 4297
 Fl. forming a double triangle; perianth segments broadly ovate, blunt, yellow, with slight, pale mucro, spreading, plane, with margins incurved or incurling, smooth and of heavy substance, overlapping half; the inner segments a little narrower and slightly inflexed; corona narrow funnel-shaped, angled, orange, mouth straight, ribbed and lightly frilled, with rim notched and narrowly flanged. Sweetly scented.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136799)
 Etymology: family surname

'Mica' 2 W-W

(Mrs Anne Wright, 2014) Mrs Anne Wright, 2020
N. watieri × 'Candlepower'; sdlg no. 3345-3-14
 Fl. 36mm wide; perianth segments 14mm long, ovate, blunt, prominently mucronate, greenish white 155C, spreading, plane, smooth and of heavy substance, overlapping one-third; the inner segments a little narrower; corona 12mm long, funnel-shaped, angled, opening pale greenish yellow 1D, maturing to greenish white 155C, mouth slightly flared, ribbed, wavy to lightly frilled, with rim notched. Dwarf. Slightly scented.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136651)
 Etymology: silvery mineral

'Myriel' 2 W-W

(Brian S.Duncan, 2010) Brian S.Duncan, 2020
 'Camborne' × *N. poeticus* W:30; sdlg no. 3829
 Fl. 55mm wide; perianth segments 33mm long, ovate, blunt, prominently mucronate, spreading to a little inflexed, plane or with margins incurved, with midrib showing, of heavy substance, overlapping one-third; the inner segments narrower, with margins somewhat wavy, scarcely mucronate; corona 16mm long, narrowly funnel-shaped to cylindrical, broadly ribbed, mouth straight, wavy and very lightly frilled, with rim crenate. Dwarf. Early.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136782)
 Etymology: Bishop of Digne from 'Les Miserables'

'Nancy McClafferty' 2 Y-Y

(Brian S.Duncan) Sean McClafferty, 2020
 'Arlaston' × 'Gold Convention'; sdlg no. 3915
 Fl. 110mm wide; perianth segments 44mm long, deep yellow; corona 42mm long, cylindrical, strong orange-yellow, deeper in tone than corona, mouth straight, with rim entire. Mid-season.
 Etymology: named for the registrant's late mother

'Nancy's Kindness' 2 Y-O

(Brian S.Duncan, 2014) Sean McClafferty, 2019
 'Gold Bond' × 'Online'; sdlg no. 4397
 Fl. forming a double triangle, 107mm wide; perianth segments 38mm long, very broadly ovate, blunt, deep yellow, with scarce pale mucro, spreading, shallowly concave, smooth and of membranaceous substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 32mm long, narrowly funnel-shaped, broadly ribbed, warm orange, mouth straight, wavy and shallowly lobed, with rim minutely crenate. Mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136616)
 Etymology: named for registrant's mother

'Nanny Beattie' 2 Y-YOO

(Brian S.Duncan, 2007) Pearl Stewart, 2019
 'Red Reed' × 'Lutana'; sdlg no. 3398
 Fl. 100mm wide; perianth segments 41mm long, roundish, very broad, blunt, scarcely mucronate, mid-yellow, spreading, plane, with midrib showing, of membranaceous substance, overlapping half; corona 37mm long, funnel-shaped, smooth, orange, with yellow at base, mouth expanded and a little wavy, with rim crenate. Early to mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136637)
 Etymology: to celebrate the 104th birthday of Nanny Beattie

'Neon Promise' 2 W-P

(Gordon Coombes, 2012) Gordon Coombes, 2019
 'Neon Blaze' × 'Eastern Promise'; sdlg no. G22-12
 Fl. forming a double triangle, 115mm wide; perianth segments 48mm wide, roundish, very broad, slightly mucronate, white, spreading, plane or with margins shallowly incurved, smooth and of heavy substance, overlapping half or more; the inner segments narrower, scarcely mucronate; corona 25mm wide, funnel-shaped, ribbed, pale apricot pink, with a very broad band of bright apricot pink at rim, mouth flared and frilled, with rim dentate. Late. Strongly scented.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136627)

'Neon Star' 3 W-R

(Gordon Coombes, 2012) Gordon Coombes, 2019
 'Newcomer' × 'Ruby Lustre'; sdlg no. G24-12
 Fl. forming a double triangle, 92mm wide; perianth segments 42mm long, broadly ovate, rounded, slightly mucronate, white, spreading, plane or with margins incurved, smooth and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 13mm long, cup-shaped, ribbed, deep pinkish red, mouth straight and lightly frilled, with rim dentate. Late. Strongly scented.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136631)

'Newbie' 2 W-P

(Gordon Coombes, 2012) Gordon Coombes, 2019
'Newcomer' × 'Ruby Lustre'; sdlg no. G24-12
Fl. 75mm wide; perianth segments 32mm long, roundish, very broad, truncate, prominently mucronate, white, spreading, plane or with margins incurved, smooth and of heavy substance, overlapping half or more; the inner segments narrower, scarcely mucronate; corona 12mm long, bowl-shaped, angled, deep reddish pink, becoming deeper in tone at rim, mouth expanded, ribbed and frilled, with rim dentate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0136628)

'Octopoda' 8 W-Y

(W.R.P.Welch) Bloembollenkwekerij Veul BV, 2020
Parentage unknown
Fls up to 14 per stem, forming a double triangle, 35mm wide, at right angles to stem or facing downwards; perianth segments 15mm long, ovate, blunt, prominently mucronate, greenish white 155C, reflexed, concave, with margins somewhat incurving, with midrib showing, of heavy substance, overlapping half; corona 6mm long, cup-shaped, smooth, vivid yellow 12A, mouth straight or a little constricted, slightly wavy, with rim entire. Dwarf. Early. Strongly scented.
Nomenclatural Standard: colour print supplied by KAVB (WSY0136723)

'Orandante' 3 Y-O

(Brian S.Duncan, 2012) Brian S.Duncan, 2020
Sdlg 3005 ('Jake' × Sdlg 1776) × Sdlg 2510 ('Shindig' × Sdlg 85/25); sdlg no. 3890
Fl. forming a double triangle, 102mm wide; perianth segments 42mm long, roundish, very broad, truncate, mid-yellow, with slight, pale mucro, spreading, plane, with margins incurving, smooth and of heavy substance, overlapping half; the inner segments narrower, more nearly ovate; corona 13mm long, cup-shaped, angled, deep reddish orange, mouth ribbed, wavy to very lightly frilled, with rim notched. Mid-season to late.
Nomenclatural Standard: colour print supplied by registrant (WSY0136794)

'Orange Squash' 11a W-O

(Nial Watson, 2012) Ringhaddy Daffodils, 2020
'Pampaluna' × 'Drama Queen'; sdlg no. W949
Fl. 112mm wide; perianth segments 48mm long, white; corona 23mm long, split into six segments, light orange 23A. Late. Sweetly scented.

'Orange Trim' 3 W-YYO

(Brian S.Duncan) Brian S.Duncan, 2020
'Glen Lake' open pollinated; sdlg no. 3990
Fl. forming a double triangle, 112mm wide; perianth segments 43mm long, broadly ovate, truncate, slightly mucronate, pure white, spreading, plane, with margins incurving, with midrib showing, of membranaceous substance, overlapping half; the inner segments narrower, scarcely mucronate,

shouldered at base; corona 13mm long, bowl-shaped, smooth, pale lemon-yellow, with a sharply defined band of orange at rim, mouth straight, wavy and shallowly lobed, with lobes somewhat overlapping, with rim minutely crenate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0136796)

'Overdue' 1 W-W

(Brian S.Duncan, 2007) F.Charlton, 2020
'Sherpa' × 'Nightflight'; sdlg no. 3446
Fl. 133mm wide, pure glistening white; perianth segments 54mm long, broadly ovate, blunt, slightly mucronate, spreading, plane or with margins somewhat incurved, creased and of membranaceous substance, overlapping half; the inner segments narrower; corona 57mm long, smooth, narrowly funnel-shaped, mouth straight, wavy and notched, with rim minutely crenate. Early to mid-season.
Nomenclatural Standard: colour print supplied by hybridizer (WSY0136684)

'Pastel Choice' 1 W-P

(Brian S.Duncan) Brian S.Duncan, 2020
'Ben Aligin' × Sdlg 2060 ('Pink Silk' × 'Chanson'); sdlg no. 3303
Fl. forming a double triangle, 115mm wide; perianth segments 44mm long, broadly ovate, blunt, mucronate, white, touched yellowish pink at base, spreading, plane or with margins a little incurved, with midrib showing, of membranaceous substance; the inner segments narrower, shouldered at base; corona 45mm long, cylindrical to narrow funnel-shaped, angled, apple blossom pink, mouth straight and a little wavy, with rim notched and flanged. Early to mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0136820)

'Perpetua' 7 Y-Y

(Brian S.Duncan, 2007) Brian S.Duncan, 2019
'Perpetuation' × 'Sweet Georgia'; sdlg no. 3676
Fls 3 per stem, forming a double triangle, 56mm wide, deep yellow; perianth segments 20mm long, ovate, blunt, with pale mucro, spreading, plane, with margins incurving, smooth and of heavy substance, overlapping half; the inner segments narrower; corona 9mm long, funnel-shaped, smooth, mouth a little expanded, ribbed and wavy, with rim minutely crenate. Late to very late.
Nomenclatural Standard: colour print supplied by registrant (WSY0136607)
Etymology: blend of friend's name and seed parent

'Pigeon Post' 4 Y/W-Y

(Nial Watson, 2007) Ringhaddy Daffodils, 2020
Parentage unknown; sdlg no. W681
Fl. 74mm wide; perianth and other petaloid segments 30mm long, broadly ovate, rounded at apex, light greenish yellow 5C, with yellowish white midrib, spreading, plane or with margins slightly incurved,

smooth and of heavy substance; the inner segments successively shorter and more inflexed towards centre; corona segments 23mm long, interspersed among the inner perianth segments and clustered at centre, brilliant yellow 8A, filled and minutely crenate. Tall. Late. Sweetly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0136295)

'Pink Pioneer' 1 P-P

(Brian S.Duncan) Brian S.Duncan, 2020
'American Heritage' × 'Hyperbole'; sdlg no. 3571
Fl. forming a double triangle, 105mm wide; perianth segments 40mm long, broadly ovate, blunt, creamy pink, with paler mucro, a little reflexed, shallowly concave or with margins a little wavy, overlapping one-third; the inner segments narrower, more nearly spreading; corona 42mm long, cylindrical, angled, deep reddish pink, mouth straight, broadly ribbed, lightly frilled, lobed, with lobes overlapping, with rim flanged and crenate. Early.
Nomenclatural Standard: colour print supplied by registrant (WSY0136825)

'Pink Progress' 3 W-YYP

(Brian S.Duncan, 2013) Brian S.Duncan, 2020
'Pink Haze' × 'Toretta'; sdlg no. 4345
Fl. forming a double triangle, 102mm wide; perianth segments 38mm long, broadly ovate, blunt, slightly mucronate, white, spreading, plane, with margins sometimes narrowly incurling, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base, truncate, scarcely mucronate; corona 12mm long, broad funnel-shaped, smooth, opening pink, becoming yellow with a broad band of pink at rim, mouth finely ribbed and a little flared, with rim shallowly notched. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0136830)

'Pre Party' 6 W-Y

(A.P.van Ruiten) M.H.van der Zon & Zn, 2020
Parentage unknown
Fl. forming a double triangle, 80mm wide, at right angle to stem or facing downwards; perianth segments 35mm long, ovate, rounded at apex, slightly mucronate, greenish white 155A, reflexed, plane, with margins recurved, with midrib showing and of membranaceous substance, overlapping a quarter; the inner segments narrower, more nearly plane; corona 25mm long, funnel-shaped, ribbed, brilliant greenish yellow 6A, mouth straight and frilled, with rim flanged and notched. Dwarf. Very early.
Nomenclatural Standard: colour print supplied by KAVB (WSY0136716)

'Rachelle' 2 Y-R

(Brian S.Duncan, 2007) Mrs Valerie McCaffrey, 2019
'Jake' × 'Skywalker'; sdlg no. 3746
Fl. forming a double triangle, 118mm wide; perianth segments 51mm long, very broadly ovate, blunt, mucronate, deep yellow, spreading, plane, smooth and of heavy substance, overlapping half or more; the inner segments narrower, shouldered at base; corona 18mm long, funnel-shaped, smooth, deep orange-red, mouth straight, wavy, shallowly lobed and lightly frilled, with rim crenate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0136624)

'Ravensdene' 2 W-P

(Brian S.Duncan) Rosemary Thomas, 2019
'Amazing Grace' × 'Eastern Promise'; sdlg no. 3502
Fl. forming a double triangle, 103mm wide; perianth segments 45mm long, very broadly ovate, rounded, white, spreading, plane, with margins slightly incurling, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 24mm long, cup-shaped, broadly ribbed, deep rose pink, mouth wavy and a little expanded, with rim slightly flanged and entire. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0136622)

'Red Rebellion' 2 Y-R

(Brian S.Duncan) Esker Farm Daffodils, 2020
'Leaf Peeper' × 'Tropical Heat'; sdlg no. 3508
Fl. forming a double triangle, 103mm wide; perianth segments 40mm long, ovate, truncate, yellow, with slight, pale mucro, spreading, plane, creased and of membranaceous substance, overlapping half; the inner segments narrower, shouldered at base, scarcely mucronate; corona 26mm long, cup-shaped, smooth, red, mouth expanded and lightly frilled, with rim minutely crenate, irregularly and shallowly notched. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0136689)

'Regular Guy' 2 Y-O

(Brian S.Duncan) Esker Farm Daffodils, 2020
'Likely Lad' unreg × 'Outline'; sdlg no. 3922
Fl. 120mm wide; perianth segments 46mm long, roundish, very broad, blunt, spreading, plane, with margins incurling, creased and of membranaceous substance, overlapping half or more; the inner segments narrower, ovate, shouldered at base; corona 16mm long, cup-shaped, smooth, mouth expanded and even, with rim entire. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0136696)

'Roaring Ron' 2 Y-OOR

(Brian S.Duncan, 2010) Susan Duncan, 2020
 'Angelito' × 'Causeway Sunset'; sdlg no. 3600
 Fl. forming a double triangle, 90mm wide; perianth segments 37mm long, roundish, very broad, blunt, golden yellow, with slight, pale mucro, spreading, plane or with margins a little incurved, smooth and of heavy substance, overlapping half; the inner segments narrower, more nearly ovate, shouldered at base, scarcely mucronate; corona 14mm long, bowl-shaped, smooth, brilliant orange, with a broad band of red at rim, mouth straight and wavy to lightly frilled, with rim crenate. Mid-season.
 Nomenclatural Standard: colour print supplied by hybridizer (WSY0136849)
 Etymology: named for Registrant's husband whose astrological sign is Leo, the Lion – and he roars!

'Romane Allen' 3 Y-Y

(J.L.Akers, 2019) J.L.Akers, 2020
 Panna Cotta Group × 'Little Kibler'; sdlg no. JLA429 clone 2
 Fl. star-shaped, 25mm wide; perianth segments 11mm long, narrowly ovate, blunt, yellow, with pale mucro, spreading, plane or with margins slightly incurved, smooth and of heavy substance, overlapping a quarter; the inner segments narrower, scarcely mucronate; corona 3mm long, broad disc-shaped, smooth, yellow, mouth straight, even and six-lobed, with rim entire. Dwarf. Very early.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136245)
 Etymology: named for registrant's granddaughter

'Romantic Paradise' 4 W-R

(Leenen Innovation BV, 2003) Leenen Innovation BV, 2020
 Parentage unknown; sdlg no. nvo9597-117
 Fl. 80mm wide. Mid-season

'Rory's Rose' 2 W-P

(Nial Watson, 2012) Ringhaddy Daffodils, 2020
 'Lapwing' × 'Brooke Ager'; sdlg no. W930
 Fl. forming a double triangle, 61mm wide; perianth segments 26mm long, roundish, very broad, blunt, prominently mucronate, white, spreading, plane or with margins a little incurved, creased and of heavy substance, overlapping half; the inner segments narrower, shouldered at base, less prominently mucronate; corona 22mm long, cup-shaped, ribbed, strong yellowish pink 37B, slightly paler in tone at rim, mouth a little expanded, wavy to lightly frilled, with rim dentate. Dwarf. Mid-season to late. Sweetly scented.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136293)
 Etymology: named for registrant's cousin, Rory, and his wife, Rose

'Ruth Blakely' 7 W-YPP

(Brian S.Duncan) Esker Farm Daffodils, 2020
 Sdlg ('Quick Step' open pollinated) × 'Fragrant Rose'; sdlg no. 2673
 Fls 2–3 per stem, 54mm wide; perianth segments 21mm long, ovate, blunt, slightly mucronate, spreading or a little reflexed, shallowly concave, with midrib showing, of heavy substance, overlapping half; the inner segments narrower; corona 10mm long, bowl-shaped, smooth, mouth wavy or lightly frilled, shallowly lobed, lobes sometimes overlapping, with rim crenate. Mid-season. Scented.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136695)

'Ruudi' 3 W-YYO

(Brian S.Duncan, 2012) Karen Duncan, 2020
 'Camaraderie' × 'Doctor Hugh'; sdlg no. 4115
 Fl. rounded, 110mm wide; perianth segments 46mm long, broadly ovate, blunt, mucronate, white, spreading, plane, creased and of membranaceous substance, overlapping half or more; the inner segments a little narrower; corona 12mm long, shallow bowl-shaped, smooth, yellow, blending into a band of orange at rim, mouth ribbed, wavy and sometimes lobed, with rim crenate. Mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136850)
 Etymology: Named for a dear, life-long friend

'Sam and Hazel' 5 W-W

(Brian S.Duncan) Esker Farm Daffodils, 2020
 'Narrative' × 'Little Bell'; sdlg no. 3889
 Fls 2 per stem, 65mm wide, facing downwards; perianth segments 27mm long, ovate, blunt, slightly mucronate, spreading, plane or with margins a little incurved, creased and of membranaceous substance, overlapping half; the inner segments a little narrower; corona 10mm long, cup-shaped, angled, mouth straight and even, with rim entire. Mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136703)

'Sandokan' 2 Y-YPP

(K.van der Veek) Fa.Kuiper & Zn, 2020
 Parentage unknown
 Fl. forming a double triangle, 100mm wide; perianth segments 45mm long, broadly ovate, blunt, greenish yellow 2D, with paler mucro, spreading, plane, with margins narrowly incurving, smooth and of heavy substance, overlapping half; the inner segments a little narrower, shouldered at base; corona 25mm long, narrow funnel-shaped, broadly ribbed, pink (161C), overlaid with tones of orange-brown (N170D), with yellow (9A) at base, mouth straight and wavy to lightly frilled, with rim crenate. Mid-season. Strongly scented.
 Nomenclatural Standard: colour print supplied by KAVB (WSY0136719)

‘Sandra’s Choice’ 5 W-W

(Brian S.Duncan, 2011) F.Charlton, 2020

‘Hillstar’ × ‘Little Bell’; sdlg no. 3612

Fls 3–6 per stem; perianth segments lanceolate, blunt, scarcely mucronate, reflexed, plane or incurved from midrib, smooth and of membranaceous substance, overlapping half or less; corona cup-shaped, smooth, mouth straight, wavy and broadly ribbed, very slightly lobed, with rim entire. Early to mid-season. Nomenclatural Standard: colour print supplied by hybridizer (WSY0136683)

Etymology: In memory of a Denton Horticultural Society member, a lady who particularly admired this flower as a seedling

‘Sarah Marie Massie’ 2 W-YYO

(Lewis Turner, 2004) Lewis Turner, 2020

‘Opal Pearl’ × ‘Pops Legacy’; sdlg no. L95-53

Fl. rounded, 82mm wide, facing downwards; perianth segments 33mm long, roundish, very broad, truncate, white (NN155D), reflexed, concave, creased and of membranaceous substance, overlapping half or more; the inner segments shouldered at base, more nearly plane; corona 21mm long, cup-shaped, smooth, yellow, with a broad band of orange (26B) at rim, mouth expanded, broadly ribbed and lightly frilled, with rim dentate and somewhat flanged. Late.

Nomenclatural Standard: colour print supplied by registrant (WSY0136836)

‘Sharp Choice’ 1 W-Y

(Brian S.Duncan, 2011) Brian S.Duncan, 2020

‘Predator’ × ‘Queen’s Guard’; sdlg no. 4073

Fl. forming a double triangle, 110mm wide; perianth segments 42mm long, ovate, blunt, scarcely mucronate, white, with yellow at base, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 45mm long, funnel-shaped, smooth, yellow, mouth straight and a little wavy, with rim notched and minutely crenate. Early.

Nomenclatural Standard: colour print supplied by registrant (WSY0136803)

‘Sigurta’ 4 Y-Y

(Brian S.Duncan) Narveco, 2019

Parentage unknown

Fl. 100mm wide, facing upwards; perianth and other petaloid segments in several whorls, brilliant greenish yellow 5B; the outer whorl 45mm long, roundish, very broad, blunt, with scarce pale mucro, spreading, plane or with margins incurved, smooth and of heavy substance, overlapping half or more; the inner whorls narrower, successively shorter and more strongly inflexed towards centre, concave or folded inwards from midrib; corona segments 30mm long, orange-yellow (14A), interspersed among the inner petaloid segments, wavy, with rim entire. Mid-season. Sweetly scented.

Nomenclatural Standard: colour print supplied by KAVB (WSY0136602)

‘Silver Pearls’ 8 W-W

(Brian S.Duncan, 2007) Brian S.Duncan, 2020

‘Silver Crystal’ × *N. dubius*; sdlg no. 3315

Fls 2 per stem, 41mm wide, facing upwards; perianth segments 16mm long, roundish, very broad, prominently mucronate, spreading, plane or with margins a little incurved, creased and of membranaceous substance, overlapping half; the inner segments scarcely mucronate; corona 11mm long, cup-shaped, smooth, mouth a little expanded, ribbed and wavy, with rim entire. Dwarf. Mid-season to late. Nomenclatural Standard: colour print supplied by registrant (WSY0136805)

‘Snow Heaven’ 2 W-W

(Leenen Innovation BV, 2005) Leenen Innovation BV, 2020

Parentage unknown; sdlg no. nvo9597-96

Fl. 80mm wide. Mid-season

‘Snow Paradise’ 4 W-W

(Leenen Innovation BV, 2001) Leenen Innovation BV, 2020

Parentage unknown; sdlg no. nvo9497-276

Fl. 80mm wide. Mid-season

‘Sophie Rowena’ 2 YY-W-W

(Brian S.Duncan, 2010) Brian S.Duncan, 2020

‘Hillstar’ × Sdlg 96/70 (‘Azocor’ × ‘Thistin’); sdlg no. 3803

Fl. forming a double triangle, 96mm wide; perianth segments 37mm long, ovate, blunt, deep lemon yellow, touched white at base, with pale mucro, spreading, plane or with margins a little incurved, creased and of heavy substance, overlapping half; the inner segments narrower; corona 30mm long, funnel-shaped, angled, white, mouth straight and lightly frilled, with rim notched and somewhat flanged. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0136818)

Etymology: Named in honour of the girlfriend of registrant’s grandson

‘Splendid Isolation’ 3 W-YYO

(Nial Watson, 2013) Ringhaddy Daffodils, 2020

‘Haughty’ × ‘Moon Shadow’; sdlg no. W1013

Fl. forming a double triangle, 124mm wide; perianth segments 55mm long, roundish, very broad, blunt, white, prominently mucronate, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments more nearly ovate, scarcely mucronate; corona 15mm long, shallow bowl-shaped, ribbed, yellow 12A, with a narrow band of orange 17A at rim, mouth expanded, wavy, lobed, with lobes overlapping, with rim notched. Tall. Mid-season to late. Slightly scented.

Nomenclatural Standard: colour print supplied by registrant (WSY0136263)

'Split Gem' 11a Y-Y

(Brian S.Duncan, 2009) Brian S.Duncan, 2020
 'Miss Prim' × ?'Crevenagh'; sdlg no. 3556
 Fl. forming a double triangle, 85mm wide; perianth segments 31mm long, very broadly ovate, blunt, mid-yellow, with whitish mucro, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate, a little inflexed, shouldered at base, with margins a little incurved; corona segments 23mm long, split almost to base into six segments, each closely overlying and a little narrower than the perianth segments, forming an inner and an outer whorl of three, yellow, bi-lobed, with lobes sometimes overlapping, with rim minutely crenate. Early to mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136809)

'Split Precision' 11a Y-Y

(Brian S.Duncan) Brian S.Duncan, 2020
 Parentage unknown; sdlg no. 3623
 Fl. forming a double triangle, 75mm wide; perianth segments roundish, very broad, blunt, pale lemon-yellow, with slight, whitish mucro, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base, scarcely mucronate; corona segments 14mm long, split almost to base into six segments, each closely overlying and a little narrower than the perianth segments, forming an inner and an outer whorl of three, sometimes shallowly bi-lobed, deep yellow, wavy and notched. Standard (variable, sometimes dwarf). Early to mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136811)

'Spring Equinox' 1 Y-Y

(Brian S.Duncan, 2007) Brian S.Duncan, 2020
 'Ethos' × 'Impeccable'; sdlg no. 3546
 Fl. forming a double triangle, 110mm wide, deep yellow; perianth segments 45mm long, ovate, blunt, with whitish mucro, spreading, plane, with midrib showing, of membranaceous substance, overlapping half; the inner segments narrower, shouldered at base, corona 50mm long, cylindrical, angled, mouth straight, wavy to lightly frilled, with rim notched and narrowly flanged. Very early to early.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136817)

'Strong Love' 2 Y-O

(Dave Hardy, 2017) Esker Farm Daffodils, 2020
 'Triple Crown' × 'Gold Bond'; sdlg no. EF1701
 Fl. forming a double triangle, 90mm wide; perianth segments 36mm long, ovate, blunt, yellow, with prominent pale mucro, spreading, plane, creased and of membranaceous substance, overlapping half; the inner segments narrower, shouldered at base, scarcely mucronate; corona 33mm long, funnel-shaped, smooth, orange, mouth straight and a little wavy, with rim flared, irregularly notched and minutely

crenate. Early.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136253)

'Sunday Star' 4 Y-Y

(Bloembollenkwekerij Veul BV)
 Bloembollenkwekerij Veul BV, 2020
 PBR-NL granted 2019
 Parentage unknown
 Perianth and other petaloid segments in several whorls, smooth and of heavy substance; the outer whorl ovate, blunt, yellow 9A, with pale mucro, spreading, plane or with margins a little incurved, overlapping at base; the inner whorls a little narrower, successively shorter and more strongly inflexed towards the centre, less prominently mucronate; the inner perianth segments concave; corona segments half as long as the outer perianth segments, interspersed among the inner perianth segments and clustered at centre, orange-yellow 14A, frilled.
 Mid-season.
 Nomenclatural Standard: colour print supplied by KAVB (WSY0136647)

'Susan Marie' 2 Y-PY

(Brian S.Duncan) Esker Farm Daffodils, 2020
 'Filoli' × 'Zwynner'; sdlg no. 3916
 Fl. 115mm wide; perianth segments 50mm long, ovate, blunt, yellow, with slight, pale mucro, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 46mm long, funnel-shaped, smooth, pink, with yellow at rim, mouth straight, wavy or lightly frilled, with rim notched and crenate. Mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136691)

'Sweet Paradise' 4 W-P

(Leenen Innovation BV, 2004) Leenen Innovation BV, 2020
 Parentage unknown; sdlg no. nvo9497-133
 Fl. 80mm wide. Mid-season

'Teide' 2 W-P

(Brian S.Duncan) Esker Farm Daffodils, 2020
 'Eastern Promise' × 'Alto'; sdlg no. 3907
 Fl. 100mm wide; perianth segments 45mm long, roundish, very broad, blunt, spreading, plane, sometimes with margins incurving, creased, with midrib showing, of heavy substance, overlapping half or more; the inner segments narrower, more nearly ovate, shouldered at base, scarcely mucronate; corona 24mm long, cylindrical, angled, mouth wavy, a little flared, with rim crenate and shallowly notched. Mid-season.
 Nomenclatural Standard: colour print supplied by registrant (WSY0136694)

‘Ten Ten Ten’ 2 W-YYO

(Brian S.Duncan, 2010) Susan Duncan, 2020
Sdlg × ‘Glen Lake’; sdlg no. 3886
Fl. forming a double triangle, 103mm wide; perianth segments 43mm long, roundish, blunt, slightly mucronate, white, spreading, plane, creased and of heavy substance, overlapping half; the inner segments narrower, more nearly ovate, scarcely mucronate; corona 15mm long, funnel-shaped, angled, yellow, with a band of strong orange at rim, mouth straight and heavily frilled. Mid-season.
Nomenclatural Standard: colour print supplied by hybridizer (WSY0136851)
Etymology: Registrant’s wedding date and 10th wedding anniversary, the flower for which is the daffodil

‘Threesome’ 11a W-Y

(Brian S.Duncan, 2018) Brian S.Duncan, 2019
‘Maria Pia’ × *N. dubius*; sdlg no. 4940
Fls 3 per stem, 50mm wide; perianth segments ovate, blunt, spreading, concave, with margins incurving, smooth and of heavy substance, overlapping half; the inner segments narrower; corona split to half its length into six segments, each overlying a perianth segment, bi-lobed, entire. Dwarf. Early to mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0136614)

‘Tiramisu’ 11a W-P

(K.van der Veek) Bloembollenkwekerij Veul BV, 2020
Parentage unknown
Fl. forming a double triangle, 90mm wide, facing upwards; perianth segments 40mm long, ovate, blunt, prominently mucronate, opening light yellow (4D), becoming greenish white 157D at maturity, spreading, plane, with margins incurving, with midrib showing, of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate, somewhat inflexed; corona 25mm long, split to base into six segments, forming an inner and an outer whorl of three, each as wide as the perianth segments, orange-pink (24D), with rim orange-pink (24B) and with overtones of vivid yellow 9A at the base and rim, heavily frilled. Early. Strongly scented.
Nomenclatural Standard: colour print supplied by KAVB (WSY0136720)

‘Tom Pouce’ 2 YYW-P

(K.van der Veek) Fa. J.G.Weijers & Zn, 2019
Parentage unknown
Fl. forming a double triangle; perianth segments broadly ovate, blunt, brilliant greenish yellow 5B, white at base, pale mucro, spreading, plane or with margins incurved, creased, with midrib showing and of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate; corona funnel-shaped, angled, orange-pink (26C), mouth straight and wavy, six-lobed, with lobes overlapping, with rim flanged or rolled, and minutely crenate.
Nomenclatural Standard: colour print supplied by KAVB (WSY0136595)
Awards: Trials Garden Award (KAVB) 2019

‘Tor House’ 9 W-GYY

(Daniel Bellinger, 2010) Daniel Bellinger, 2020
‘Torr Head’ × ‘Angelic Choir’; sdlg no. 03.16.1
Fl. forming a double triangle, 66mm wide; perianth segments 28mm long, roundish, very broad, truncate, slightly mucronate, yellowish white 155D, spreading, plane or with margins somewhat incurved, smooth and of heavy substance, overlapping half or more; the inner segments narrower, more nearly ovate; corona 5mm long, bowl-shaped, ribbed, light greenish yellow 6D, becoming vivid yellow 9A, with moderate olive green (137A) ‘eye’, mouth straight and frilled, with rim crenate. Tall. Very late.
Nomenclatural Standard: colour print supplied by registrant (WSY0136713)
Etymology: Name of stone house hand-built by Californian poet Robinson Jeffers (1887–1962) on the sea-cliff at Monterey, CA

‘Triple Choice’ 5 W-W

(Brian S.Duncan) Brian S.Duncan, 2020
‘Hillstar’ × *N. triandrus* subsp. *triandrus*; sdlg no. 3971
Fls 3 per stem, star-shaped, 65mm wide, facing downwards; perianth segments 29mm long, narrowly ovate to oblong, blunt, prominently mucronate, spreading, plane or with margins incurved, overlapping a quarter to half; the inner segments scarcely mucronate; corona 14mm long, cup-shaped, smooth, mouth expanded and wavy, with rim minutely crenate. Dwarf. Mid-season to late.
Nomenclatural Standard: colour print supplied by registrant (WSY0136832)

‘Tristyle’ 5 Y-Y

(Brian S.Duncan, 2011) Brian S.Duncan, 2020
‘Hillstar’ × *N. triandrus* subsp. *triandrus*; sdlg no. 3921
Fls 3 per stem, star-shaped, 80mm wide, facing downwards, deep luminous lemon yellow; perianth segments 36mm long, ovate to oblong, blunt, with slight, pale mucro, reflexed, plane or with margins wavy to incurved, smooth and of heavy substance, overlapping one-third; the inner segments scarcely mucronate; corona 26mm long, cup-shaped, smooth, mouth straight and wavy, with rim minutely crenate. Dwarf. Mid-season to late.
Nomenclatural Standard: colour print supplied by registrant (WSY0136835)

‘Trumpet Song’ 1 Y-WWY

(Brian S.Duncan) Esker Farm Daffodils, 2020
‘Trumpet Warrior’ × ‘Gin and Lime’; sdlg no. 3863
Fl. 110mm wide; perianth segments 43mm long, roundish, very broad, blunt, yellow, touched white at base, with slight, white mucro, spreading, plane, creased and of heavy substance, overlapping half or more; the inner segments narrower, margins somewhat wavy, shouldered at base; corona 43mm long, funnel-shaped, angled, white, with a narrow band of yellow at rim, mouth straight, broadly ribbed, and lightly frilled, with rim widely flanged, notched and crenate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0136693)

'Twingold' 12 Y-Y

(Brian S.Duncan) Brian S.Duncan, 2019
N. cyclamineus × *N. jonquilla* var. *henriquesii*;
sdlg no. 2940

Fls 2 per stem, 40mm wide, facing downwards, deep yellow; perianth segments 18mm long, narrowly ovate to lanceolate, blunt, prominently mucronate, reflexed, plane, smooth and of heavy substance, overlapping at base only; the inner segments a little narrower; corona 15mm long, funnel-shaped, smooth, mouth straight or a little flared, and even, with rim entire and notched. Dwarf. Early.
Nomenclatural Standard: colour print supplied by registrant (WSY0136608)

'Valley Breeze' 6 Y-Y

(Gordon Coombes) Gordon Coombes, 2019
'Rapture' × 'Flight Path'; sdlg no. G5-14

Fl. 63mm wide, facing downwards; perianth segments 30mm long, ovate, blunt, mucronate, reflexed, convex, with margins recurved, smooth and of heavy substance, overlapping half or more; the inner segments a little narrower; corona 30mm long, cylindrical, smooth, mouth straight and even, with rim crenate. Dwarf. Mid-season. Strongly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0136632)

'Waylon' 4 Y-O

(H.Wijnhout) H.Wijnhout, 2019
Parentage unknown

Fl. 90mm wide; perianth and other petaloid segments in several whorls; the outer whorl 38mm long, roundish, very broad, blunt, orange-yellow (13B), spreading, concave, smooth and of heavy substance, overlapping half or more; the inner whorls ovate, successively shorter and more strongly inflexed towards centre, concave or folded inwards from midrib; corona segments 10mm long, vivid orange 28B, clustered among centre-most perianth segments, filled, with rim crenate. Mid-season.
Nomenclatural Standard: colour print supplied by KAVB (WSY0136600)

'Whispering Pink' 2 P-P

(Brian S.Duncan) Esker Farm Daffodils, 2020
'Dusky Maiden' × 'Pink Perry'; sdlg no. 3223
Fl. forming a double triangle, 105mm wide; perianth segments 45mm long, ovate, blunt, pink, with slight, pale micro, spreading, plane, with margins incurving, creased, with midrib showing, of heavy substance, overlapping half; the inner segments narrower, shouldered at base, scarcely mucronate; corona 28mm long, funnel-shaped, broadly ribbed, pink, stronger in tone than perianth segments, mouth straight, wavy to lightly frilled, somewhat flared, with rim notched and crenate. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0136690)

'Wild Song' 1 W-W

(Arno Kroon) Narveco, 2019
Parentage unknown

Fl. forming a double triangle, 125mm wide, facing upwards; perianth segments 55mm long, broadly ovate, blunt, prominently mucronate, spreading, plane or with margins incurved, with midrib showing, of heavy substance, overlapping half; the inner segments narrower, shouldered at base, scarcely mucronate; corona 55mm long, funnel-shaped, mouth flared, ribbed, wavy to lightly frilled, lobed, with lobes overlapping, with rim entire. Early. Sweetly scented.
Nomenclatural Standard: colour print supplied by KAVB (WSY0136598)

'Willems Choice' 1 Y-Y

(K.van der Veek) G.de Wit & Zn, 2019
Parentage unknown

Fl. forming a double triangle, 120mm wide, facing upwards; perianth segments 46mm long, ovate, blunt, stronger in tone than yellow 14A, with pale micro, spreading, plane or with margins incurved, with midrib showing, of heavy substance, overlapping half; the inner segments narrower; corona 46mm long, funnel-shaped, angled, yellow 14A, mouth straight, ribbed, wavy and lobed, with rim flanged and entire. Early.
Nomenclatural Standard: colour print supplied by KAVB (WSY0136259)

'Winterfell' 3 W-W

(Brian S.Duncan) Esker Farm Daffodils, 2020
'Silkwood' × 'Silver Crystal'; sdlg no. 3656

Fl. forming a double triangle, 132mm wide; perianth segments 57mm long, ovate, blunt, prominently mucronate, spreading, plane, creased, with midrib showing and of heavy substance, overlapping half; the inner segments narrower, scarcely mucronate; corona 15mm long, bowl-shaped, angled, mouth straight, frilled, lobed, with lobes overlapping, with rim crenate. Mid-season to late.
Nomenclatural Standard: colour print supplied by registrant (WSY0136692)

'Woround' 1 W-O

(Brian S.Duncan) Esker Farm Daffodils, 2020
'Red Reed' × 'Lutana'; sdlg no. 3305

Fl. 95mm wide; perianth segments 38mm long, roundish, very broad, blunt, prominently mucronate, spreading, plane or with margins incurved, smooth and of membranaceous substance, overlapping half; the inner segments a little narrower, shouldered at base, less prominently mucronate; corona 39mm long, funnel-shaped, angled, mouth broadly ribbed, straight and wavy, with rim notched and sometimes narrowly flanged. Mid-season.
Nomenclatural Standard: colour print supplied by registrant (WSY0136705)

'Wrenthorpe' 12 W-P

(J.L.Akers, 2018) J.L.Akers, 2020

N. triandrus subsp. *pallidulus* × Sdlg AH2W-P
(Newcomer sdlg); sdlg no. JLA18/4P

Fls usually one per stem, rounded, 61mm wide, facing downwards; perianth segments 28mm long, roundish, very broad, truncate, mucronate, spreading or a little reflexed, plane, with midrib showing, of heavy substance, overlapping half or more; the inner segments narrower, more nearly ovate, scarcely mucronate; corona 14mm long, bowl-shaped, smooth, mouth straight and even, with rim entire or minutely crenate. Mid-season. Sweetly scented.
Nomenclatural Standard: colour print supplied by registrant (WSY0136239)

Etymology: named for registrant's home village

'Yellow Paradise' 4 Y-Y

(W.F.Leenen & Zn, 2002) Leenen Innovation BV, 2019

Open-pollinated; sdlg no. nvo9597-63

Fl. rounded, 80mm wide; perianth segments roundish, spreading, concave. Mid-season. Sweetly scented.

'Zara's Delight' 2 Y-YYO

(Brian S.Duncan, 2007) Sean McClafferty, 2019

'Pacific Rim' × 'Boulder Bay'; sdlg no. 3079

Fl. forming a double triangle, 107mm wide; perianth segments 46mm long, very broadly ovate, blunt, slight, pale micro, spreading, plane, smooth and of heavy substance, overlapping half; the inner segments narrower, shouldered at base; corona 23mm long, funnel-shaped, smooth, mouth straight and even, irregularly and shallowly lobed, with rim entire. Mid-season.

Nomenclatural Standard: colour print supplied by registrant (WSY0136618)

Etymology: named for registrant's daughter

ADDITIONS AND AMENDMENTS TO THE INTERNATIONAL DAFFODIL REGISTER (2008) AND SUPPLEMENTS

The compilers are grateful to those who have drawn attention to omissions from the International Daffodil Register and its Supplements, pointed out errors, suggested changes or supplied new information. Amendments to cultivar names, divisions, colour codes, parentages, originators and registrants will usually be published in an annual Supplement. Amendments to descriptions will usually only be published in a new edition of the Register. However, all amendments will be published on the internet, in a regular updating of the Register posted at:

www.rhs.org.uk/plants/plantsmanship/plant-registration/Daffodil-cultivar-registration

ADDITIONS TO THE REGISTER (2008)

The following additions are detailed in Douglas Pett, Flower Growing on the Isles of Scilly (2009). Transcribed by Sally Kington September 2020:

'Allaris' ?1

(Spanish origin, pre-1887)

Selected by Peter Barr from wild-collected

N. pseudonarcissus

Published ref: Pett 2009

'Cardew' ?1
