

The International *Delphinium* Register Supplement 2006

Dr Janet J Cubey – International *Delphinium* Registrar

The following list contains the delphinium cultivar and cultivar-group names, which have been registered between 1st January 2006 and 31st December 2006. Raisers and introducers of new delphiniums are urged to ensure that the names of all their plants have been registered.

Registration forms can be obtained from the International *Delphinium* Registrar, Royal Horticultural Society's Garden, Wisley, Woking, Surrey GU23 6QB or from the RHS website at:

http://www.rhs.org.uk/plants/registration_delphinium.asp

There is no fee for registration, or for the Registration Certificate (when this is requested).

In the list below R = raiser, H = hybridiser, G = person who grow the plant to its first flowering, S = selected by, N = person naming the plant, I = introducer, REG = registrant.

Colour codes such as "71A" or "92D" refer to the RHS Colour Chart (1966, reprinted 1986, 1995, 2001).

'Cranberry Delight'

((line bred seedling from 'Cymbeline' ♂ x 'Patricia Johnson' ♀) ♂ x 'Summerfield Oberon' ♀) H (2003), G (2004), N, I & REG (2006): J D Flowerday. Stems short (1.4m). Foliage dark green, medium size, very similar to seed parent. Spikes 60cm, tapering to apex, with four moderately sized laterals. Flowers semi-double, 65mm wide, red-purple (71A) shading to a paler hue (70A) towards the eye; eye white with long yellow hairs; spur 20mm long; pedicel 60mm long.

Nomenclatural standard: colour print provided by registrant (WSY0103774)

'Justina'

cv. (Parentage unknown) G & S (2002), N (2005), I & REG (2006): D Goodgame. Stems medium (c. 1.8m). Leaves dark green. Spikes 90cm, tapering to apex, with 8 or more laterals. Flowers semi-double, mid purple with dark purple veining and dark purple picotee; eye white with a central purple stripe on each petal that broadens towards the apex; spur 20mm long; pedicel 60mm long.

Etymology: named after the registrant's mother-in-law.

Nomenclatural standard: colour slide provided by registrant (WSY0070624).

'Kirsty'

cv. ('Tiddles' ♀ x seedling of unknown parentage ♂) H (1988), N, I & REG (2006) D A K McGlashan, G (1989) K Sahin. Stems short (1.4m). Spikes 70cm, blunt with a slight taper and with several long laterals. Flowers fully double, 40-50mm wide, violet blue (92B) fading paler (92D) and with some of the outer sepals showing an infusion of blue (104C); up to 35 sepals per flower, of variable size, with the inner sepals covering the scanty pollen anthers; spur 8-10mm long; pedicel 50mm long.
