

THE INTERNATIONAL DIANTHUS REGISTER (1983) & CHECKLIST

TWENTY-SECOND SUPPLEMENT

The following list contains the names of *Dianthus* cultivars registered between 1 January 2004 and 31 December 2004.

Raisers and introducers of cultivars of *Dianthus* are urged to ensure that the names of all their plants have been registered and are reminded that registration should take place before a plant is released or the name is mentioned in print. Registration concerns all named cultivars. Registration forms can be obtained from the International Dianthus Registrar, Royal Horticultural Society's Garden, Wisley, Woking, Surrey GU23 6QB, England who will issue a certificate of registration on request. There is no fee. The form may also be downloaded from the RHS website at:

www.rhs.org.uk/plants/research/registration_dianthus.asp

The format of entries follows a pattern first adopted in the Fifth Supplement. Following the classification and name of each new cultivar a statement regarding parentage or origin is given in parenthesis. The names of those involved in the raising, introduction and registration of the plant are then given, together with relevant dates (R = raiser, H = hybridizer, G = grown to first flower by, S = selected by, N = named by, I = introducer, REG = registrant, L = listed by). When a date is given after a colon and without a name (e.g. REG: 1987) it can be assumed that the individual or firm involved is that immediately preceding it, e.g. R (1982) & I (1983): A. Smith REG: 1984 implies that the plant was raised by A. Smith in 1982, introduced by him in 1983 and registered by him in 1984.

Perpetual carnations are listed, where known, as sprays or standards. The use of the latter should not be confused with the citation of nomenclatural standards which refer to individual herbarium specimens or images (slides, prints etc.) which have been selected as the definitive point of reference should any doubt arise about the plant to which the name concerned should be applied.

Colour references such as 128D are to the RHS Colour Chart (1966, 1986, 1995, 2001), those such as 730/3 refer to the Horticultural Colour Chart (1941). The descriptions are as full and consistent as information provided by the registrant and other sources allows. Any additional material would be welcomed by the Registrar.

This publication is styled both as a Register and Checklist. As such it contains not only the most recent new registrations, but details of other plants for which information is available even though their names are not formally registered.

Dr A. C. Leslie, International Dianthus Registrar, 109 York Street, Cambridge CB1 2PZ, United Kingdom (email: alanleslie@rhs.org.uk).

(p) ‘Albion White-Lion’

cv. (‘Dainty Dame’ (s) × ‘Lionheart’). H: M. Romang (2002), G: M. Romang, N: M. Romang, REG: M. Romang (2004). Fls single, 35mm wide, white ground, with a deep red (60A), angular eye c12mm wide, ‘throat’ white; margins very deeply toothed, wavy; scented. Lvs 30-40mm long, dark yellowish green (189A). Plant of compact habit with stems 100mm tall (in the open). Flowering chiefly June-July, but can still produce flowers in October. (Nomenclatural standard: colour print provided by the registrant (WSY 0051733).)

(p) ‘Anders Gypsy’

cv. (‘Welton Beauty’ (s) × unknown). H: A.J. Derrick (2000), G: A.J. Derrick (2001), N: A.J. Derrick (2003), I: A.J. Derrick (2003), REG: A.J. Derrick (2004). Fls semi-double, 30mm wide, ground white, with a broad, very deep red eye and purplish red lacing within a paler rim; margins shallowly toothed; scented. Lvs dark blue-green. Stems 35cm (under glass); very vigorous.

(p) ‘Anders Jonty’

cv. (‘Oakwood Candy’ × ‘Anders Melanie Hastings’). H: A.J. Derrick (2001), G: A.J. Derrick (2002), N: A.J. Derrick (2003), I: A.J. Derrick (2003), REG: A.J. Derrick (2004). Fls fully double, 40mm wide, strong red self; margins very shallowly toothed; not scented. Lvs steely blue-green. Stems 30cm (under glass).

(p) *barbatus* ‘Heart Attack’

cv. (Selection from *barbatus*). R: unknown (pre- 1993), I: Plant Delights Nursery (c 2003). Fls clustered, single, very dark red self (with no purple overtones). Lvs dark green, not glaucous. Stems 30-80cm. Said to be more reliably perennial.

(b) ‘Betty’s Special’

cv. (‘Andrew Locker’ (s) × ‘Spinfield Grey’). H: P.W. Russell (2002), G: P.W. Russell (2003), N: P.W. Russell (2004), REG: P.W. Russell (2004). Fls fully double, c60mm wide, white ground, with rather diffuse, densely spaced alternating streaks of vivid red (57A) and a colour close to but greyer than moderate purplish red to dark purplish pink (186A-C), the colours in a broad marginal band with a few streaks down centre of petals; margins minutely toothed. Lvs blue-green. (Etymology: Betty is the name of the registrant’s wife.)

(pf) ‘Camilla West’

cv. (Un-named seedling × un-named seedling). H: M. Woodfield (2001), G: M. Woodfield (2002), N: M. Woodfield (2004), I: M. Woodfield (2005), REG: M. Woodfield (2004). Fls fully double, 90mm wide, pale rose pink self of good exhibition form; margins toothed; slightly scented. Leaves blue-green, vigorous. Standard. PC 2004

(b) ‘Claire Brade’

cv. (‘Spinfield Warrior’ (s) × pink self seedling similar to ‘Spinfield Party Dress’). H: P.W. Russell (1999), G: P.W. Russell (2000), N: P.W. Russell, REG: P.W. Russell (2004). Fls fully double, c70mm wide, ground white, narrowly edged and finely marked greyish red/moderate purplish red (184A/184C); margins entire or minutely toothed; not scented. Vigorous. (Nomenclatural standard: herbarium specimen provided by registrant (WSY 0047303). The spelling ‘Clare Brade’ has sometimes been used in error.)

(b) ‘Clare Brade’

An error for ‘Claire Brade’.

(pf) ‘Clifford Princess’

cv. (‘Linfield Annie’s Fancy’ × ‘Our Jackie’). H: M. Woodfield (2000), G: M. Woodfield (2001), N: M. Woodfield (2004), I: M. Woodfield (2005), REG: M. Woodfield (2004). Fls fully double, 90-100mm wide, pale rose pink self of good exhibition form; margins entire; not scented. Lvs blue-green. Standard. PC 2004

(b) ‘Cream Surprise’

cv. (‘Harkell Special’, open-pollinated). H: P. Cunningham (1999), G: P. Cunningham (2000), N: P. Cunningham (2004), I: P. Cunningham (2004), REG: P. Cunningham (2004). Fls fully double, 70mm wide, cream self (pale yellow-green (157C)); margins entire; clove-scented. Lvs blue-green, compact. Very strong stems.

(pf) ‘Dalakhani’

cv. (‘Elsie Kerchen’ (s) × un-named seedling). H: M. Woodfield (2001), G: M. Woodfield (2002), N: M. Woodfield (2004), I: M. Woodfield (2005), REG: M. Woodfield (2004). Fls fully double, 90-95mm wide, ground pale green, edged and flecked scarlet; margins toothed; not scented. Lvs blue-green. Standard. (Etymology: Dalakhani is a racehorse owned by the Aga Khan whose racing colours are green and red.)

(p) DEVON FIRE STAR Trade designation for ‘Devon Xera’.

(p) ‘Devon Xera’

cv. (‘Neon Star’ × ‘Neon Star’). H: H.R. Whetman & Son (2000), G: H.R. Whetman & Son (2001), N: H.R. Whetman & Son (2003), REG: H.R. Whetman & Son (2004). Fls semi-double (with 2 rows of 5 petals), 15mm wide, ground vivid red (46B) with a strong red (46A) eye; margins toothed; scented. Lvs grey-green. Very compact habit, stems to 15cm (under glass); free-flowering and with a long season. (Trade designation FIRE STAR, DEVON FIRE STAR.)

(b) ‘Don Felce’

cv. (‘Spinfield Joy’ (s) × un-named crimson seedling). H: P.W. Russell (1999), G: P.W. Russell (2000), N: P.W. Russell, REG: P.W. Russell (2004). Fls fully double, c55mm wide, ground light greenish yellow (4C), edged dark red (187A) and with heavy streaking over ⅔ of each petal of dark red to deep purplish red (187A-D); margins smooth; not scented. Lvs blue-green. (Etymology: Don Felce is named in memory of a border carnation grower from Northampton (UK).)

(p) ‘Eleanor Parker’

cv. (*frenyii* × *strictus*). H: B. Burrow, G: B. Burrow (2001), N: B. Burrow (2003), I: B. Burrow, REG: B. Burrow (2004). Fls single, 12-15mm wide, solitary, with very rounded, overlapping petals producing a circular flower, clear pale pink ground, with darker pink lines radiating from the centre; margins almost entire; scented. Leaves c15mm long, stiff, blue. Plants forming tight cushions 30-50 × 200mm (in the open). (Etymology: named for the granddaughter of the registrant’s sister.)

(b) ‘Emily Brade’

cv. (‘Spinfield Herald’ (s) × ‘Claire Kathrine’). H: P.W. Russell (2000), G: P.W. Russell (2001), N: P.W. Russell, REG: P.W. Russell (2004). Fls fully double, 70mm wide, ground pale yellow (11D), edged and finely striped at margins with deep purplish red and deep purplish pink (54A&B); margins entire or minutely toothed; not scented. Vigorous. (Nomenclatural standard: herbarium specimen provided by registrant (WSY 0047305).)

(p) FIRE STAR Trade designation for ‘Devon Xera’.

(p) 'Heart Attack'

See *barbatus* 'Heart Attack'.

(p) 'Highland Mist'

cv. (Oakwood seedling no. 106 × 'Marina Johnson'). H: A. Wares (2002), G: A. Wares (2003), N: A. Wares (2004), I: A. Wares (2004), REG: A. Wares (2004). Fls single, 45mm wide, "cyclamen" pink ground, with a strong red eye extending to the throat; margins shortly toothed, wavy; scented. Lvs grey-green. Stems 54cm (in the open). Strong grower. (Nomenclatural standard: colour print provided by registrant (WSY 0051744). Etymology: raiser indicates this ('highland mist') is 'reason I stay in the Highlands'.)

(p) 'Isabel Murray'

An error for 'Isobel Murray'.

(p) 'Isobel Murray'

cv. ('Red Beret' (s) × unknown). H: D. Murray (2001), G: D. Murray (2002), N: D. Murray, REG: D. Murray (2004). Fls double (but not very fully so and with an open centre containing a few smaller petaloids), 54mm wide, crimson self; margins very shallowly toothed. Stems 46cm. (Etymology: Named after the registrant's wife. Sometimes seen with the incorrect spelling 'Isabel Murray'.)

(pf) 'Istabraq'

cv. (('John Faulkner' × un-named seedling) × un-named seedling). H: M. Woodfield (2001), G: M. Woodfield (2002), N: M. Woodfield (2004), I: M. Woodfield (2005), REG: M. Woodfield (2004). Fls fully double, 90-100mm wide, white self; margins toothed; slightly scented. Lvs blue-green. Very free-flowering. Standard. (Etymology: Istabraaq is an Irish horse and a champion hurdler.)

(pf) 'Judy Ann'

cv. (Un-named seedling × un-named seedling). H: M. Woodfield (1997), G: M. Woodfield (1998), N: M. Woodfield (1998), I: M. Woodfield (2004), REG: M. Woodfield (2004). Fls fully double, 75mm wide, ground white, with edging and flecks of scarlet; margins toothed; slightly clove-scented. Lvs grey-green. Standard. (Etymology: named for the registrant's partner, Judy, and his brother's wife, Ann.)

(p) 'Kellie Aldred'

cv. ('Welton Beauty' (s) × 'Anders Tia'). H: A.J. Derrick (2001), G: A.J. Derrick (2002), N: A.J. Derrick (2003), I: A.J. Derrick (2003), REG: A.J. Derrick (2004). Fls semi-double, ground white, with an eye and well-formed lacing of purplish red within a very narrow rim of white; margins very shortly toothed; scented. Lvs very dark grey-blue. Stems 30cm (under glass). (Etymology: named in memory of the daughter of a BNCS member.)

(p) 'Kessock Classic'

cv. (Parentage unknown). H: D.H. Portman (1999), G: D.H. Portman (2000), N: D.H. Portman (2002), REG: D.H. Portman (2004). Fls single, 40mm wide, ground white, suffused bright pink, with solid lacing and a small star-shaped eye of beetroot red; margins toothed; not scented. Lvs grey-green, spreading. Open, spreading habit with stems to 20cm (in the open).

(p) 'Kessock Star'

cv. (Parentage unknown). H: D.H. Portman (1999), G: D.H. Portman (2000), N: D.H. Portman (2001), REG: D.H. Portman (2004). Fls single, 50mm wide, ground white, suffused pink and with heavy lacing and large star-shaped eye of burgundy red; margins entire; slightly scented. Bushy plant to 30cm (in the open).

(b) 'Kessock Zambra'

cv. (Parentage unknown). H: D.H. Portman (1998), G: D.H. Portman (1999), N: R. Bowers (2002), I: R. Bowers (2004), REG: R. Bowers (2004). Fls single, 50mm wide, ground pale pink, heavily marked with rose red, with a small pink blotch on each petal and a neat, darker eye; whole flower has slight spotting; margins entire; slightly scented. Stems erect but weak, 20cm (in the open). Flowers of good rounded form with petals well positioned.

(p) 'Lilie Brooks'

cv. ('Belmont Duchess', open-pollinated). H: Mrs M. Tomlinson (2001), G: Mrs M. Tomlinson (2002), N: Mrs M. Tomlinson (2004), I: Mrs M. Tomlinson (2004), REG: Mrs M. Tomlinson (2004). Fls single, c50mm wide, crimson self (vivid red, 57A); margins entire or with very small, irregular, shallow teeth; not scented. Lvs grey-green. Stems 35cm (under glass). Plant produces many stems and a lot of lateral buds. (Etymology: named after the registrant's mother using her maiden name.)

(b) 'Mrs Ethel Hobbah'

cv. ('Annie Conlon' (s) × 'Whittle's White'). H: J.S. Whittle (2001), G: J.S. Whittle (2002), N: J.S. Whittle, REG: J.S. Whittle (2004). Fls double, 90-100mm wide, ground white, edged light pink and marked as in 'Annie Conlon'; margins entire; not scented. Lvs silver green. Stems 1.2m (under glass).

(b) 'Mr Snowy Marshall'

cv. ('Annie Conlon' (s) × un-named seedling). H: J.S. Whittle (2000), G: J.S. Whittle (2001), N: J.S. Whittle, REG: J.S. Whittle (2004). Fls double, 90mm wide, white self; margins entire; not scented. Stems 0.6m (under glass).

(b) 'Mrs Sylvia Marshall'

cv. (Un-named seedling (s) × un-named seedling). H: J.S. Whittle (2001), G: J.S. Whittle (2002), N: J.S. Whittle, REG: J.S. Whittle (2004). Fls double, 75-95mm wide, apricot ground, with mauve/grey silver overlay; not scented. Stems 72cm (under glass).

(b) 'Olivia Angel Johnson'

cv. (Un-named seedling (s) × 'Sunray'). H: J.S. Whittle (1999), G: J.S. Whittle (2000), N: J.S. Whittle, REG: J.S. Whittle (2004). Fls double, 75-90mm wide, light yellow self; margins entire; not scented. Stems c80cm (under glass).

(pf) 'Our Jackie'

cv. (Un-named seedling × un-named seedling). H: M. Woodfield (1997), G: M. Woodfield (1998), N: M. Woodfield (1998), I: M. Woodfield (1999), REG: M. Woodfield (2004). Fls fully double, 75mm wide, moderate to light pink (49B-C) self; margins toothed; slight clove scent. Lvs grey-green. Standard. AGM 2003. (Has been seen in error as 'Our Jacque'. Etymology: named for the raiser's niece.)

(p) 'Our Jacque'

An error for 'Our Jackie'.

(b) 'Spinfield Comet 2'

cv. ('Spinfield Comet' × 'Spinfield Comet'). H: P.W. Russell (1998), G: P.W. Russell (1999), N: P.W. Russell (2004), REG: P.W. Russell (2004). Fls fully double, 75mm wide, ground near strong red (46A), with occasional narrow sections and with more narrow stripes and flecks of dark red (187B); margins entire; not scented. Lvs blue-green. Epicalyx segments with large, distinctly darker green tips. (Has more and narrower markings than 'Spinfield Comet 3'.)

(b) 'Spinfield Comet 3'

cv. ('Spinfield Comet' × 'Spinfield Comet'). H: P.W. Russell (1998), G: P.W. Russell (1998), N: P.W. Russell (2004), REG: P.W. Russell (2004). Fls fully double, c80mm wide, ground vivid red (46B), with marks of dark red (187B) - mostly as broad sectors or stripes - some petals almost unmarked, some almost completely covered; margins with minute teeth; not scented. Epicalyx segments only obscurely darker green at tips. Very robust. (Resembles 'Spinfield Comet' but has bigger flowers (with broader markings) and a 'brighter' colour.)

(b) 'Spinfield Fireball'

cv. ('Spinfield Sparkler' (s) × un-named seedling). H: P.W. Russell (2000), G: P.W. Russell (2001), N: P.W. Russell, REG: P.W. Russell (2004). Fls fully double, 60mm wide, ground a sequence of light orange-yellow (24C), light yellow (18B) and pale yellow (11D) - i.e. paling from centre towards base of petal as a tapered heart-shape - suffused/marked moderate purplish red (186A) and vivid reddish orange (44B); margins entire or minutely dentate; not scented. Robust foliage. (Nomenclatural standard: herbarium specimen provided by registrant (WSY 0047306).)

(b) 'Spinfield Supreme'

cv. ('Spinfield Snowflake' (s) × white self seedling). H: P.W. Russell (2000), G: P.W. Russell (2001), N: P.W. Russell, REG: P.W. Russell (2004). Fls fully double, c75mm wide, white self; margins entire; not scented. Robust growth.

(b) 'Spinfield Warrior'

cv. (Un-named seedling × un-named seedling). H: P.W. Russell (1998), G: P.W. Russell (1999), N: P.W. Russell, REG: P.W. Russell (2004). Fls fully double, 75mm wide, ground white, edged vivid red (c46C) and with short lines and flecks around margins and with flecks and longer lines often extending down centre of each petal; margins very shortly toothed; not scented. Robust habit. (Nomenclatural standard: herbarium specimen provided by registrant (WSY 0047304). Parent seedlings both white ground fancies.)

(p) 'Sutton Brierley Grace'

cv. ('Sutton Maggie May' (s) × 'Marina Johnson'). H: M.A. Newby (2003), G: M.A. Newby (2004), N: M.A. Newby (2004), I: M.A. Newby (2004), REG: M.A. Newby (2004). Fls fully double (5-6 rows of petals), 50mm wide, flat-opening with a clean open centre, ground pink, with a crimson eye (the eye-marking slightly extended along centre line of petal as a rounded bump); margins entire to minutely toothed. Lvs blue-green. Stems 60cm (under glass), very robust and thick. Many side buds. (Nomenclatural standard: colour print provided by registrant (WSY 0051732). Etymology: named for a granddaughter of the registrant (Grace) who lives near a Brierley Park.)

(p) 'Sutton Harold Newby'

cv. ('Margaret Taylor' × 'Sutton Dorothy Deaton'). H: M.A. Newby (2002), G: M.A. Newby (2003), N: M.A. Newby (2004), I: M.A. Newby (2004), REG: M.A. Newby (2004). Fls fully double, 45mm wide, of good circular form, bright crimson self; margins minutely toothed. Lvs blue-green. Stems very straight (55cm, under glass); plant not very bushy. (Nomenclatural standard: colour print provided by registrant (WSY 0051742). Etymology: named for the late father of the registrant. First published in Yorkshire Carnation Society's plant list 2004.)

(p) 'Sutton Libby May'

cv. (Un-named seedling (s) × un-named seedling). H: M.A. Newby (2001), G: M.A. Newby (2002), N: M.A. Newby (2003), I: M.A. Newby (2003), REG: M.A. Newby (2004). Fls fully double, 50mm wide, good domed shape with a closed

centre, deep pink self; margins minutely toothed. Lvs blue-green. Stems 65cm (under glass). Vigorous, though rather tall; flowering early. (Nomenclatural standard: colour print provided by registrant (WSY 0051738). Etymology: named for deceased granddaughter of the registrant's partner. First published in Yorkshire Carnation Society's plant list 2003.)

(p) 'Sutton Lorens Amour'

cv. ('Marina Johnson' (s) × un-named seedling). H: M.A. Newby (2002), G: M.A. Newby (2003), N: M.A. Newby (2003), REG: M.A. Newby (2004). Fls fully double (but opening out flat with an open centre with an occasional short petaloid), 45mm wide, pink ground, with a very pale base to each petal limb which is separated from the distal part of petal by a band of light crimson (which may be a continuous band (but not reaching to edges) or a discontinuous set of marks); margins minutely toothed. Lvs bluish green, very similar to 'Marina Johnson'. Stems 55cm tall (under glass), straight; bushy habit. (Nomenclatural standard: colour print provided by registrant (WSY 0051737). Etymology: named for a granddaughter of the registrant.)

(p) 'Sutton Maggie May'

cv. ('Marina Johnson' (s) × un-named seedling). H: M.A. Newby (2001), G: M.A. Newby (2002), N: M.A. Newby (2002), I: M.A. Newby (2003), REG: M.A. Newby (2004). Fls fully double, 40mm wide, with rather cupped petals and closed centre, pure white ground, with faintest of pink traces around the centre; margins entire to minutely toothed; scented. Lvs grey-green. Stems 60cm (under glass). Very vigorous. (Nomenclatural standard: colour print provided by registrant (WSY 0051736). Etymology: Maggie is the name of a friend of the registrant. First published in Yorkshire Carnation Society's plant list 2003.)

(p) 'Sutton Molly Truswell'

cv. ('Marina Johnson' (s) × un-named seedling). H: M.A. Newby (2001), G: M.A. Newby (2002), N: M.A. Newby (2002), REG: M.A. Newby (2004). Fls fully double, 50mm wide, of good form and shape (the petals very broad, hardly waved, opening fairly flat but with tight centre), deep fuchsia pink self; margins entire. Lvs blue-green, tending to be clustered at base of stems. Plant very bushy at base, with numerous stems and flowers; stems 55cm (under glass). (Nomenclatural standard: colour print provided by registrant (WSY 0051740). Etymology: named for an aunt of the registrant. First published in Yorkshire Carnation Society's plant list 2003.)

(p) 'Sutton Old English'

cv. (Un-named seedling × un-named seedling). H: M.A. Newby (2002), G: M.A. Newby (2003), N: M.A. Newby (2004), I: M.A. Newby (2004), REG: M.A. Newby (2004). Fls fully double, 55mm wide, with a closed centre and good circular form, pink self; margins entire or minutely toothed. Lvs grey-green, wide and thick, resembling those of a pf carnation. Stems c80cm (under glass), tall and thick. (A difficult plant to grow and may have pf or border carnation in its ancestry. Nomenclatural standard: colour print provided by registrant (WSY 0051741). Etymology: the flowers are said to open looking like an 'old English rose'.)

(p) 'Sutton Pamela Flett Supreme'

cv. (Sport from 'Pamela Flett'). N: M.A. Newby (2004), I: M.A. Newby (2004), REG: M.A. Newby (2004). Fls fully double, 50mm wide, of good rounded form and with a closed centre, ground pale pink, with very dense, even markings of deep salmon; margins entire to minutely toothed; not scented. Lvs grey-green, the same as parent. Stems c60cm (under glass), robust. Bushy habit. First propagated (2003): M.A. Newby. (Nomenclatural standard: colour print provided by registrant (WSY 0051731). Etymology: derived from parentage.)

(p) ‘Sutton Petite Marina’

cv. (‘Marina Johnson’ (s) × ‘Marina Johnson’). H: M.A. Newby (2002), G: M.A. Newby (2003), N: M.A. Newby (2004), I: M.A. Newby (2004), REG: M.A. Newby (2004). Fls single, 35mm wide, of good rounded form and open centre, flat, pale pink ground, with a broad crimson eye; margins shallowly toothed. Lvs narrow, blue-green. Stems 55cm (under glass), straight. Bushy-based habit, with many side buds to give plenty of stems. (Nomenclatural standard: colour print provided by registrant (WSY 0051743). Etymology: looks like a smaller, single-flowered version of its parent. First published in Yorkshire Carnation Society’s plant list 2004.)

(p) ‘Sutton Sarah Tilley’

cv. (Un-named seedling × un-named seedling). H: M.A. Newby (2002), G: M.A. Newby (2003), N: M.A. Newby (2004), I: M.A. Newby (2004), REG: M.A. Newby (2004). Fls fully double, 45mm wide, with a more-or-less closed centre, petals slightly cupped, salmon pink self; margins minutely toothed. Strong, very straight stems to 60cm (under glass). Compact habit. (Nomenclatural standard: colour print provided by registrant (WSY 0051735). Etymology: named for a granddaughter of the registrant. First published in Yorkshire Carnation Society’s plant list 2004.)

(p) ‘Sutton Scarlet O’Hara’

cv. (Un-named seedling × un-named seedling). H: M.A. Newby (2001), G: M.A. Newby (2002), N: M.A. Newby (2002), I: M.A. Newby (2002), REG: M.A. Newby (2004). Fls fully double, 45mm wide, with a closed centre, scarlet self or the odd petal showing a fleck of white; margins entire to minutely toothed. Lvs blue-green, slightly paler than normal pinks foliage. Stems 65mm (under glass). Strong growing, with lots of side buds. (Nomenclatural standard: colour print provided by registrant (WSY 0051734). Etymology: name suggested by vivid colour, the spelling of “Scarlet” with one ‘t’ is deliberate. First published in Yorkshire Carnation Society’s plant list 2004.)

(p) ‘Sutton Secret Love’

cv. (‘Belmont Ruby Wedding’ (s) × ‘Sutton Dorothy Deaton’). H: M.A. Newby (2002), G: M.A. Newby (2003), N: M.A. Newby (2003), I: M.A. Newby (2003), REG: M.A. Newby (2004). Fls fully double, 50mm wide, with a closed centre, very deep purple self; margins entire. Lvs broader than usual, blue-green. Stems 60cm (under glass), very straight. Strong-growing, with many side buds. (Etymology: deep purple colour reckoned to engender ‘a sense of mystery about it’. First published in Yorkshire Carnation Society’s plant list 2004.)

(b) ‘Valerie Ann’

cv. (Un-named seedling × un-named seedling). H: P.W. Russell (1998), G: P.W. Russell (1999), N: P.W. Russell, REG: P.W. Russell (2004). Fls fully double, 60mm wide, ground yellower and brighter than deep purplish pink (54B), with sectors, stripes and flecks of strong red (45D&47B); margins entire or minutely toothed; not scented. Vigorous growth, with good, straight, strong stems.

(pf) ‘Woodfield’s Crimson’

cv. (‘Christine Earnshaw’ (s) × ‘Allwood’s Crimson’). H: M. Woodfield (2001), G: M. Woodfield (2002), N: M. Woodfield (2002), I: M. Woodfield (2004), REG: M. Woodfield (2004). Fls fully double, 78mm wide, crimson self; margins toothed; strong clove-scented. Lvs grey-green. Standard.
