

# RHS Chelsea Flower Show 2018

## Inspired by the M&G Garden 2m x 1m Planting Plan

Create your own -  
'Mediterranean' themed area inspired by the M&G Garden.

The M&G Garden is a romanticised haven designed for a warm, sunny climate. It expands on a timeless idea that a wall, a tree and a seat can create an intimate and beautiful place of repose. Using Mediterranean flora and raw materials dug directly out of the earth (clay, aggregate, pigment and tile), the space celebrates the expressive language of colour, texture, light and shadow.
